AL KADER TEMPLE VOTES TO OPEN BARNES' CIRCUS IN SPRING.

Representatives to Imperial Council at Atlanta Are Chosen and Lodge Officers Are Elected.

The members of Al Kader Temple, Order of the Mytic Shrine Saturday night decided that when Al Barnes' circus opens its season in Portland next April it will be under Shiner auspices.

The circus, which is wintering in Portland, makes it a custom to open under Shiner patronage each year and the decision insures that the rule will not be broken next Spring and that the men who wear the red fezes will sell peanuts and do the barking in front of the sideshows.

Representatives to the Imperial council, which will meet at Atlanta, Ga., next June, were elected. They are W. C. Bristol, Harvey Beckwith, W. L. Morgan and D. G. Tomasini.

Several candidates were balloted on last night and the successful ones will be conducted across the burning of the temple in a peaceful manner, where they may quench their thirst on camels milk, at the ceremonial meeting early in January. They may encourage a banquet or be mistaken by the press, but it is predicted that they all will "get over" all right.

The election of officers resulted as follows: Illustrious potentate, Harvey Beckwith; chief raban, G. W. Stapleton; assistant raban, William E. Grace, high priest and prophet, J. P. Moffatt; orator, H. Lee; director, Frank S. Grant; illustrious marshal, A. L. Tetus; captain of the guard, H. T. Hutchinson; outer guard, F. A. Kirk.

J. S. Tommasini is the retiring illustrious potentate.

Representatives to Imperial Council at Atlanta Are Chosen and Lodge Officers Are Elected.

The lives of 125 persons were threatened late Saturday night and were saved only by the timely arrival of detectives at a rooming-house at 315 Couch street, where they found 125 Damich concealed on steps leading to a cottage behind the house and in front of which was a hole filled with rubbish and inflammable matter.

Damich had in his possession two quart bottles of gasoline and a handful of matches, with which it is thought he was going to make good a threat made several days ago to Mrs. Margaret Schneider, proprietress, that he would burn the house to the ground.

Damich was caught in the act of lighting a match, and he was followed by Detectives Goltz and Royle, after having recently robbed the room of Harry E. North, living in the house of clothing valued at \$100. Damich has just finished serving a sentence on the rockpile at Linton of 25 days for burglary and Thursday night the roomed by Japanese was seized by a stepladder placed against the side of the house.

Detectives Goltz and Royle were assigned to the case and investigation found a description of the man thought to be responsible for the thefts. Last night Damich was located in a North End saloon and taken to the station. He was taken to the scene of the near-crime Damich purchased two quarts of gasoline at a drug store at Third and Burnside streets. He then made his way to the house on Couch street and sneaked around to a back entrance. Behind the house is located a smaller one used for overflow lodging accommodations. In the main house it is said 100 men were occupying cots.

When the detectives waited for Damich, they were put in a predicament, they crept to the rear and with flashlights located the cringing form of the man huddled on the steps of the cottage. He was covered by the guns of the detectives, and after spirited resistance was handcuffed and taken to the station.

Detectives Goltz and Royle entered a room occupied by Damich, at the Washington Hotel, and there found the clothing stolen Thursday from Mori, and making a search of the room they were taken from Mrs. Schneider November 26, and for which he served the 25-day rockpile sentence.

What Does U.S.P. Mean?

U. S. P. is an abbreviation of the United States Pharmacopeia—a book arranged by an association of Doctors, Chemists and Druggists, which meets every ten years to establish the standards of strength and purity of all drugs and medicines. These standards are official, and in many states the book is part of the pure food law.

At "The Owl" all drugs and medicines put up in our laboratories are U. S. P. standard, and some are even of greater strength than the law requires. In addition, "Owl" drugs are packed in sanitary containers, with the weight plainly marked on the label. No dust, dirt or light can penetrate the interior, and the drug reaches you fresh, pure and potent.
