Deal-hers claim the prices are not warranted the markets elsewhere, but other buyers e not bindered by this fact, and are stead-raising their bids, in anticipation of a gher market later that will enable them to unload at a profit.

The buying is not heavy, but it does not require large operations at this stage to keep farmers' ideas builtsh. Club wheat has been bought at 83 cents and forty-feld at 84 cents. These prices are about a cent about the export basis, and are more than but as they cannot get wheat for less, any necessary orders have to be filled at these figures. with the protection as far as possible of the workers of Oregon, I add my voice to the appeal to every one to

shop early.
Do your shopping early in the month, early in the week, early in the day. Observe all three of these important points and you will do justice and mercy that will be appreciated by thousands of overworked saleswomen and salesmen, and by thousands more who realize the importance of such

ection.

Shop early and in broad daylight of shopgiris ready to collapse from Si the fatigue of the day of the hardest kind of work

kind of work.

Have you any idea of the work of both brain and body of the average saleswoman, particularly in the city or larger town? I dare say you have not —not one in 50 of you. On their feet all day, running hither and thither, harassed by the whim and often by the rebuke of all classes of men and women in all starses of nevyons tension. A en in all stages of nervous tension. more fatiguing occupation is unknown. Think of it, please, and lend your reasonable assistance by forming habits that will add just as little as possible

to the general strain.

It is at these rush seasons when the incentive is greatest to break the law governing hours of employment. And this is natural. Merchants strive to please their patrons and to accommothe public, also, has some responsibility. If the law is violated, those charged with its enforcement must act or be justly censured.
