

2 OF 12 POLICEMEN TO BE CAPTAINS

Slover Charged With Protecting Fallen Women, Riley and Others Gambling.

MORE DISMISSALS LIKELY

After Officially Rehearing Officers Involved in Scandal, Mayor Says End Yet to Come—Successors to Higher Men Named.

A clean sweep of patrolmen and higher-ups in the police department who were involved in the recent investigations which brought out evidence of gambling, political juggling, trickery, police protection to fallen women, and other offenses against many in the department, was made yesterday by Mayor Albee, when he discharged 12 members of the police force on various charges.

The official ax lopped off the heads of two captains, E. A. Slover and Harry Riley; three sergeants, C. J. Rupert, Thomas J. Casey and A. L. Pressey, and seven patrolmen, John M. Jones, A. Schirmer, B. E. Whitchurch, George Frey, G. E. Fuller, B. D. Hutchins and H. Christofferson.

In addition to the usual explanation, for the good of the service, Mayor Albee gave specific reasons for dismissals in each case.

Following the dismissals which took effect yesterday afternoon the Mayor appointed C. A. Inskip and Leon Y. Jenkins to the positions of captains, made vacant by the dismissals of Slover and Riley.

Mayor Albee announced that these appointments are temporary, pending the holding of a civil service examination to secure an equitable method of making permanent appointments. Men to fill the other positions will be announced later.

End Is Yet to Come.

The shakeup in the department is the most serious that has ever taken place. And the Mayor says the end is not yet. He says while he probably has swept out all policemen who were involved deeply enough in the recent investigations to warrant discharge, other investigations are to be made by the Civil Service Board and more dismissals are likely to follow.

The most serious charges in the lot are those filed against Captain Slover, who was Acting Chief of Police during the Ruslight administration. The charges against Slover read as follows: "You are hereby notified that you are removed from the service of the City of Portland, Or., for conduct unbecoming an employe and police officer. In particular you are charged with neglect of duty in the discharge of your duties during the month of August, 1912, and on numerous occasions prior thereto during the time you have been in the police service of the City of Portland, Or., you slept while on duty, and you neglected your duty in that you have not caused offenders of the law to be apprehended, and that you have interfered with officers in the discharge of their duty in apprehending offenders of the law. Your dismissal is made for the good of the service of the City of Portland, Or., and takes effect this date."

The notices of dismissal and charges sent out to all the others, excepting Patrolman Frey, read as follows: "You are hereby notified that you are removed from the service of the City of Portland, Oregon, for conduct unbecoming an employe and a police officer. In particular you are charged with being absent from duty during the time that you have been employed by the City of Portland as a police officer and that you did while on duty, on or about the first day of October, 1912, discharge firearms within the corporate limits of said City of Portland, Oregon, and use language unbecoming an officer, and your dismissal is made for the good of the service, taking effect this date."

In the case of Mr. Frey, who ran for City Commissioner at the election last Spring, the charges against him are said to be due to his having hunted China pheasants within the city limits during the recent open season.

The dismissal of the men was brought about through the action of members of the Municipal Civil Service Board and particularly Chairman Caldwell of the board. For this reason the civil service standing of the men brings out a new question in regard to their right for a hearing of their cases.

Ordinarily when an employe of the city is discharged the charges against him are filed with the Civil Service Board, which body gives the employe a hearing.

Board's Indorsement Likely. Inasmuch as it was on the initiative of the board members that these dismissals were made, there is a question as to the recourse. If the board grants a hearing in all probability it will sustain the charges and indorse the dismissals. The men then have a right to go into the courts and ask for a rehearing. If the court rules in favor of them they are entitled to another hearing before the Civil Service Board. Under the conditions in this case the men, it is said, are not to be given a hearing.

Mayor Albee declares that he made the dismissals hoping that the bickerings, petty jealousies, trickery and other troubles which have kept the department in an uproar for years will be discontinued.

"I discharged these men for the good of the service and for nothing else," said Mayor Albee yesterday. "The expression for the good of the service" is used in a broad and direct sense and not merely in the stereotyped form that expression generally is used.

Evidence Is Weighed. "I went carefully into the evidence which was taken in the Civil Service Board investigations held recently and reached my conclusions after due consideration. My only ambition has been to place the police department on a clean and proper footing which will stand the test of time."

"I consider that this is the red-letter day for the police department, because there is a newness to everything. The old has been wiped out and the new

to work and forget all these petty grievances which have kept the department in a continual uproar.

"As to the future, I will say that I will continue to enforce my orders regarding courtesy and fair treatment of the employes. I believe that it is better than anyone else and by reason of his authority is entitled to greater rights than other citizens who have the wrong idea and the sooner he leaves the department the better off he will be. He will not last if his case comes to my attention."

Removals Believed Justified.

"The men who have been discharged have their recourse before the Civil Service Board and the courts. I have advised them and higher ups having played the action I have, and I believe I have been fully justified in the removals which have been announced."

In the recent police investigations evidence was produced to show that gambling has been going on for months in the Police Athletic Clubrooms, patrolled and higher ups having played for money. In the case of Mr. Slover and some of the others charges of political trickery and trouble-making were produced. Against Mr. Slover alone much evidence was produced to the effect that he had slept on duty, had protected fallen women, had conducted unusual political campaigns in the department and had done other things declared to have been unbecoming a policeman.

Mr. Slover was first appointed as a patrolman in the service May 5, 1905. He was promoted to sergeant March 19, 1906, and became a captain November 17, 1906. He was appointed Acting Chief of Police by ex-Mayor Ruslight, Harry Riley, on May 23, 1907. He was promoted to sergeant, October 1907, and later was promoted to sergeant. During the Ruslight administration he was made an acting captain to take the place of ex-Captain Bailey.

Rupert in Service Since 1905.

C. J. Rupert was first appointed as a patrolman January 15, 1905. He was promoted to sergeant May 1, 1912. Thomas J. Casey entered the service May 28, 1905, and was appointed sergeant during the Ruslight administration. A. L. Pressey entered the service October 8, 1905, and became a sergeant June 15, 1912. The patrolmen appointed on the list in 1911 are: August Schirmer, February 8, 1912; R. L. Whitesides, January 14, 1909; Charles F. Frey, March 23, 1909; G. E. Fuller, January 15, 1908; B. D. Hutchins, February 21, 1909; H. Christofferson, February 7, 1912.

Two Newly Appointed Captains.

The good police records, C. A. Inskip was first appointed patrolman in June, 1905, having secured a rating of 98.30 per cent in the civil service examination. In 1909 he passed the highest mark on the list in an examination for police captain. In 1911 he passed second on the list for captain. Harry Riley promoted him during the Ruslight administration he resigned in September, 1912, and was out of the service until July 15, of this year, when he was reinstated by Mayor Albee. He is 32 years old.

Leon Y. Jenkins, who has been appointed captain, was first appointed patrolman in October, 1908. In May, 1912, he was appointed sergeant. During his service he has been on the second night relief continuously. He is 34 years old.

GOOD THINGS IN MARKET'S

AN OLD-COUNTRY (North of Scotland) woman was heard the other day mournfully commenting on the scarcity of fresh fish in the realm of Uncle Sam. Her mind was hungrily wandering home to the trawls of Aberdeen, like the Israelites in the wilderness, who harked back to the onion and leek beds of Egypt. But as our newsmen find their way about, from one fish market to another, they will find a much greater variety than they thought for.

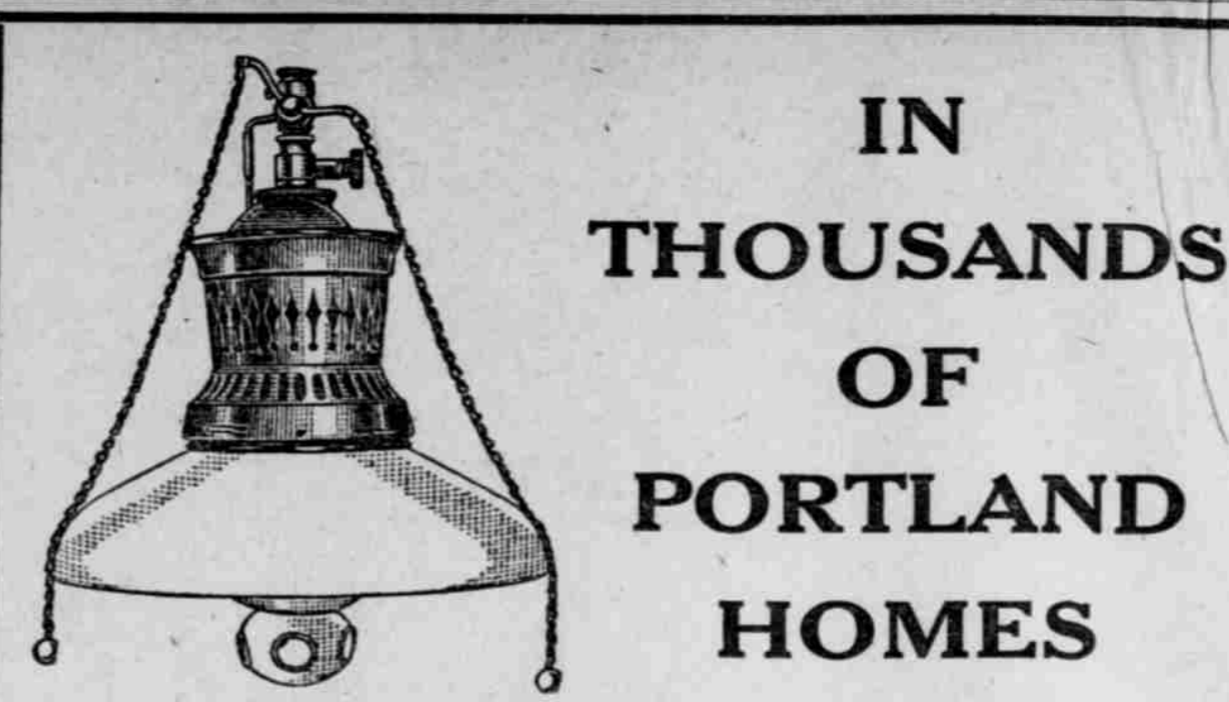

This week steelhead and silverside salmon are selling for 12 1/2 to 15 cents a pound, sturgeon, 29 cents; Columbia River smelt, 15 to 25 cents; Puget Sound smelt, 19 cents, and two pounds for a quarter; rock cod, 15 cents; California shad, 1 1/2 cents; sea bass, tomcod, fresh herring, soles and flounders are each 10 cents; Montana white fish, 15 cents; black cod, halibut and sanddabs are each 15 cents, or two pounds for a quarter; crabs, 15 and 20 cents each; lobsters, 40 cents a pound; razor clams, 15 cents a dozen, or two dozen for \$1.00; scallops, 50 cents a dozen, or two dozen for \$1.00; Eastern Finnan haddies, 25 cents a pound; scallops, 75 cents a pint.

One of the most interesting exhibits on the counter of the fishmonger this week is squid, or ink-fish, from the California coast. About the size of smelt and of gelatinous appearance, it has the power to emit an inky fluid, from which it takes its name. It is said to resemble razor clams in flavor, and is considered a dainty by the French, Italians and Japanese, who fry them in olive oil. They retail at 15 cents a pound. A consignment of carp was also on hand, said to be much used for fish balls by the corners from Eastern Europe, who season them with paprika and onions. Dried stock fish, which Norwegians call "botta fisk," is reported to be surprisingly "good" when soaked out and treated like hominy.

A warning note is being sounded by the poultry sellers that Christmas turkeys will probably not be lower than 25 cents a pound—the present price—owing to the large influx at Thanksgiving, which were being "way down" to get them out. Spring chickens average 30 cents; broilers (scarce), 35 cents; domestic ducks and geese, 30 and 25 cents a pound, respectively; "jumbo" squabs (young pigeons), 75 cents each—very large.

The tendency of butter and eggs is downward. The best grade of fresh butter can be had at 25 cents, and is made a specialty—at 35 and 37 cents a pound, a reduction of 1 cent. Good dairy butter, 30 to 35 cents; best storage (June), 65 cents, in two-pound rolls.

Reliable fresh eggs can now be had at 50 cents a dozen; best storage, 35 to 40 cents, and "bakings" as low as 30 cents a dozen. In the meat market steak is slightly lower in price, owing to the importations of poultry. Round steak is quoted from 18 to 20 cents; briskin, from 18 to 21 cents; flank, 18 cents. Boiling meat—lean, fleshy pieces—average 15 cents, and brisket, 12 1/2 cents a pound. Loin lamb chops range from 10 to 20 cents; shoulder, 15 cents a pound; loin pork chops, 20 cents and shoulder, 17 cents; corned beef, 1 1/2 cents; tripe, 19 cents; lamb's brains, 15 cents a pound; lamb's

roads should be hard surfaced. This will prove the most economical in the long run.

Cost Problem Defers.

C. H. Martin said the problems of building roads on the Coast is far different from building roads in the Middle West or the East. Climatic conditions and the character of the materials make the problems different. His work in Umatilla County called for water-bound macadam roads, and he believed he has been successful in getting good results.

Pioneer macadamizing in Multnomah County was discussed by H. B. Chapman, who said that some of the foundations he prepared for macadamizing roads could be used for hard surfacing now.

All the transactions and financial affairs of the Portland Juvenile Market, which discontinued operations several days ago, after running through the Summer and Fall months, will be investigated thoroughly by Deputy District Attorney Collier. Mrs. Eunice Douglas, manager of the market, has been summoned to appear in Mr. Collier's office next Tuesday, bringing with her all the books which she kept during the operation of the place.

"I am led to believe that Mrs. Douglas has failed to pay about \$150 to the children who brought articles to her to be sold," said Mr. Collier, "and that when the market was closed goods worth about \$250 were unaccounted for."

WOMEN DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. One used it to keep her hair beautifully black, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of Wyeth's Sage and Sulphur Hair Remedy, you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

Well-known downtown druggist says: "I prepared the hair so naturally and evenly that nobody can tell it had been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully black, glossy, soft and abundant."
