He mays his secretary at pres-ent is receiving \$125 a month which, he says, should be increased to \$150 a month. The secretary before going into the city service was a bank clerk. Commissioner Daly shid he did not consider the services of a private sec-retary to a Commissioner worth any by Eills McLean, Charles R. Frazier and Margaret E. Frazier. Frazier & McLean were ordered by H. E. Plummer, inspector of buildings, and Dr. M. B. Marcellus, health offi-cer, to tear down the building and brought suit against the city officials asking the court to restrain the author-ities from forcing compliance with this ities from forcing compliance with this order. They allege that the building is worth \$4000 and nots a monthly revenue of \$250.

Early Start Is Fromised if Bond Issue UNITARIANS WILL CONFER Is Granted - Budget Pruning Prevents Ready Cash. November 11, 12 and 18. Mayor Albee strongly favors a chain f not fewer than four public marets for Portland, the first one to e established on the Market block, sceond and Third, Market and Chay streets, and others properly distrib-uted elsewhere, but at least two to be placed on the East Side. He so delared yesterday in an interview. clared yesterday in an interview. The Mayor sets forth that, believ-ing strongly in the immediate estab-lishment of at least one public market, he inserted an item of \$12,000 in his

wn proposed budget for 1914, although he feit it should be larger. Knowing that it probably would be impossible to get a larger sum through, he de-cided, he says, to try for the lesser amount. That he was correct in his surmise, is proved by the fact that the budget committee, of which he is not a member, eliminated even this small item and decided to substitute in its place a bond issue, which, how-ever, is to be for \$25,000.

ever, is to be for \$25,000. With a bond issue of \$25,000—this to be voted on December 9—the West Side market could be fully equipped and a good start had on one for the East Side, the Mayor explained, and he declared yesterday that, if the vot-ers provided this, the Commission would facilitate the sale of bonds and

would facilitate the sale of bonds and provide the market as rapidly as is possible. That the bonds would carry, Mayor Albee said he had no doubt. "I have always strongly favored public markets and have advocated them consistently, and, it would seem to me, I should not be held up as having in the least gone back on my former views. The fact is, I am very earnest, not only in my desire for one market, but for three or four," said the Mayor.

"Owing to the necessity of keeping the budget down, the budget commit-tee felt that it was best to eliminate the market appropriation and provide the money by a bond issue, there be-ing no doubt in the minds of any that, with the demand for a market, the bonds would be authorized by the

"I think it will be readily admitted that if the \$17,500 should be raised by bond issue it will be just as satisfac-tory, so far as the result is concerned as though the amount were included in the budget. Further, one of the rea-sons for the removal of the amount from the budget was that it is deemed best to make the amount larger, there by providing for the market on the West Side and at least a good start on one for the East Side. Therefora the bond issue is to be for \$25,000 for the erection of markets."

Estimates of State and Consulting Engineers for Pacific Highway Are Favored.

A. S. Benson does not agree with County Surveyor Holbrook in the latter's published criticism of the plans
