Under the new system of handling Under the new system of handling city affairs things have become so exacting that hereafter when one department borrows an automobile or truck from another, the department securing the machine will pay for the hire to the other. A resolution providing for the new system will come before the Commission tomorrow from Commissioner

Dieck.

Under the plan each department is expected to operate on its own resources. When one department lends another a machine the department making the loan will be credited with an expert equal to the actual cost of the ST. JOHNS WORK DELAYED Oral Argument Over Willamette Boulevard Postpones Decision.

St. Johns Or., Dec. 29.—(Special.)—
A decision on the width of Willamette

A decision on the width of Williamette 884 boulevard through Minar's Addition, in 8t. Johns, pending in the Supreme Court, will not be reached until next June or July. George I. Perkins, attorney for St. Johns, undertook to have the case submitted on briefs without oral argument. 158 but Attorney Thomas desired to submit.

but Attorney Thomas desired to submit oral argument to the court.

It is contended that the street was made 100 feet wide through the action of Hartman & Thompson. Owners of the land on either side prepared a map showing the boulevard 100 feet wide, and sold lots according to this map. The opposition holds that the street is not 100 feet wide and the alleged widening by Hartman & Thompson was not regular. The case came up when an attempt by St. Johns to pave Willamette bouvelard from Portland city limits was stopped by the proceedings.

Mr. Perkins said he regretted that the matter, could not have been submitted on briefs, as only law points are involved, and a decision could have been rendered within a few weeks, whereas it will be held up for months. but Attorney Thomas desired to submit oral argument to the court.

It is contended that the street was made 100 feet wide through the action of Hartman & Thompson. Owners of the land on either side prepared a map
