

JAP WINS ACTRESS

Presence at License Bureau Not Relished by Girl.

AGE GIVEN IS 23 YEARS

Tacoma Barber Goes to Vancouver With Friend and Prospective Goes Alone, Separating Again After Grant is Obtained.

VANCOUVER, Wash., Jan. 16.—(Special.)—"Please, Mr. Clerk, please don't let the newspapers have this," pleaded pretty Miss Pearl Adams, who alleged she was an actress from Seattle, as she nervously grasped a pen to sign her name to an application blank for a license authorizing her marriage to Sotaro Miura, Japanese barber of Tacoma, at the County Auditor's office at 5 o'clock today.

Miss Adams, 23 years old, in a blue wool dress trimmed with gray fur two inches long, and a toque hat, with the regulation feather duster attachment on the rear, went to the Courthouse alone, and the two Japanese went together. The witness, who is the same person who obtained the license, but when the girl learned she would have to appear in person she objected and went into a seclusion at the farther end of the hall. The prospective bridegroom talked earnestly to her, but still she protested. Finally, with a flushed face, she hesitatingly entered the Auditor's office.

Miura said he lived at 1203 C street, Tacoma, and was a barber by occupation. He is tall, thin, with piercing black eyes and aquiline features. He was well dressed. Standing before the counter when the papers made out, Miss Adams looked constantly away from the people in the office, and turned her fur collar on her blue coat over her flushed cheeks. When told to write her name, she could not do so at first, on account of nervousness, but after two attempts she managed to scrawl her name, and said she was an actress by profession and had been on the Pantages circuit.

Leaving the Courthouse they searched Main streets, alone, walking with halting step and appeared to be almost weeping.

British Columbian Official Thinks His Government May Help Lumber Company in Trying System.

MOSCOW, Idaho, Jan. 16.—(Special.)—The delegation of Canadian forestry experts that arrived in Moscow Wednesday to investigate the work which is being done by Professor C. H. Shattuck in the by-product lumbering industry is much pleased with its findings.

Although we had long known of Professor Shattuck and the great work which he has been doing here at the University of Idaho, said J. Lafon, assistant forester and special representative of the land department of the British Columbian government, "we were nevertheless greatly surprised at the magnitude of the work and at the progress that has been made in a comparatively short time."

The Canadian delegation included representatives of some of the largest lumbering companies and prominent attorneys and business men from several towns in lumbering sections of the province. They are here to study the question of by-product lumbering purposes a large quantity of yellow pine wood and witnessed the entire process through which it was prepared into tar, turpentine, creosote, resin, oils and a number of other commercial commodities.

CHILD SHOOTS BANKER

PARENT'S ATTEMPT TO INTERVENE PROVES FUTILE.

While L. A. Martin, of Kuna, Idaho, Waits for Joseph Powell, Small Boy Explodes Revolver.

BOISE, Idaho, Jan. 16.—L. A. Martin, president of the Kuna Savings Bank, died tonight from the effect of a shot fired by the 5-year-old son of Joseph Powell, five miles west of Kuna.

Mr. Martin was at the Powell home on business matters and while he was waiting the child took a revolver from his father's coat, pointed it at Martin and fired. The bullet penetrated the brain and physicians declare the wound is mortal. The father tried to intervene, but was too late, and as Martin sank to the floor cried: "The child didn't mean it." The wounded man smiled and drifted into unconsciousness.

J. BOURNE, JR., WINS SUIT

Ex-Senator Granted Title to Rich Mineral Veins in Idaho.

BOISE, Idaho, Jan. 16.—(Special.)—Ex-Senator Jonathan Bourne, Jr., of Oregon, has won his fight for valuable mining property in the Coeur d'Alene mining district, Judge J. S. Dietrich having handed down a decision today in his favor dismissing the action brought against him by the Stewart Mining Company for the possession of ore bodies beneath the surface of the Ontario lode mining claim.

The Stewart Mining Company owns several claims adjoining the Ontario owned by Mr. Bourne. It was admitted at the trial that the veins run through the land ever claimed for mercury, iodides, arsenic, and other destructive mineral drugs, and yet it is absolutely a purely vegetable product. It contains one ingredient which serves the active purpose of stimulating each tiny cellular part of the tissues to the healthy and judicious selection of its own essential nutrition. There are more cases of articular rheumatism, locomotor ataxia, paresis, neuritis, and similar diseases result from the use of minerals than most people are aware of. These facts are brought out in a highly interesting book compiled by the medical department of The Swift Specific Co., 304 Swift Bldg., Atlanta, Ga. It is mailed free, together with special information, to all who write describing their symptoms.
