

NAVAL HOLIDAY IS FAVORED IN HOUSE

Underwood Says, After Listening to Debate, That Resolution Will Carry.

ENORMOUS COST DEPLORED

Author of Measure Advocates Following Example of Churchill. Peaceful Use of Funds Preferred.

WASHINGTON, Dec. 2.—The House for hours today debated the Hensley resolution to commit the United States to the Winston Churchill plan for an international year's holiday in naval construction and tonight the advocates of the project predicted passage of the measure in the House by Friday.

The idea of suspending naval construction for a year, first proposed to the British parliament by the first lord of the admiralty, has since been commended by the leaders of all parties in the American Congress and by the President.

Relative Strength Undisturbed. Representative Decker, of Missouri, declared the United States built battleships "because, forsooth, our neighbors build them."

Representative Hensley, of Missouri, pointed out that only 2 percent of the United States' revenues is devoted to the benefit of agriculture while 60 per cent goes to defray the cost of past wars and to prepare for future wars.

Representative Bartholdt, of Missouri, pointed out that with an international agreement for a year's naval holiday the relative strength at the end of the year would be the same among nations that maintain the United States would save \$50,000,000, Britain \$60,000,000 and Germany \$30,000,000.

PINDELL IS NAMED AGAIN

Nomination Which Failed at Extra Session Is Renewed.

WASHINGTON, Dec. 2.—Henry M. Pindell, the Peoria, Ill., publisher, was renominated today by President Wilson for ambassador to Russia.

George Fred Williams, of Boston, was nominated for minister to Greece and Montenegro.

Winfred T. Denison, of New York, was renominated for secretary of the interior of the Philippines.

SEVEN WOULD SURRENDER

(Continued From First Page.)

Salazar, General Marcello Caravello, General Jose Manilla, General Blazir Pineda and General Landi.

Fleeing over the desert several thousand people, including some of the richest families in Northern Mexico, who deserted Chihuahua City in fear of a rebel attack, were reported tonight to be nearing the United States border.

People Demand Surrender. The facts about the downfall of the Huerta power in the city, as transmitted by Governor Moya, were:

For almost three weeks Chihuahua, with its 35,000 citizens, had been cut off from communication; the food supplies were steadily decreasing and many deaths resulted from illness caused by semi-starvation.

A citizens' committee was finally appointed to call on General Mercado and demand that he surrender to the rebels, as resistance would be hopeless.

The Pacific commission which was selected at General Villa's suggestion proposed to General Villa that all non-combatants who sought safety by fleeing to the border be permitted to do so without being fired on, and that all federal soldiers left on duty in Chihuahua City be pardoned.

The commission started back for General Villa's headquarters and that before leaving Chihuahua the federal soldiers destroyed all the postage and government revenue stamps, and that there existed practically no money in the city, and that 2000 citizens had left with the troops, most of them being those who were rich and who feared harsh treatment by the rebels.

Chihuahua tonight with General Villa's assurance that people of all classes in the city, including the federal police, would be protected, and that he would dispatch troops to garrison the place as soon as possible.

Notwithstanding the action of the federal, General Villa himself was preparing for departure southward. He said Chihuahua would be only a stopping place on his southward march, and he was determined to proceed to Mexico City.

HUNDU CASE NEARS END

LABOR UNIONS OPPOSE ADMISSION OF BLACKS FROM PHILIPPINES.

Counsel for Aliens Contend Clients Entitled to Enter America After Passing Island Inspectors.

SAN FRANCISCO, Dec. 2.—Twenty-two Hindus seeking admission to this country from the Philippine Islands will know their standing before the law when Judge Dozing, of the United States District Court, hands down his decision on the final arguments submitted to him in their case here today.

The case is one in which the labor unions of California have shown much interest, and Commissioner General Caminetti, of the Federal Department of Immigration, has attended all the hearings.

The department seeks to exclude the Hindus on the ground they are likely to become public charges, and argued today that its agents were the sole judges of this likelihood.

Counsel for the Hindus argued, first, that they had already been passed by inspectors of the department in the Philippines and carried with them certificates of admission; second, that there was nothing in the statutes or the treaties of the United States Government to bar them, but that the Department of Immigration by setting up arbitrary classes of their own as undesirable was usurping legislative functions.

The only aliens barred by reason of race from this country, argued counsel, are the Chinese, and the Chinese who are excluded under a statute specifically naming them, and the Japanese under the so-called "gentlemen's agreement."

TYING CLAUSE DEFENDED

SHOE MACHINERY CONTENDS IT WAS WITHIN RIGHTS.

Company Holds Manufacturer Has Right to Protect Property and Secure Best Honest Return.

BOSTON, Dec. 2.—The doctrine laid down by the United States Supreme Court in its interpretation of the Sherman anti-trust act in the "mimeograph case," was the basis of the defense set up today by the United Shoe Machinery Company, at the resumption of the dissolution proceedings instituted by the Government.

As explained by Charles F. Choate, counsel for the defense, the doctrine of the Supreme Court, which he cited, is nothing more than the common law right of a manufacturer to protect his property and to get as good a return for it in the market as he honestly may.

Discussing the so-called "tying clauses," which are included in leases of the company's machines, counsel contended that the royalty of two to four cents a pair on shoes made by the machines would not provide a suitable return unless the machinery was properly used. It was to insure its proper use that the tying clauses were inserted in the leases to manufacturers, which require shoe manufacturers to use certain machines together, constituting one of the means by which an unlawful monopoly was created by the company, according to the contention of the Government.

FATALITIES MARK TEAMSTERS' STRIKE

Man Killed, Another Mortally Wounded, and Business Men Volunteer for Duty.

FOOD SUPPLY PLENTIFUL

Dealers Have Taken Precaution of Stocking Liberally and Famine Is Prevented—Accumulated Garbage Is Problem.

INDIANAPOLIS, Dec. 2.—An effort to call a general strike, in sympathy with the teamsters' and chauffeurs' strike was started at a meeting of the teamsters' union late today. No

definite action was taken, it being decided to wait until the union officers had conferred with the leaders of the Central Labor Union. The question will come up again at tomorrow's meeting.

The first fatality of the strike, which was started Sunday midnight, occurred today when a crowd interfered with an ice wagon in charge of six men of whom special powers had been conferred. When the crowd began throwing bricks and tried to prevent the wagon from moving, the special officers shot and killed Claud Lewis, a negro, and wounded four others, one fatally. The special officers were taken to police headquarters, but were released on their own recognizance.

Wagon Owner Fires on Crowd. Another crowd was fired on today by William Whorton, a negro, when he was attacked on a wagon owned and driven by himself, Jack Long, a teamster, who was in the right leg. Whorton was arrested. There were several other minor disorders, but no one was seriously injured.

The police made numerous arrests. Among those taken in custody today was Henry Friedman, a prominent labor and political leader and wealthy. He was charged with interfering with an officer. The cases of all the persons arrested yesterday were continued in Police Court today until next Monday so the arresting officers could appear.

A proposed parade of strikers did not materialize. Mayor Wallace, as soon as he heard of the plan, issued a proclamation ordering the police to stop any attempted demonstration. The police kept the crowd constantly on the move and did not give the parade a chance to form.

According to employers of teamsters, more wagons were operating today than yesterday and there was little interference. Thomas J. Farrell, general organizer of the union, said, however, the men were holding firm and that more than 3000 men were still out.

Food supplies still are plentiful, as retail merchants anticipated the strike and stocked up their stores liberally. The accumulated garbage is becoming a serious question. No garbage had been collected in the city since Saturday.

Fifty business men with horses were sworn in as the citizens' cavalry today. They volunteered to assist the mounted police in the regular city in darkness as a protest against this slaughter on the streets," Mr. Farrell said. "The Governor and Mayor will be appealed for for rigid protection, but if these executives do not insure us justice, then I am sure it is up to the laborer to get that justice himself."

RADIO PROMISES BROKEN

Selling Agent Says Wireless Telephony Has Failed Commercially.

NEW YORK, Dec. 2.—The sincerity of the claims of the Radio Telephone Company, as contained in the company's circulars, was attacked by Federal counsel today through witnesses in the trial of James Dunlop Smith, Lee De Forest, Samuel E. Darby and Elmer E. Burlingame, accused by the Government of having made fraudulent use of the mails in promoting stock sales of the Radio company.

George H. Coker, formerly a field agent, selling the company's stock, testified that wireless telephony was not a commercial success, as declared in a circular issued by the defendants. C. H. McIntyre, of Bay City, Mich., an officer of several subsidiaries of the

Radio concern, testified he did not know of commercial stations being established on the Pacific Coast or boats in New York harbor being equipped with the wireless telephone service, or of messages being exchanged through such service between New York and Chicago, as promised in other circulars.

adopted by acclamation the following resolution introduced by Dr. J. William Funk, of Baltimore: "Resolved, that in the sense of this meeting President Wilson failed to rise to the sublime heights of democracy when he failed in his message to Congress today to recommend the freedom of half the citizens of the United States today and probably half the citizens of the civilized world."

Fear of bringing on a revolt that might give America a militant suffragist organization today caused leaders in the association to abandon their efforts to have adopted a new constitution reported by a revision committee appointed a year ago.

Advocates of "states' rights" for state associations and opponents of a proposed budget system for raising the National organization's funds declined to accept the recommendations and finally the draft was referred back to the committee with instructions that a compromise constitution to meet the view of all factions be prepared.

Today's sessions were devoted almost exclusively to discussion of the proposed revision of the constitution. The

If I Ate That I Would Die

You Will Never Fear Food if You Go to a Dinner Carrying One Little Stuart's Dyspepsia Tablet.

You needn't pass up all those savory dishes just because you are afraid of what the stomach will say to them. Armed with a box of Stuart's Dyspepsia Tablets, you can bid defiance to the most cantankerous stomach and be assured that your food will be perfectly digested in spite of the stomach's objections.

"At Every Banquet You Will Always See Some Person Who Is Afraid of Food."

Stuart's Dyspepsia Tablets are a compound of potent, natural, and those elements that must be secreted by the stomach if the food is to be digested. When the stomach fails to secrete enough of these digestive secretions, only a certain remedy is to supply a sufficient quantity of these elements to digest the food. This is the service for which Stuart's Dyspepsia Tablets were made and they are recommended by leading doctors and scientists. One or two of these tablets is sufficient to digest the largest dinner. They stop almost instantly all forms of indigestion, such as sour stomach, belching, heartburn, dizziness, brash and dysentery. Stuart's Dyspepsia Tablets contain digestive elements, a single grain of which is capable of digesting 3000 grains of food, such as meats, eggs, grains, vegetables, starches and mineral matter of all kinds.

If your stomach is sluggish or worn out, let Stuart's Dyspepsia Tablets do your digesting for you until the stomach can recover. Give it a little vacation. It has a hard enough struggle at the best, with all you put in it. And even when your stomach is in perfect condition, you will occasionally need one after a big banquet or other social affair that taxes your stomach to the uttermost.

Make Stuart's Dyspepsia Tablets the ever-ready friend and assistant to your stomach. Get a 50c box of your druggist today.—Adv.

Our Blood

When in healthy condition is composed of those elements that HOOD'S SARSAPARILLA is especially adapted to preserve, restore and supply.

It is made up largely of red and white corpuscles—red to nourish and sustain the body—white to protect the body against disease.

In weak, worn-out, pale-faced people, the blood is "watery" because the red corpuscles are deficient and the white corpuscles delinquent.

Hood's Sarsaparilla gradually but certainly floods the body with new, rich, red blood that invigorates the entire system, gives sparkle to the eyes and restores color to the cheeks.

It has done this for thousands. It will do the same for you.

CAROLA INNER-PLAYER

It is the expression of the entire household—not of a single musician of that household.

The young lady with supple fingers and time to practice learns to play, of course. She may become a pianist. But father, the busy man, and mother, of the household cares and social duties, become Inner-Player Pianists.

The great world of music with its thousands of compositions lies as an open book before them. Especially is this true if the CAROLA INNER-PLAYER is chosen, for this is a perfected type of player piano.

It is the only Player with a Miniature Keyboard, which gives a flexibility to the stroke.

It is the only Player that enables you to instantly transpose through nine keys.

It is the only Player having a Wrist Rest, which means unusual ease of operation. There are nine other exclusive patented features which we want to explain to you.
