Attempted Intimidation on Part of State Railroad Commission Is Hinted.

STATEMENT TO BE IGNORED

Measure to Come Up for Final Passage Is Favored by at Least Three of City Body, Which Will Employ Expert.

With the City Commission standing at least 3 to 2 in favor of the passage of an ordinance requiring the Portland Railway, Light & Power Company to grant six street car fares for 25 cents, the measure will come up for final passage at the regular meeting of the Commission this morning. It will receive the favorable vote of Mayor Albeet and City Commissioners Daly and Bigg. and City Commissioners Daly and Bige-

and City Commissioners Daly and Bige-low. Commissioner Brewster says he will vote against it, while Commis-sioner Dieck is noncommittal. In taking final action no attention will be paid by those favoring the measure to the statement made by Frank J. Miller, chairman of the State Hailway Commission, to the effect that the action of the Commission here will be set aside. Commissioner Daly and Commissioner Bigelow expressed opin-ions yesterday to the effect that the statements of the State Commissioner were uncalled for and were in the na-ture of an intimidation.

State Commission Ignored. "In our consideration of this proposition." said Commissioner Daly, author of the reduced fare ordinance. "we do not know the Railroad Commission is on earth. We are representing the prople and as such have the right and

power to pass laws.
"The city is entitled to a hearing be-fore the Railroad Commission the same with a silver commission the same as is the Portland Railway, Light & Power Company. When this hearing is concluded it is time enough for a decision. We propose to have an expert go over the valuation as fixed by the expert engaged by the street car component of the same and mother were both expert swimmers and the children were all born on the Atlantic scaboard. At an consideration as the other expert."

Commissioner Bigelow declared that the attitude of the Railroad Commission would seem to border on attempted intimidation. "It seems to me that this statement of a member of the Railroad Commission was out of place," he said "It was rendering a decision before there was any case to be decided."

Instead of battling for their client's liberty, Robinwitz' attorneys offered to pay all the expenses of the state and the amounts lent by the complaining parties if he were allowed to go free. The Wilson Administration is making considerable piez that it cannot recognize siderable piea that it cannot recognize the 'murderer of Madero,' but, for the peace of Mexico and the good of the country the only thing that Huerta could do under the circumstances was to have Madero and Suarez shot." She Tells How She Did It.

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: "Any lady or gentleman can darken their gray or faded hair, stimulate its growth and make it soft and glossy with this simple recipe, which they can mix at home. To half pint of water add 1 oz of bay rum, I small box of Barbo Compound and M oz. glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently, then every two weeks. This mixture relieves scalp troubles and is excellent for dandruff and falling hair. It does not stain the scalp, is not sticky or greasy and does not rub off. It will make a gray-haired person look 10 to 20 years younger."—Adv.
