

ACTION HELD VITAL TO GOOD ROADS

Multnomah Must Keep Faith With Counties That Have, Say Leaders.

FEDERAL PLAN IS TALKED

County Commissioner Holman Goes on Record Favoring Hard-Surfacing County Roads in Auto Club Banquet Address.

Talking to an audience of more than 200 people, whose sympathy and sentiments lay clearly in the roads of the county, the state and the country, Senator Bourne, E. E. Covert and S. Benson, together with other speakers at the Portland Automobile Club's banquet at the Hotel Oregon last night, urged upon the taxpayers the value of immediate action and the necessity for a sufficiently large fund in this county if the other counties were to be upheld in their heavy bonding for roads.

Mr. Bourne also gave further details of his plan for National Road-building, which calls for the issuance of \$1,000,000,000 worth of Federal bonds, to be loaned to the various states.

County Commissioner Rufus C. Holman went on record as favoring the hard-surfacing of county roads. The banquet, which had been called by C. F. Wright, chairman of the membership committee of the club, was held for the purpose of bringing up the number of members to 1000, as well as to increase the enthusiasm for good roads in the state. As an inducement to a rate of \$25 was allowed in sum to take care of the initiation fee as well as the dues up to the end of 1914. A large number of responses were made to this offer during the evening, while two visitors became life members.

Club Work Outlined.

W. J. Clemens, the president of the Automobile Club, who was the first speaker, outlined the work that the club had done in the past in the way of road work, mentioning that the first survey of the Columbia River Highway was done by club members, that signs had been posted, road tour books issued at an initial cost of \$8000 and quite an amount of work had been done in a quiet way that few were aware of.

He pointed out that the time had come for concerted action between individuals, county officials and officials for securing the hard-surfacing of the roads of the county. He likened the automobile and its progress to the coming of the white man to the country, just as the latter opposed the white man's advent, so the white man in turn opposed the automobile's progress through ignorance and crass stupidity.

"Co-operation between the County and the Club Members" was the topic chosen by County Commissioner Rufus C. Holman, who at the start outlined his plans of procedure, which were to work all the time with the public.

Hard-Surfacing Is Favored.

In connection with hard-surfacing the roads, he said that the present movement of self-propelled vehicles has revolutionized both the theory and practice of building and using roads. He said that he was convinced that the day of hard-surfacing main arteries has arrived for us in this county. I believe that all roads should be hard-surfaced. The effect will be disastrous. The bonding act wherein a local improvement district is created."

In the place of Samuel C. Lancaster, the engineer of the Columbia River Highway, and of H. L. Bowlby, State Highway Engineer, the first of whom unavoidably was absent through illness, the latter took the place of Mr. Benson and E. E. Covert gave short but pithy addresses.

Other Counties Cited.

"Multnomah County's valuation is 10 times that of Clatsop," said Mr. Covert, "which bonds itself 10 mills, the limit it can go for road funds. It is 15 times that of Columbia, which bonds at 10 mills. It is 25 times that of Hood River, which goes the maximum, and yet the advisory board of Multnomah County respectfully begs for a 1.2-mill levy.

"That is ridiculous and it will be harmful in all probability, for what counts in the future will bond themselves for any sum at all when they see how little Multnomah proposed to expend. The effect will be disastrous. Levy for 2 mills right now, raise \$500,000 and do all the work at once instead of dividing it up into two years. It is cheaper to do this work in one year and it will repay us."

Mr. Benson's rising was the signal for a storm of protest. He was called out to state that after inspecting road work in California, where he had lived for the past four years, and in other parts of the states no work that he had met with could compare for solidity, cheap operation and general excellence as well as scenic effects with the Columbia River Highway road.

Bourne's Talk Interesting.

Senator Bourne's address explaining his National road bill which he is to introduce was listened to with intense interest. His plan is the issuance of \$1,000,000,000 worth of Federal bonds at 3 per cent, to be divided among the 48 states in proportion to population with the issuance of 50-year 4 per cent bonds by the state, the state to have the use of the Federal money by paying 1 per cent for the loan of it for 50 years. At the end of that time there would be no capital to pay back, as one-fourth of the extra 1 per cent which the state pays to the Union would be put aside at 3 per cent compound interest to repay the capital.

Each state should pursue the same policy to its counties, he said, and in this way 28,000 counties in the states would be working at one and the same time for good roads.

LECTURE IS ASTRONOMICAL

Star Formation Will Be Depicted in Charts for Speaker.

"The Biggest Bear Story Ever Told" is the title of the lecture to be given this evening at the Albina branch library, 356 Knott street, at 8 o'clock. The lecture is astronomical, the bear story being that of the Great Dipper. It will be illustrated with charts.

TABLET TO HONOR FARRAR

Oregon National Guard Men to Unveil Memorial Sunday.

In honor of the memory of the late Captain Louis C. Farrar, founder of Company G, of the Oregon National Guard, Companies B, C, E, F, H and K, of the Third Infantry will hold a cere-

mony at the Armory Sunday afternoon at 3 o'clock. A tablet to his memory will be unveiled and a short programme will be carried out.

Captain Farrar was in command of Company G when it was mustered into service November 15, 1882. This company became a part of the Second Oregon Regiment at the time the troops went to the Philippines. Captain Farrar, however, did not participate in the Spanish-American War. He left Portland for California in 1895, three years before the war, and was succeeded in command of the company by Captain, I. E. Davis.

The members of our old organization have felt that in recognition of the excellent services given the company by Captain Farrar, who passed away at New York, it is not inconsistent for them to place the tablet to his memory in the Armory, and thereby establish a precedent which, it is believed, will be of great benefit to

SECRETARY OF LABOR'S VISIT WILL BE BRIEF.

William B. Wilson, Secretary of Labor, will arrive in Portland today from Seattle, where he has been attending the convention of the American Federation of Labor. He will be accompanied by Immigration Commissioner Caminetti.

In response to a telegram sent Tuesday night, he replied yesterday to the Portland Commercial Club, that he will be in Portland but three hours. He will arrive at 2:30 and will leave for San Francisco at 5:30.

The only plan arranged for his entertainment was a motor trip to points of interest around the city.

The present generation of young men in active National Guard service.

Captain Farrar was recognized as one of the best military officers and drill instructors, and in view of the fact that he was ready for admission to West Point Military Academy, it was an indication of what his ambition was in the way of military service.

RED MEN HOLD BANQUET

KUMTUX TRIBE CELEBRATES ITS 25TH ANNIVERSARY.

Only Living Charter Member of Vancouver Lodge and Visiting Delegates Respond to Toasts.

VANCOUVER, Wash., Nov. 12.—(Special.)—With a 16-piece band playing in their hall, Grand Lodge officials from various parts of the state present, delegates from every fraternal organization in the city as guests, Kumtux Tribe, No. 3, second oldest tribe of Red Men in the state of Washington, last night celebrated its twenty-fifth anniversary. Frank Eichenlaub, the only charter member living, made a speech.

The hall was elaborately decorated with banks and ropes of evergreens, Oregon grape and many large United States flags and a large picture of George Washington, first president of the order, in one corner was a real Indian camp, with tepee, campfire and Indians.

John A. Padden was toastmaster. M. S. Cohen, past great sachem, made the address of welcome. Judge R. H. Back, of the Superior Court of Clarke County, responded to the toast "The Bench, the Bar and the Tribe."

Among noted members who spoke were: Rev. Harry Hudson, of Bremerton; great sachem of the Reservation of Washington; William C. Bates and J. W. Shaw, of Vancouver; Elks; great keeper of records, J. L. Drinkwine, of the tribe; Bert Doyle; Clement Scott; C. A. Kirch; Knights of Columbus; George Hausch, Eagles.

John A. Padden, M. S. Cohen and George B. Thomas formed the arrangement committee.

"BIG SISTERS" ARE ACTIVE

Open Monthly Meeting Plan Changed to Facilitate Work.

Because of the personal nature of the work done by the Big Sisterhood it was decided at the monthly meeting yesterday at the People's Institute to discontinue open monthly meetings. Instead the executive board will meet each month, the organization as a body to meet but once in three months. The next open meeting will be held in February.

Twelve girls, whose cases have come up in the Juvenile Court, or who have been referred to the Sisterhood through other agencies, are now being befriended by members of the organization. In some instances positions have been found for the girls, others are being sent to the Trades School, and in all cases personal counsel and help are being given, the uplift work sometimes including the entire family.

TWO HOMES DESTROYED

Exploding Stove Causes \$1500 Damage; Second Loss \$5000.

A defective gas stove is thought to have caused the fire which entirely destroyed the home of J. J. Fraser, 5525 Powell Valley Road, yesterday. The loss was about \$1500, and there was \$3000 insurance on the property.

Mr. Fraser was alone in the house, cooking dinner on the gas stove, when it exploded. Engine 31 responded to the call, but was too late to save the residence.

Fire early yesterday morning destroyed the home of R. H. Hawley, 6290 Fifty-fifth avenue, Southeast. The Hawleys were in bed and were awakened by the burning of the bedclothes. The loss was about \$5000, partly covered by insurance. The cause of the fire is unknown.

3000 EGGS WHEN HERE

Agricultural College Biddie Yields 303 in Year.

AVERAGE OF FLOCK IS 200

Produce of C 521, New Champlon, Is Large and Total for 12 Months Weighs 42 Pounds—Cross-Breeding Lasts Six Years.

OREGON AGRICULTURAL COLLEGE, Corvallis, Or., Nov. 12.—(Special.)—The world's record of 291 eggs established by a hen in the poultry department of the Oregon Agricultural College was short-lived. Hen C 521, also owned by the college, today finished her first 12 months of laying with the remarkable record of 303 eggs.

Professor Dryden, head of the poultry department of the Oregon Agricultural College, said today: "Six years ago we started out to breed up a new variety of fowls—a new breed in my opinion—the chief characteristic of which should be first and foremost high egg laying. We believe we now have a good foundation for such a breed. The average of the two highest layers of the college farmers of Oregon will get the benefit."

"Like C 543, the new hen was developed from crossing the Plymouth Rocks and White Leghorns. Their pedigree shows the same blood line although they are not closely related. C 521, this champion, has maintained an eighth Leghorn blood and one-eighth Barred Rock. The two highest layers were kept in the same flock of 40. No special attempt was made to secure high records.

"No Unusual Care Given Here. The methods followed in feeding and general care were such that any farmer of poultry raising caliber could do it. While the feeding was undoubtedly good and the housing and general care also good, I believe the result is largely due to the breeding of the hens."

The recent records established here are declared of special significance for two reasons. In the first place, the hens were bred for the specific purpose of producing high egg layers, their ancestors for several generations being heavy producers. In the second, the authorities here are deriving great satisfaction from the fact that the whole flock, of which the two record-breaking hens were members, was maintaining an extremely high record for the year. The average for the entire flock was over 200 eggs to the hen and the five best layers averaged over 250 eggs each.

Old Record Is 282 Eggs.

The record of the hen at the Ontario Experiment Station, near London, until the Oregon Agricultural College hens were developed, was 282 eggs in a year. Five full sisters, including C 521, each having 245 eggs each for the year.

The new record is said to be remarkable also because of the size of the eggs laid. The 193 eggs weighed about 42 pounds, and were perfect in point of shape and color. The characteristic large eggs was apparently inherited by C 521, her mother having been a producer of extremely large eggs.

Professor Dryden was urged to replace the world record, but on exhibition, but hesitates to do so because of the possibility of injury to the birds. C. Chapman, who is now in the East exhibiting moving pictures of Hen C 543, the former champion, has telegraphed asking that the hen be sent to Chicago to be placed on display at the Chicago Land Show. "Great as would be the advertisement for the State of Oregon, we cannot afford to run any risk of losing the hen," said Mr. Dryden.

ELECTION RESULTS IN TIE

RECOUNT OF VOTES FOR COUNCIL IN VANCOUVER LIKELY.

Stoner and Mackey Each Got 1245 and City Attorney Is Puzzled Over Awarding of Office.

VANCOUVER, Wash., Nov. 12.—(Special.)—That the ballots for George B. Stoner and Edward H. Mackey, respectively, counted by the City Council yesterday, were tied, 1245 votes each, was the result of a recount of the ballots. The recount was held at the City Council chamber, where the City Attorney, J. H. Mackey, was present.

Mr. Stoner has been Councilman two terms and this year his opponent was Edward H. Mackey. Mackey has not been home for several weeks and had been here election day to have voted for himself he would have been elected. He has been doing duty on the grand jury in Tacoma.

The City Council met last night in special session to canvass the votes of the recent election. The official returns were practically the same as the unofficial.

After the votes were counted words were exchanged between Stoner and D. E. Lunsford, who was keeping check for Mr. Mackey.

The City Attorney has not been able to learn how to proceed, the primary law being in conflict with the city ordinance in how the tie should be disposed of. The ordinance provides that in case of a tie, the Council can elect one or the other, but the primary law says that the matter is to be settled by lot at the time the City Council meets. But this was not done, so the probable outcome will be a recount.

LUNCHEON PLANS GROW

Member of United States Chamber of Commerce Will Speak.

Edward F. Trefz, of the United States Chamber of Commerce, who arrived in Portland yesterday, will be one of the guests of honor at the luncheon given by the Chamber of Commerce in the Commercial Club today. The reservations for this luncheon have grown to an extent that there is an overflow luncheon will be held, but the committee announces that all who come will be accommodated.

Mr. Trefz's subject will be "The Debt of the Community to the Business Man and the Responsibility of the Business Man to the Community." Captain Robert S. Dollar, of San Francisco, who is also to be a guest of honor, will talk upon the improvement of the river and harbor. A. H. Averill, president of the Chamber of Commerce, will preside.

SLANDER "BALM" SOUGHT

Tamakichi Nakamura Alleges That Countrymen Hurt His Standing.

Damages to the amount of \$3000 are asked by Tamakichi Nakamura, who

DON'T USE DRUGS

FOR CONSTIPATION

Just Try Nature's Cure

We all know that constipation brings on countless other complaints if not taken in hand, appendicitis among them—also that any drug will lose its power as being taken for a time—but we should also know that every drug forces Nature instead of assisting her, and will, if continued, make us slaves to them.

There is now a method of internal bathing which will keep the intestines as clean and pure and free from waste as exacting Nature can demand—which, taken occasionally, will prevent constipation, biliousness with its depressing and distressing morbid serious diseases which are caused by the blood taking up the poisons from the intestines and carrying them through the system.

That method is the "J. B. L. Cascade," which is being enthusiastically used by many thousands, is prescribed by the most enlightened physicians everywhere and is now being shown and explained by Woodard-Clarke & Co., Portland.

Everyone should at least investigate this Nature-cure without delay. Ask for booklet, "Why Man of Today Is Only 50 Per Cent Efficient"—Free.

brought suit in the District Court yesterday against Taurukicki Uchimura, Terutaro Wakamiya and Kokichi Tamoto, three Japanese, for slander. Nakamura alleges that he has been accepted by his fellow countrymen in this city as a truthful and honest man, but that his reputation has been impaired by the statements of the defendants.

Nakamura complains of a note which he charged the defendants wrote July 20, 1911, in this country and, his native land. The note which he embodies in his complaint is signed by T. Uchimura, Terutaro Wakamiya and K. Tamoto, and follows:

"We the undersigned three been swindled \$600 by Tamakichi Nakamura, he is going to come in a few days, it is said, and he cannot be denied, sometime when we come back to the home country, will prove it at presence of all the citizens. We never met with such suffering in all our lives yet."

BIG DUCK KILL FORECAST

HUNTERS SHOW INCREASED INTEREST IN THANKSGIVING PLAN.

Indications Are Tons of Birds Will Be Killed and Donated to Charitable Institutions.

Judging from the many inquiries received by the group of sportsmen who started the movement to furnish the charitable institutions of Portland with ducks Thanksgiving, Portland hunters will be out in force to make up the supply.

"I personally have found the hunters only too eager to get out and kill the birds," says John H. Burgard, one of the promoters of the idea.

"It's a good thing and deserves the support of all men who enjoy the shooting around Portland. Most of them are turkey hunters and would have no use for the ducks anyway."

"Formerly when the Multnomah Rod and Gun Club did this thing it made an appreciable amount of money for the charitable institutions of Portland with ducks Thanksgiving, Portland hunters will be out in force to make up the supply.

"The ducks were more plentiful and the limit was much higher. We had no trouble in amassing several thousand on the Sunday before Thanksgiving. Now the limit is not so large and the ducks are fewer, but there are more hunters, so there ought to be no trouble at all in getting enough to give them all a good meal."

Other members of the committee have received the same class of questions from the Oregon Hotel, which will handle the collection of the game, undoubtedly will have several tons of the toothsome fowl on ice on Monday before the day of joyful eating.

BLUE SKY ARRESTS MADE

L. R. Kaylor and A. D. Baker Charged With Violating New Law.

On warrants sworn to by Commissioner of Corporations Watson, L. R. Kaylor, representative of the Capitol Security Company, a Delaware corporation, and A. D. Baker, of the National Mercantile Company, limited, of Vancouver, B. C., were arrested Tuesday by Deputy Sheriff Phelan charged with violating the blue sky law passed at the last session of the Legislature.

The complaints issued against Kaylor and Baker charge that they as agents of foreign corporations have offered stock of their corporations for sale, without complying with that section of the act which requires that persons who deal in stocks and secur-

ties secure a permit from the Secretary of State. Neither of the corporations, it is said, have complied with the general corporation law by filing with state officials information relative to the financial standing of the parent organization.

Execution Protest to Be Voiced. The anti-capital punishment crusaders will hold a meeting in the Plaza tonight at 8 o'clock to protest against the hanging of Oswald J. Hansel for the murder of F. J. Taylor, of Astoria.

A new gem called heliodor has been found in German South Africa.

Pimples Source of Great Danger

May be Means of Absorbing Disease Germs in Most Unexpected Manner.

Thousands of instances the most virulent types of blood troubles have been the result of coming in contact with disease germs in public places, and the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, often infecting the entire system in a few days.

It is fortunate, however, that there is a remedy to cope quickly and thoroughly with such condition, and thanks to the energy of its producers the famous S. S. S. may now be had at most any drug store in the civilized world.

This preparation stands alone as a blood purifier. It is somewhat revolutionary in its composition, since it accomplishes all that was ever claimed for mercury, iodides, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. It contains one ingredient which serves the same purpose of stimulating each cell of the cellular part of the tissues to the healthy and judicious selection of its own essential nutriment. There are more cases of scurvy, rheumatism, locomotor ataxia, paresis, neuritis, and similar diseases resultant from the use of minerals than most people are aware of. These facts have brought out in a highly interesting book compiled by the medical department of The Swift Specimen Co., 217 Swift Bldg., Atlanta, Ga. It is mailed free, together with special information, to all who write describing their symptoms.

Get a bottle of S. S. S. to-day, but be careful not to have something palmed off on you falsely claimed to be "just as good."

The only reason why anyone will try to sell you something in place of S. S. S. is the extra profit.

Mrs. L. S. BRENNER, Hudson, Mich., says:—"Sometime ago I was taken with a terrible pain in my right side, such sharp pains just like a knife sticking me. I tried hot applications but that did no good. I went to our family doctor (we were living in Fayette, Ohio, at that time) and he said it was organic inflammation. I doctored with him a while but kept getting worse. The pain was so terrible I could hardly stand on my feet. I would have that sharp pain in my right side, and a dull heavy pain the whole length of my limb. I realized that something had to be done quickly, so I looked up all of your advertisements I could find, and saw several that described my case. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it helped me from the first dose, and when I had taken two bottles my trouble was gone. Your medicine has done so much for me that I am willing you should publish this letter for the sake of other suffering women."—Mrs. L. S. BRENNER, Hudson, Michigan.

Mrs. L. E. BOWERS, Girard, Pa., says:—"I take pleasure in informing you of what Lydia E. Pinkham's Vegetable Compound has done for me. I had a sick spell last February, and for some months after that I was not regular and had many bad feelings. I was tired all the time, had dull headaches, had no appetite, and also what the doctor called organic inflammation. Your Vegetable Compound has entirely cured me and I feel that too much cannot be said in its praise as I am now able to do my own work. You are perfectly welcome to use my testimonial for the benefit of others."—Mrs. L. E. BOWERS, R.F.D. No. 1, Girard, Pa.

Mrs. ELIZABETH GENTILCORE, Buffalo, N.Y., says:—"I feel that I must write to you about your wonderful remedies. About ten years ago I was troubled with female weakness and was all run down. I was tired all the time and could hardly walk without feeling dizzy. I heard about Lydia E. Pinkham's Vegetable Compound, took it, and also used the Sanative Wash. I got stronger, and have not had those dizzy spells since. I feel that I owe my health to you, and hope your remedies will help others as they have me. I tried most everything I heard of, and yours are the best medicines for women's ailments."—Mrs. ELIZABETH GENTILCORE, 26 Glor Street, Buffalo, New York.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

WIFE OF MILLWRIGHT SUFFERED TORMENTS

Well Known Lady of This City Found Plant Juice Would Relieve Her of Her Troubles.

The following statement is from Mrs. John Bond, who lives at 1715 Clarendon street in this city. Mrs. Bond's husband is a millwright at the Peninsula saw-mills on the Willamette River, near St. Johns, where he has been employed for the past seven years. Mrs. Bond said:

"I have suffered torments for years with stomach trouble, my stomach would bloat and have the most distressing and burning sensation; my food did not digest, but would ferment and cause severe pain; my nerves became affected and I often went to bed hungry rather than suffer as I did after eating. I tried everything I heard of without any benefit until I began taking Plant Juice. I have used two bottles of it and it certainly is fine. I am now eating what I want and my food seems to agree with me. I sleep good and wake up rested in the mornings. I am recommending Plant Juice to all my friends because it certainly is a great remedy."

No remedy ever introduced here has taken such a hold upon the people as has Plant Juice. As a tonic, vitalizer, invigorator and cleanser of the system it is without an equal. Those who suffer with ailments of the stomach, liver, kidneys or blood should get a bottle of Plant Juice and give it a trial. For sale at the Owl Drug Company's Store.—Adv.

Thousands of Women

Have Been Restored to Health By Lydia E. Pinkham's Vegetable Compound.

There is no doubt about this fact. Why! during the last 30 years we have published in the newspapers of this country volumes of letters from women who have been relieved of all their suffering by the timely aid of this grand old medicine. Letters like the following, true, genuine and honest expressions of gratitude coming from grateful hearts, Surely you can believe these women.

Mrs. L. S. BRENNER, Hudson, Mich., says:—"Sometime ago I was taken with a terrible pain in my right side, such sharp pains just like a knife sticking me. I tried hot applications but that did no good. I went to our family doctor (we were living in Fayette, Ohio, at that time) and he said it was organic inflammation.
