CESSPOOLS WILL NOT BE REQUIRED.—Commissioner Dieck has decided that cesspools will not be required on the Peninsula, where there are no sewers at present in view of the fact that sewers soon are to be constructed to all portions of this area. The cost of the cesspools is \$30 to \$60 to build a cesspool according to the requirements of the city, which is nearly as much as the cost of a lateral sewer and will cost, and they soon will be replaced.

CONSTRUCTIVE FANCY MILLINERY AS BEING FOR SCIENTIFIC PURPOSES.—The state has the right to protect its songsters and other birds of beautiful plumage. White herons and some of our other plumaged birds have been practically exterminated by plume-hunters who are paid by wholesale milliners. Certain species have not only been exterminated, but it is a fact that the egret is the nuptial plumage of the white heron and is worn only during the breeding season. From a humane standpoint, no right-minded woman will want to wear heron egret feathers.

THE COURTS OF MASSACHUSETTS, it is asserted, recently went on record with a decision declaring that the women had a right to wear egret feathers provided they were purchased before the law went into effect. "The Oregon law, however, prohibits possession of the bird or any part thereof, and on that score Mr. Finley expects to secure convictions.
