The suit is filed by Mr. Akin as a stockholder of the original company. He says in his complaint that no accounting has been made of the moneys involved have ever been made to the Diamond Vitrefied Brick Company since the assets were turned over to Mr. Bates for final settlement, though the plant was operated for several years and later sold to the Columbia Clay Company. An accounting of the profits and losses of the company, and moneys realized by the sale are demanded.

Peoples Theater Will Produce Froh- man Productions Exclusively.

The Peoples Theater will occupy a place in motion pictures exclusively its own and after Sunday, October 19. It will operate in its own special field and will enter into competition with no other photo-play theater. The service, consisting of but one change each week, will be supplied by Daniel Frohman, whose famous "Player" film company for the past year has been engaged in the production of the world's greatest plays enacted in each instance by some celebrated actor.

"It is needless to state," said Melvin G. Winstock yesterday, "that as a dramatic producer no man occupies higher rank in this country than Mr. Frohman. He has made his reputation as a careful and artistic producer. In his work in film he has carried all the care, attention to detail and artistry which characterized his theatrical efforts. Every photo play has been carefully selected and produced with greatest care."

"As a proof of this I need only point to the attraction of the opening two weeks, Mrs. Fiske, in 'Teas of the d'Urbervilles,' and Mary Pickford, in the play 'In the Bishop's Carriage.'"

Oriental Rugs

cannot be considered a luxury, for aside from their exquisite beauty, which is unattainable in a carpet of Domestic make—the beautiful blending of colors and shades distinctive of the Art of the Oriental—there is practically no limit to their wearing qualities. They are often handed down from generation to generation, becoming enhanced in value as time goes on. To the true connoisseur the buying of an Oriental Rug is an investment.

Atiyeh Bros. Auction

You may select any rug you wish beforehand and bid it in when the sale starts. Hundreds of varieties and in sizes from the small mat to the large room size, and some of them valued as high as \$8500.00.

SALESMANSHIP IS SUBJECT

Lecture Given at Y. M. C. A. Pre- paratory to Starting Course.

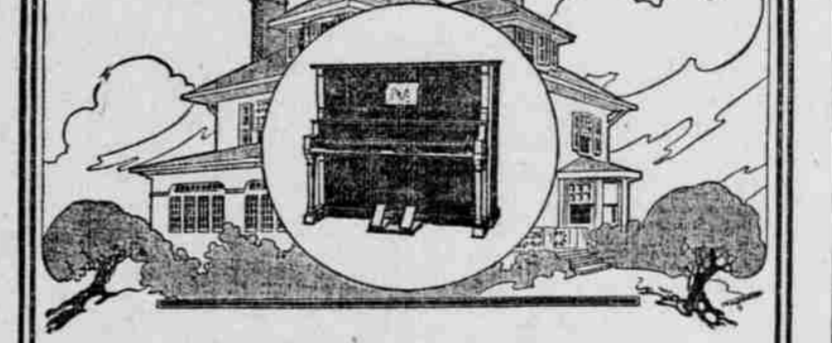

There are 12 qualities of successful salesmanship in the opinion of J. S. Knox, of Des Moines, Ia., who lectured in the auditorium of the Young Men's Christian Association last night under the auspices of the Y. M. C. A. educational department. These qualities he named as health, honesty, open-mindedness, knowledge, tact, courage, initiative, enthusiasm, industry and purpose. The lecture was delivered before a large gathering of salesmen, and was preliminary to a course in salesmanship that is to open next Friday night. "Ninety per cent of the salesmen of the country are on the verge of effluence bankruptcy," said Mr. Knox, "but the average man, according to the late Dr. James, uses only 10 per cent of his brain power. What is needed is more man rather than more men. Character, with brains correctly trained, is the best-paid product in the world. Failure to think right, to talk right, to write right and failure to understand human nature correctly are the four great causes of business failures."

PLEA MADE FOR PUPIL

Dr. Groszmann Addresses Big Audi- ence at Library.

"The Classification of Exceptional Children" was the subject of an address Tuesday night by Maximilian P. E. Groszmann, Ph. D., educational director of the National Association for the Study and Education of Exceptional Children. A large audience assembled in the new library to listen to Dr. Groszmann. Mrs. Robert H. Tate, president of the Oregon Congress of Mothers, under whose auspices the lecture was given, presided.

Dr. Groszmann praised the present public school system and the innovations and tests that have been instituted by Superintendent Alderman. He said there should be separate schools for the children needing special attention. He emphasized the importance of the playground and urged the co-operation of the universities and medical profession in helping solve the problem of the defective child.
