MICHIGAN'S COPPER STRIKE.

Shooting and expulsion of Charles H. Moyer is the latest important event in the long and bitter struggle in the Michigan copper mining district between the Western Federation of Miners and the mineowners.

Antagonism to Moyer and the prosecution of the trial may be ascribed to the character and history of the man and of the organization which he heads.

Arrested for burglary in Toronto when 19 years old. Served time. Arrested in Galesburg, Ill. for diamond theft. Squared the case by restoring money and jewelry.

Deserted Ethel Newcomb in Portland Hotel one week after invalid marriage, taking \$2500 worth of jewelry belonging to her.

Identified in Chicago by two women who, in Portland, tried twice for larceny of jewelry, with resulting disgrace of jury in each instance.

Finally convicted of bigamy and sentenced to one to four years in prison.

Hot shot at Mr. Burleson. Postmaster-General Burleson's scheme of government ownership of telegraph and telephones is declared by that foremost of Democratic newspapers, the New York World, to be "no policy of the Democratic party."

World that improvement of the postal service would be the reasonable basis of his energy for enlargement of its operations, for it says:

These remarks are all the more cutting because Mr. Burleson, in his annual report, boasted of the high degree of efficiency to which he had brought his department.

The Democratic, like the Republican party is pledged to the policy of private ownership of telegraph and telephone as well as railroad lines under public supervision and regulation.

Orders the National debt, doubling the army of Federal office-holders and plunging the country into an ill-socialistic experiment.

operation, but we shall approach the subject with great caution, not to say trepidation. We shall be the less willing to make the change if Mr. Burleson, treat every minor office as political spoils and should place party reward above public service.

FATHER DUNCAN'S WORK DONE.

Retirement of Rev. William Duncan, "Apostle of Alaska," ends the active career of one of the great men of the Pacific Coast.

Mr. Duncan has thus been far more than a religious teacher. He has taken savages and initiated them in all that is good of civilization, while guarding them from that which is evil.

WHEN THE COWARD QUAILS.

The relief the public must feel over the final ending of the series of Von Klein trials is not experienced by the defendant.

WHY THESE TEARS?

It was the gravest tears, according to the Portland Journal. The Supreme Court does not decide cases the way it used to do.

Portland tidelands by private interests. Improvement of these lands has actually accelerated navigation, commerce, manufacturing and railroad building.

But the policy probably appears to the eyes of all Latin America as the first beginnings of an attempt to establish a protectorate over them.

They can scarcely be blamed if they regard Mr. Wilson's policy as an insidious policy of aggrandizement. When the Monroe doctrine was proclaimed, it was welcomed, for the new republics then felt the need of protection against Europe.

This condition of public opinion is the result of unfortunate events which are about to increase our commercial intercourse with Latin America.

News statements are meager concerning the suicide of a wealthy stockman of the Payette Valley Christmas eve.

The meeting to be held at Salem at the end of the week to discuss educational features of county fairs will tackle a big problem.

SOFT ARMY JOBS IN PHILIPPINES

Former Resident Sees Selfish Cause for Criticisms of Administration.

ASHLAND, Or., Dec. 24.—(To the Editor.)—A comrade reader of your paper. I must take issue with Army officers who are criticizing the policies of the present Administration.

As long as the Army is in control in any part of the Philippines, the people of that nation will never be ready for self-government.

They can scarcely be blamed if they regard Mr. Wilson's policy as an insidious policy of aggrandizement. When the Monroe doctrine was proclaimed, it was welcomed, for the new republics then felt the need of protection against Europe.
