

SENATORS WORK ON CURRENCY REPORT

Four Administration Standbys Hope to Persuade Reed and O'Gorman.

HITCHCOCK TO HOLD OUT

Effort Will Be Made to Leave Subject to Party Conference—Republicans Preparing to Submit Bill of Their Own.

WASHINGTON, Nov. 9.—Senators Owens, Shafroth, Pomeroy and Hollis, the four Democrats who found it impossible to put the Administration currency bill through the Senate banking committee, today in a report on the bill to be submitted to the Democratic conference of the Senate Wednesday.

The report will recommend the bill virtually as it came from the House, with only minor amendments and changes of phraseology. The four Senators will endeavor to secure the signatures of Senators Reed and O'Gorman to the report. Reed and O'Gorman have opposed the bill in committee and have sought to prevent action on the bill by the Democratic caucus. It is practically certain that Hitchcock, whose views differ widely from those embraced in the Administration bill will stand out to the end.

Outcome Is Problematical. There is some question whether the Senate committee will continue to struggle for an agreement or will leave the entire question to be settled by the conference. The latter course probably will be recommended by the Administration Senators, but they may experience difficulty in inducing the other majority committee members to suspend work.

The Republican members at any rate will continue efforts to perfect a bill and will report a complete measure to the Senate, where it is expected the fight against the Administration bill will be long and sharp.

The Republican members of the committee have taken a stand, as expressed yesterday by Senator Nelson, that "if the President is apportioning for a fight, he can have it."

The Republicans will include those amendments written into the House bill tentatively by the Senate committee. These are the changes that finally resulted in the deadlock which caused the calling of a Democratic conference.

A number of regional banks, fewer than four, owned by the public and controlled by the Government, issuing currency based on commercial paper and mobilizing the reserves of the banks throughout the country, will be the basis of the Republican bill.

Reed Favors Publicity. Senator Reed, of Missouri, announced tonight that when the Senate committee met tomorrow he would move that in future all of its sessions for consideration of the currency bill be open to the press. He said furthermore that he proposed to make an effort to have the newspaper men admitted to the Democratic conference.

Mr. Reed declared his efforts to perfect the pending bill had been misrepresented; that he had been made to appear in the light of opposing the Administration and that he wanted the public to know just what was going on in the committee.

NO QUARTERS SHOWN

WARFARE IN MONTEREY IS WAGED WITHOUT MERCY.

Dead Left in Streets or in Ruins of Buildings—General Miguel Burned in Own Home.

LAREDO, Tex., Nov. 9.—Warfare without quarter, the opposing armies burning and dynamiting official and business buildings and railroad property has been waged at Monterey, Mex., between the defending Federalists and the singing Constitutionalists. The unrelenting struggle, which has been particularly in the engagement of October 23-24, when the Constitutionalists captured a large portion of the city, is pictured in an illustrated weekly published at Monterey, copies of which reached Laredo today.

Many dead were left in the streets under a full in the fighting should afford time for burning the bodies. A view of Conantecmo street, near the National Railway Station, where the conflict centered, showed an entire block destroyed by fire and cannonading, with numerous bodies within the ruins. General Miguel was burned to death when Constitutionalists destroyed his house by fire.

Constitutionalists captured the barracks of the Federalist battalion and used it for an arsenal, but lost it when a Federal torpedo wrecked the building, killing many rebels. The north facade of the Governor's palace was shot away. The property loss was said to be enormous. The railroads say their damage will amount to \$7,000,000.

In the yards 658 cars, many loaded with merchandise, were burned. The roundhouse and more than 20 engines were destroyed. The loss of life was heavy.

APPLE DAY IS NATIONAL

Entire Country Joins Celebration, Letters Show.

Letters received at the Portland Commercial Club indicate that the plans for the observance of Apple Day, November 13, are increasing steadily in scope, and that it will be, not a North-western, nor a Pacific Coast matter, but a National event.

Leading hotels throughout the United States have fallen in with the idea launched by Peter Kuehling, manager of The Duques Hotel, and the traveling and hotel-dwelling public all over the United States on November 13 will pay tribute willy-nilly to the apple, for it is to be made the Alpha and Omega; the preface, text and appendix of the dinner and luncheon menus.

LEADER OF MEXICAN REBELS, WHO WANTS UNITED STATES TO LET HIM IMPORT ARMS.

GENERAL VENUSTIANO CARRANZA.

HUERTA TO HOLD ON

Diplomats Told Dictatorship Will Be Continued.

NEW CONGRESS TO STAND

Direct Statement Made That Body Will Be Installed in Few Days and Later Will Make Call for Another Election.

MEXICO CITY, Nov. 9.—In a formal note to the foreign diplomats, General Huerta, after calling attention to the efforts he had made to pacify the country and dwelling at length on his reasons for dissolving Congress, makes the direct statement that the newly elected congress will be installed within a few days and will pass on the election of the president and vice-president.

General Huerta reminds the diplomats that prior to the elections he held them that neither he nor General Blanquet would accept an election, on the ground that his own election would be illegal and he called to the attention of the diplomatic representatives the conference which he had with the presidential candidate, at which he obtained a promise that the president-elect would exert himself for the pacification of the country, even should no one obtain the necessary number of votes.

Dictatorship to Continue. "Now in view of the fact, according to the reports which the government has received," continues the note, "that there exists an earnest wish to hold that, because it has been impossible to carry on voting in the number of polling places prescribed by the law, the elections were held, in fact, a manifestation of the will of the people, and because it is foreseen that said presidential elections will be declared null, the executive wishes to make known once more to the country and the whole world that in accord with this determination he shall continue exerting himself for the pacification of the country in order to be able to guarantee absolute freedom and efficacy in the new elections which Congress must call as a necessary consequence of that declaration."

"In the same manner he wishes to make known once more to his friends and those outside the republic persuaded that by virtue of his having occupied the post of President for the republic while the elections were being held, he considers himself constitutionally impeded from being validly elected and he will on no account take office until the elections have been held, and he will on no account take office until the elections have been held, and he will on no account take office until the elections have been held."

Congress to Designate Limit. "He hopes to be able to fulfill easily with his sacred duty, consulting the national desire to consecrate by the suffrage of the people the election of a ruler definitely the destinies of the country. Otherwise the realization of the executive's program would not be possible within a long period of time."

"This programme consists of peace and legality, which are the only means in which elections may become an expression of the popular will and in which the individual, native as well as foreign, may enjoy full guarantees. Only under such conditions can the economic developments in the republic permit all social classes to gather the fruits of their labor and the product of their capital."

MEXICAN CLIMAX NEAR

(Continued From First Page.)

ident of the United States, is ignorant of the intentions of his chief. If General Huerta is anxious regarding what may develop, he does not betray it. Although he has sent to the diplomatic representatives of the foreign nations a note, which in effect is a defiance of Washington, he was conspicuous in the cafes about town tonight after the midnight hour and indulged today in relaxation in the company of his military friends.

In his formal statement to the diplomats General Huerta said it was now foreseen that the recent elections were void, as too few precincts had participated in the voting and that therefore the new Congress would annul the elections. New elections would then be called and he would continue his programme of pacification.

More uneasiness is apparent at the American Embassy than at the national palace. At the palace the opinion was freely expressed, not infrequently accompanied by sneers, that the

United States would never intervene in Mexico.

Mr. Lind is fully cognizant of the delicate situation and awaits with keen interest word from President Wilson and Secretary Bryan, but today he received only assurance that the President was interested in certain developments and a request that he continue his observations.

Mr. Lind expressed the view that this waiting policy would not be continued many days. It is known here that he has recommended that all diplomatic negotiations with Mexico be terminated.

As the American Embassy it is regarded as logical that Washington, perhaps tomorrow, will furnish vital developments in the relations between the two countries. This assumption is based on the Washington note to General Huerta, in which Huerta is assured that refusal to comply with the American demands will result in President Wilson's applying to Congress for power to use sterner methods and the threat to place a time limit on Huerta's continuance in office.

It is considered that President Huerta's open note to the diplomats will make it impossible for Washington longer to withhold the exact character of Huerta's reply, which was made last week, and that this publicity will make some more definite step necessary immediately.

Opinion in Mexico is widely divergent as to what Washington's attitude will be. In some quarters it is thought that President Wilson may recommend neither intervention nor direct assistance to the rebels, by means of recognition of their belligerence, but that he may issue a note to the powers, setting forth that hereafter the United States will regard Mexico as a non-existing nation and repudiate all her acts.

These three courses the Mexican officials most fear perhaps the latter, realizing that either would materially strengthen the rebel cause. In fact, it is believed by a majority of those in the capital, as well as well as Mexicans, would be much more merciful and humane a method of restoring order.

Don't waste heating dollars

The heat-making value of a pound of coal is as fixed as is the number of cents in a dollar. Whatever heat-value you get from coal in room-comfort depends on how you burn it—how you extract the heat. You can shovel much coal into old-fashioned heaters, yet most of the heat-making gases will pass up the chimney unconsumed—never get your money's worth. But, you can have all the available heat from every ounce of coal distributed into the rooms, just where and when needed, by an outfit of

AMERICAN & IDEAL A RADIATORS & BOILERS

A deep, slow fire is easily proven best as compared with the shallow firepots of old-fashioned heating methods—just as a big cake of ice which fills the refrigerator box gives far steadier, more economical results than you get from frequently throwing in a handful of cracked ice. The big IDEAL fire-chamber extracts full value of your coal!

What the IDEAL Boiler starts in heating economy the AMERICAN Radiators finish by distributing warmth in all rooms, evenly, throughout every hour of the day, just sufficient for differing requirements of mild, medium and severe weather. Besides, there is far less house-labor, because no soot and ash-dirt go to the rooms, as with old-time devices.

To save heating dollars for the public is one of the prime motives of our testing laboratories in United States, France and Germany. They tell our foundries how to construct heating outfits to get reliable results and thorough economy. The users of our outfits get the effects in positive heating and full returns for the dollars spent for coal.

If you are weary of ever-lasting blackening, repairing and coaxing, discard at once the old way and put in an IDEAL-AMERICAN outfit at this season, when you get best attention and most favorable prices. Send for free booklet—"Ideal Heating" which explains how to get full returns from every heating coal bill.

ARCO WAND Vacuum Cleaner—built into the house. You should know about our ARCO WAND Vacuum Cleaner, for dustless, complete cleaning of rooms, furnishings, etc. Sets in basement and cleans through iron suction pipe running to each floor. Easily put in OLD buildings. Fully GUARANTEED. Lasts as long as the building—like radiator heating. Send for catalog.

BLOW DEALT MOOSE

Senator Norris "Not Married to Progressives."

MERE HANDFUL NOW LEFT

Roosevelt Followers in Former Hottbed Now in Fourth Place and Outranked by Socialists, as Records Show.

OMAHA, Nov. 9.—(Special.)—When Senator Norris, of Nebraska, elected as a "Bull Moose," deserted that party, issued a statement to Nebraska Progressives that the organization of a third party was a mistake and returned forthwith to the ranks of the Republican party, he dealt the Roosevelt forces in Nebraska a disintegrating blow. Some may return to the fold of the party whence they came and others may enter the Democratic ranks. It is believed to be practically the end of the Progressive party in Nebraska.

The break came when Senator Norris went to Massachusetts to campaign for the Republican candidate, Gardner. This action so incensed Nebraska Progressives that several of them got together and sent a long telegram to Norris, in which they demanded an explanation of his conduct in supporting Gardner when a member of their own party was a candidate for the same office.

Norris answered so quickly that he took the wind out of his Nebraska compatriots.

"I'm not married to the Progressive party," he said curtly.

Then the Senator went on to say that in his belief the formation of a third party for Nebraska was a mistake and was, in fact, a bad mistake. The Nebraska Bull Mooseers stood aghast.

There was little remaining of the Progressive party in Nebraska, even before Norris left the party. In some quarters that is being given as the reason of the withdrawal of the Junior Senator. A year ago formerly was a hotbed of the party and a large vote was polled. According to the last registrations the party has fallen to almost nothing. Norris probably saw the tendency and thought to "get from under" while there was yet time.

The Bull Moose party in Omaha and South Omaha are putting in a hotbed now in fourth place, being outnumbered by the Socialists.

Town Hall Nearly Ready. MORTON, Wash., Nov. 9.—(Special.)—The new town hall, built by P. Cotler, is nearly ready for occupancy. It is 30x72 feet in size, with a 15-foot ceiling. A 12-foot stage has been provided. The Morton Hardware Company has improved its block by having it neatly painted. Sixteen carloads of lumber were shipped out of here this week, also one carload of casaca bark. 19 of which were merchandise needed to feed Eastern Lewis County people.

Commissioner McCaw Quits. WALLA WALLA, Wash., Nov. 9.—(Special.)—John McCaw, of this city, tonight resigned as county commissioner and expects to leave soon for Bellingham to make his home. He has disposed of most of his property interests.

TARIFF DISCOUNT VOID

(Continued From First Page.)

The deep, large fuel-chamber of an IDEAL Boiler is one of the strong features for producing fuel savings—it offers best conditions for extracting heat.

A deep, slow fire is easily proven best as compared with the shallow firepots of old-fashioned heating methods—just as a big cake of ice which fills the refrigerator box gives far steadier, more economical results than you get from frequently throwing in a handful of cracked ice. The big IDEAL fire-chamber extracts full value of your coal!

What the IDEAL Boiler starts in heating economy the AMERICAN Radiators finish by distributing warmth in all rooms, evenly, throughout every hour of the day, just sufficient for differing requirements of mild, medium and severe weather. Besides, there is far less house-labor, because no soot and ash-dirt go to the rooms, as with old-time devices.

To save heating dollars for the public is one of the prime motives of our testing laboratories in United States, France and Germany. They tell our foundries how to construct heating outfits to get reliable results and thorough economy. FREQUENT PAY COSTLY

RAILWAY OFFICIAL PLEADS FOR REPEAL OF LAWS.

Expense of Keeping Records Said to Be Greatly Increased Without Benefit to Men.

CHICAGO, Nov. 9.—(Special.)—Laws in various states throughout the country regulating the time and manner of payment of railroad wages are a detriment to both employes and railway companies, according to Arthur B. Jones, treasurer in Chicago of the Chicago & Northwestern Railway.

In a statement containing a plea for a concerted movement to stop the passage of such statutes and repeal those already passed, Mr. Jones points out that a law passed at the last session of the Illinois Legislature requiring railroads to pay their employes in this state at least twice a month has added \$230,000 to the yearly expenses of the roads for the keeping of time, computation of wages and issuance of pay checks. If this law were enforced throughout the United States, he says, the cost to the carriers annually would be \$2,125,000.

Notwithstanding the cost, direct and indirect, such legislation might be wise if it brought the employes a single benefit," says Mr. Jones. "On the contrary, however, practically all obligations the country over are adjusted to a monthly settlement basis, and, therefore, the monthly payment of wages more nearly meets the requirements of employes.

"Frequent payments promote improvidence, and those who are extravagant and inclined to wrongdoing follow their bent with greater ease, being harmed financially and morally."

Potato Raisers Join Distributors.

WALLA WALLA, Wash., Nov. 9.—(Special.)—The La Grande potato raisers have decided to affiliate with the North Pacific distributors, according to H. G. Barnes, district manager of the distributors, who returned from the Oregon city yesterday. About 75 carloads of potatoes will be shipped out of that section.

If you don't feel "up to the mark," if you lack vim and vigor, try drinking a really fine mineral water.

Standing alone in its class, the high regard in which WHITE ROCK WATER is held by the doctors of today is attested by its enormous sale.

200,000 PEOPLE USE INTERNAL BATH

The record of its cures and benefits reads like a revelation to those hitherto unacquainted with it. It is used by means of the "B. L. Cascade" (the only scientific appliance for that purpose).

A book has been published on this subject, entitled "Why Man of Today Is Only 50 Per Cent Efficient." Copy will be handed to you if you ask for it at Woodard, Clarke & Co., Portland, Wood-Lark bldg., Alder at West Park.—Adv.

NATURE AND A WOMAN'S WORK

have produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field Lydia E. Pinkham, more than thirty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.—Adv.

To stop itching and once and drive away all eruptions, apply Poslam, the dependable remedy which is readily absorbed, soothes an angry skin and breaks a scabies and all skin diseases in their virulent forms. Poslam brings immediate relief and comfort. You can observe the progress of healing day by day. The eradication of pimples and other blemishes is but a matter of the briefest treatment.

Poslam SOAP is the soap of soap for daily use, for toilet and means of improving color and texture of the skin and assuring its continued health. Absolutely pure, it derives its rare beneficial effects from medication with Poslam. Soothes baby's skin.

All druggists sell Poslam (price 25 cents). For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.
