

SCHOOL BUDGET IS RECOMMENDED LAST YEAR'S

For Bare Maintenance Board Asks \$2,164,000, Against \$2,566,000 in 1912.

RECOMMENDATIONS ARE 3

Tax Levy of 5.5 Mills, Additional Mill for Trades School and \$850,000 Buildings Bond Issue Are Only Requests.

A tax levy of 5.5 mills for actual maintenance of the schools of Portland, an additional mill for erection and equipment of the proposed industrial and trades schools and a bond issue of \$850,000...

Minority Report Due.

"I shall bring in a minority report to the board of the latter recommendations," he said.

The levy for maintenance is the same as last year, on a property valuation approximately the same as last year.

The items recommended for the proposed \$850,000 bond issue are divided among the following improvements: Couch School and grounds, \$275,000; Shattuck School and grounds, \$275,000; playground and stadium for Lincoln High School and West Side, \$150,000; Elliott School, \$30,000; Woodlawn School, \$25,000; North East Irvington School, \$25,000; South East Side Agricultural High School, \$200,000.

Budget Cut to \$2,164,000. The budget at its first reading, when the board was in the beginning of its work, called for \$3,550,400.

Cuts were made in nearly a dozen items and in only a few cases was the estimate on maintenance expenses increased.

Statement to Be Prepared. School Clerk Thomas will prepare an itemized budget statement at once, which will be placed before the voters at the annual meeting.

Throughout the sessions in which the board and the school clerk have been working on the budget, Superintendent Alderman and his assistants, Mr. Grout, Mr. Rice and F. A. Naramore, superintendent of properties, have been in constant advisory attendance.

PHARMACIST FACES SUIT

Frank G. Smith Charges That Clerk Made Mistake in Prescription.

As exemplary and actual damages from receipt of a prescription containing phosphate instead of the pure article, Frank G. Smith asks \$400 damages from Frank Nau, of the Nau Pharmacy, 141 Sixth street, in an action filed in District Court yesterday.

MAN KILLS SELF AT DESK

M. M. Montgomery Ends Brooding Over Failing Health.

Brooding, it is believed, over failing health, M. M. Montgomery, of 544 East Thirty-seventh street, shot himself through the temple some time after 6 o'clock Monday night at the office of Charles L. Mastick & Co., 74 Front street, where he was employed as a salesman.

WOMAN CAUSES NEAR RIOT

Crowd Hoots Street Speakers and Cheers Police.

Mrs. Mary Schwab, of Chicago, precipitated a near-riot last night when she climbed a telephone pole at Sixth and Alder streets and attempted to address a crowd from that elevation.

AIDS TO BE VIEWED

Navigation Inspector to Learn Problems of Pilots.

MORE LIGHTS REQUESTED

Government Official to Study Harbor From Bridge of Steamship Beaver Which Sails With Limit of Passengers.

To obtain a first-hand view of just what pilots have to contend with in handling large vessels in the river at night and judge therefrom what is required in the way of lights and aids to navigation, Henry L. Beck, inspector of the Seventeenth Lighthouse District, left down at 4 o'clock yesterday afternoon on the bridge of the steamer Beaver, Captain Mason commanding.

The Columbia River Pilots' Association petitioned Mr. Beck for about half a dozen new lights at important points along the channel to sea, some of which have to do with localities where vessels frequently become involved. Besides they asked that others in position be changed.

As Captain Archie Pease, head of the association, is pilot for the San Francisco & Portland Steamship Company, it was arranged for Mr. Beck to make the trip last night, so he could see how the beaver and vessels of her class make their way to Astoria. The same conditions governing their journeys also apply to the large tramps, though the latter are deeper when loaded.

From Astoria Mr. Beck will leave tomorrow for Harrington Point, one of the places where aids to navigation are desired. He wishes to study the physical conditions in that vicinity from other than the deck of a liner. If favorably impressed, he will make recommendations to Washington.

The Beaver sailed with her limit of 560 passengers. Under a new ruling of the Coast Guard, she is carrying the larger passenger vessels are having their limit cut down on inspection, and a few have been lopped off the Beaver's list.

NEHALEM JETTY ROCK BOUGHT

Government to Start on South Jetty Extension Shortly.

Work on the extension of the south jetty, at the mouth of the Nehalem, will proceed as soon as preliminaries are attended, under the direction of Major Morrow, Corps of Engineers, U. S. A., who received authorization yesterday from the chief of engineers to enter into a contract with the Miami Quarry Company for the rock at \$13.36 a ton.

When bids were first opened the lowest figure on rock was \$1.40, and it was ordered rejected, but on the company shading the price it was found satisfactory. It probably will be some time before the plant will be ready for the first deliveries. The north jetty has been authorized as well and the estimate for both is \$63,350.

ASTORIA GETS NEW FLEET

Standard of Men Applying Regarded as Unusually High.

Uncle Sam is drawing better material for his Navy from Portland than ever before, according to Lieutenant W. H. Toaz, directing the recruiting station here, who says that it is seldom that an applicant presents himself in a state of inferior or undesirable in appearance.

HARPAGUS TO LOAD LUMBER

Healey & Co. Will Dispatch Tramp to South African Port.

Additional cables from London bearing on the charter last week of the British steamer Harpagus establishes the fact she was engaged by Healey & Company to load lumber for South Africa, and not by the Royal Mail Line, as had been reported. She was taken at a rate of 725 60.

ONLY TWO SHOALS IN RIVER

Mathloma Works to Aid Depth for Willamette Steamers.

If the Government dredge Mathloma can keep open cuts at Lambert's and Wheatland floors at Felice Stack Line as they will not be paying for rain as a means of setting better water between Portland and Salem. The Mathloma was ordered to Lambert's this week, and it is supposed that she later will work at Felice Stack Line at Albany shows 1.6 feet above zero and at Salem it is but seven-tenths above zero.

ASPLUND PLEADS GUILTY

Captain of Wrecked Merced Has No Excuse for Negligence.

SAN FRANCISCO, Oct. 28.—(Special.)—Captain A. F. Asplund, who was in command of the steamship Merced when she struck on Point Gorda on the night of October 18, pleaded guilty to negligence and unskillful navigation before the United States inspectors of hulls and boilers.

BIG PARTY FOR SECRETARY

Old Oregon's Crew to Get Bids for Voyage Through Canal.

As Secretary of the Navy Daniels has given out that he will grant the wish of former members of the battleship Oregon's crew to be aboard her when she leads the canal parade through the Panama Canal next year, only that they will be invited guests instead of enlisted for a brief period, there promises to be a scramble for invitations.

DOCK COMMISSION TO MEET

Whole or Part of \$1,000,000 Bonds May Be Sold.

How to Make the Best Cough Remedy at Home. A Family Supply at Small Cost, and Fully Guaranteed.

Make a plain syrup by mixing one pint of granulated sugar and 1/2 pint of water and stir for 2 minutes. Put 2 1/2 ounces of pure Pinex (fifty cents worth) in a pint bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of \$2. It never stops. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold almost instantly, and will usually conquer an ordinary cough in 24 hours. It tones up the jaded appetite and is just laxative enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, bronchial asthma, whooping cough and spasmodic croup.

This method of making good remedy with Pinex and Sugar Syrup (or strained honey) is now used in more homes than any other cough syrup. This explains why it is often imitated, though never successfully. If you try it, you will get Pinex, which is a most valuable concentrated compound of Norway white pine extract, and is rich in guaicolic and other natural healing pine elements. Other preparations will not work in this combination. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or we will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.—Adv.

Imported cigars to the number of 70,000, being contained in 18 cases, passed through the Custom-House yesterday and netted Uncle Sam duties in the sum of \$4200. They are intended mostly for Christmas trade. Quantities of toys and other Yuletide-stocks are also being entered.

Under engagement to Comyn, Mackall & Co. to load lumber for Valparaiso, the schooner W. H. Talbot reached the city late Monday night from Callao. She may go on drydock here and is to take cargo at the Portland and North Pacific mills.

United States Inspectors Edwards and Fuller will conduct an investigation into the collision between the steamers Shaver and LaCenter this morning. The accident occurred Friday night and through it the LaCenter was seriously damaged.

Captain Jahnsen, commodore of the McCormick Towing and Storage Company, relinquished command of the flagship Klamath, she is coming here this trip in charge of Captain John Foldat, who was transferred from the Shoehone. Captain John Silvia, formerly mate of the Shoehone, takes command.

On her second voyage to Portland the new steamer Columbia, which pierces daily between Grays Harbor and San Francisco, came in yesterday afternoon from the Golden Gate. The steamer Mayfair went from Portland to Rainier last night to work a deckload of lumber and the steamer Willamette proceeded from Oak Point to Puget Sound.

As a result of a journey along the Oregon Coast made by G. M. Watkins, special agent of the Treasury Department, and Harry J. Strowbridge, a Custom-House inspector, 29 complaints
