Market Is Irregular, With Early Gains
Lost Later in Day—Government
Bonds Again Advance.

NEW YORK, Jan. 2.—The first day of the new your on the stock market was devoid in the surface of more than passing significance. During the greater part of the season trading was dull and price changes in the main were unimportant though with a higher tendency. In the final hour a selling movement of moderate proportions wiped out most of the early gains, sending the streets and before mid-night 35 more boys and 10 girls had been ordered home. The children, the officers reported to Chief Probation Officer Meintosh yesterday, were roaming the streets, visiting theaters and other places of amusement and celebrating with the crowd. Some of these children were not more than eight years old, the officers reported.

Mr. McIntosh said that he proposed to ask the City Commissioners to pass a law making it a crime for any theater to sell a ticket to a child less than 15 years old, unaccompanied by an older person, to any performance which will not close in time to permit the child to see the full performance and get home before 3 o'clock in the Winter or 9 o'clock in Summer.

"It is hard to punish the child for such an offense," said Mr. McIntosh, "but if we can get an ordinance which will allow us to penalize the person of the same properties.

when our most of the early gains, sending the general level under Wednesday's final quotations.

The interesting event of the day, in its reneral application to financial and political conditions was the announcement that the banking house of Morgan & Co. had retired from numerous boards with which it had long been associated, and the intimation that further withdrawais would be announced from time to time. This gave rise to much surmise and conjecture, but had no influence upon the stock market. The Bank of France reported a gold loss of about \$2,000,000 and an enormous increase in loans and discounts. The Bank of England also showed the effects of extensive year-end operations, aithough its rold holdings increased almost \$19,000,000. There was a rise in call money to 9 per cent.

United States 2s and Panama 2½s and 2s advanced ¼ to ½ per cent on call. Total sales of bonds, par value, aggregated \$2.175,000.
