CHRISTIAN SCIENCE **FXPOSITION IS GIVEN**

Better Means of Healing Declared Need by Professor H. S. Hering.

RECENT DISCOVERIES TOLD

Matter Is Held to Be Form of Energy, and Disease, Sin, Death, Discords, Etc., Classed as Errors of Consciousness.

Christian Science was given last evening in First Church of Christ, Scientist, by Professor Hermann & Hering, C. S. B., who lectured to an audience

beheld the Star of Truth which overhung the manger wherein was cradled Jesus, the Christ. By the light of the same truth, for some hundred years thereafter, the sick were healed, the bilind made to see, the dumb to speak, the deaf to hear, and the lame to walk; devils were cast out and sinners were regenerated, and all by one and the same process. Unfortunately this Truth for many succeeding centuries was lost, and it remained so until its discovery in the year of 1866 by Mary Baker Eddy, who, in 1875 gave to the world a concise statement of her discovery in the form of "Science and Health, With Key to the Scriptures," since With Key to the Scriptures," since which time this Science has encircled the globe and the sun never sets upon its adherents. Every civilized country on the face of the earth with its multi-plied thousands of beneficiaries are testifying to its healing and regenerat-

Better Healing Declared Need.

A part of Professor Hering's lecture follows:

There is no question of such general interest to mankind as the one of healing. The universal demand and endeavor of humanity is for a larger measure of health and happiness than is today attained, and there is manifestly great need of some better means of healing han that in general use.

In the Bible, that remarkable and unique book which is believed in, respected and loved by millions of people as the standard of morals and right living, and as the true record of the appearing of divinity on earth for the salvation of mankind, in both the Old and New Testaments of this book there are many statements which point to a means of healing both at and disease which Christ Jesus proved to be far superior to all others, a healing and saving power which should be searched for and found along very different lines from those generally followed, and which is above and apart from all that is material.

According to recent discoveries in physical science matter is a form of energy instead of the indestructible stuff or entity it has been believed to be, its unit, the atom, is found to be composed of positive and negative electrical corpuscies, called electrons and form.

Idealistic obligatory and the provided for the schoolhouse and the intervening street. This is a fine district and a building should be erected in keeping with the character of the district. I am confident our canvass will show that we need a schoolhouse in this territory."

Regular Shakeup Occurs in Juvenile Police Force

Official Heads of Seven Boy Policemena Chopped Off by Commission for Conduct Unbecoming Officers.

There is no question of makind. In both the conductive of the indestructible stuff or entity it has been believed to be, its unit, the atom, is found to be composed of positive and negative electrical corpuscies, called electrons and lons.

Material Objects Defined. Material Objects Defined.

Idealistic philosophy and psychology teach that material objects are but objectified mental impressions or concepts and not exterior substantive entities.

Christ Jesus proved existence to be wholly mental when he waited on the water, stilled the tempest and overcame other material conditions.

but spiritual.

Perfect God, perfect man, perfect being, is the basis of all Christian Science teaching, analysis and practice. This is the standard by which Christian Science measures and tests all human phenomena and experiences in order to determine their true value. Spiritual Understanding Possible.

Spiritual Understanding Possible.

This spiritual understanding, the perception and apprehension of divine truth. Christian Science now makes possible to all. Disease, sin, death, all discords, are, therefore, to be classed as errors of mortal consciousness, as mesmeric, illusory mental consciousness, as mesmeric, illusory mental conditions. On this basis they can be currected with truth, while they cannot be currected so long as they are classed as either physical or mental realities. Even according to psychology and philosophy they are but objectified sense impressions. When an fill or sin is behaled in Christian Science it is not the thought of the Christian Scientist which does the healing, but the spiritual truth which he knows and applies to the human error. The power is in the truth itself and not in the human will Jesus said, "Ye shall know the truth, and the truth shall make you free."

E. W. Doane, 60 years old, ex-deputy in the tax department of the Sheriff's office, was yesterday arrested by Deputy Constable Hunter on charge of having swindled Mrs. Egith Boales, of Greenburg, Or., in the sum of \$42.60, the face amount of a check which he gave her as part payment on some furniture.

Mrs. Boales told Deputy District Attorney Deich that Doane first ofered to buy her house, and in payment tendered a deed to a parcel of land in Klickitat County. It turned out later that he did not own the designated land, she said, but that he did own land nearby, which

PORT CAMPAIGN GETS AID

Civic Organizations of Portland Will Hold Joint Meeting Today.

Commercial and civic organizations of Portland will join the Realty Board at a lunchedn at the Commercial Club at noon today, which is to be one of the biggest demonstrations yet held in the campaign for a 40-foot channel at the mouth of the Columbia and the im-provement of the river harbor. The luncheon will be given in the main dining-room of the Commercial Club. Dr. Alfred Kinney, chalrman of the Part of Columbia committee: ex-Sena-Port of Columbia committee; ex-Senator Bourne, A. H. Averill, president of the Chamber of Commerce, and C. S. Jackson, vice-president of the Com-

mercial Club, will be the speakers. Among other features of importance in the meeting will be the launching of a campaign to secure an additional dredge for the work on the bar and a resolution of protest against the order which will remove Major McIndoe from the Portland district to the Philippines.

An attendance of about 400 is ex-

VISITORS EAT BEAR MEAT

Ad Club Entertains Delegates to League of Municipalities.

Mayors and officials from 40 cities analysis and officials from a cities that the first of the Odfeliows of the Northwest ate bear meat with ton, grand master of the Odfeliows of the Portland Ad Club at the Portland the State of Washington, were guests of honor tonight at a banquet given by formal entertainment extended by a Portland organization to the delegates attending the convention of the North-west League of Municipalities. H. R. Albee, Mayor of Portland, was chalrman of the day.

The bear meat was a special compliment to the members of the club and their guests by Manager Kauffman, of the Portland Hotel.

RAILROAD ROW LOSES ONE

Great Northern Passenger to Move to Morgan Building.

"Goodby to Railroad Row" will be cials in Portland within the next few Adv.

weeks when they move from 122 Third street to rooms now being fitted up at 348 Washington street in the new Morgan building.

This will be the first railroad office to move from the old "row" on Third street, which has included virtually all the railroad and steamship offices in the city for the last decade. It marks another step toward the end of Third street as the railroad center. When the Southern Pacific established offices at Sixth and Oak streets early in the year the disintegration of the "row" was fairly started.

It is predicted that within the next year both the 0.-W. R. & N. Company and the Northern Pacific will follow the retail district westward. In that event the foreign lines will stampede to be near them.

to be near them.

The Great Northern passenger and ticket offices alone will occupy the room in the Morgan building. The freight offices will remain where they are—on the fourth floor of the Railway Exchange building.

COMMITTEE TAKING CENSUS IN NORTHEAST SECTION.

A clear exposition of the teachings of Rev. Oswald W. Taylor Favors Four Room Building and Plenty of Ground for Recreation.

which filled that edifice to its capacity.

The lecture will be repeated this evening at 8 o'clock.

W. T. Vaughn, who introduced the speaker of the evening, said in part:

"Something over 1900 years ago the shepherds on the hills of Bethlehem beheld the Star of Truth which overhung the manger wherein was craded pointed to gather data for submismeda Park, Gleneyrie and several smaller residence additions, which are diling up with homes. It is thought that there are between 500 and 600 homes in this territory. Chairman Taylor said that a schoolhouse can be built where it will be a mile from the Fernwood. Irvington and Vernoon schoolhouses.

It was the juvenile department, gov-erned by the boy Mayor and boy City Commissioners.

At a meeting of the juveniles it was found that certain juvenile policemen have been acting in a manner unbe-coming policemen. Accordingly seven terial conditions.

Since these discordant conditions exist solely as a state of human consciousness their correction or destruction involves a transformation of this consciousness.

The universe created and constantly sustained by God must be like him, for like produces like, therefore the real universe is not finite or dimensional but infinite, not destructible but indestructible, not material but spiritual.

DEPUTY UNDER ARREST

E. W. Doane Charged With Swin-

a deed to a parcel of land in Klickitat County. It turned out later that he did not own the designated land, she said, but that he did own land nearby, which he sold to a third party. She said that the furniture of the house, which he bought from her, he mortgaged without having secured title to it.

Doane, who gave his residence as 430 Washington street, was first held under \$2500 cash bail, but this was later re-

NEW FREIGHT AGENT HERE

George Cahill Is Promoted From Grand Trunk Seattle Office.

George Cahill is the new freight agent for the Grand Trunk railroad and steamship system. He arrived yesterday, took off his coat and went to work in the new Grand Trunk of-fices at Third and Washington streets. For the last few years he has been traveling freight agent for the same company out of Seattle and on account of efficient services was promoted to

Dorsey B. Smith, who has been agent for the Grand Trunk in this city for the last year and a half, will handle passengor business exclusively. The Grand Trunk expects to assume an aggressive attitude in its competition for business out of Portland and as occasion demands will add to its force.
