Trade advices received yesterday from the East reported the hide market firm throughout the past week, but without much business passing. Another report said:
"The country hide situation is somewhat steadler to firmer, although trading is re-stricted by the small available supplies. Buffs have sold freely at Chicago and out-

'One interesting feature of the market is the fact that branded cows are at present bringing a premium of % % % o per pound ever butt brands and Colorados, whereas sually the latter kinds sell for more than branded cows. This would show that tanners are especially anxious to produre lightweight hides. A similar condition to this also exists in native cows, with liberal sales of 32 lightweights at 175c, while heavy cows are neglected at 176175c and heavy native atters are only quotable now around 171/249 17%c, while a few months ago heavy native steers brought about 2c over light cows. All kinds of native hides in the packer market are rather slow and easy, with the single exception of light cows, and these, together with branded hides, have been the active feature of the market of late."

there is a healthier undertone to the market. Actual values, from the standpoint of the tanner, are 5 to 10 per cent higher than they were last October. In other words the quality is that much lower with the basis of prices the same. This in itself indicates the satisfactory conditions underlying the market.

The course of the hide trade has always been regarded as a fairly reliable barometer of the general business situation. The improvement that has manifested liself in the market, therefore, is taken to mean a revival of industrial and commercial activity.

or More-Recent Reports of Improving Business Conditions Are Confirmed.

NEW YORK, Jan. 21 .- Dealings in both tooks and bonds were on an enlarged scale stocks and bonds were on an enlarged scale today and prices rose steadily. There was an insistent demand for securities of all classes, and nearly 80 or the stocks traded in made gains of 1 to 2 points or more. The sustained character of the buying made the market one of the best from the standpoint of buillish operators of any day since the improvement act in last month. Another important factor was the marked success of New York State's offering of \$51,000,000 of 4½ per cent bonds. Quotations of the bonds "when issued." which opened around 106%, shot up to 107%. Throughout the bond market, prices rose on active trading. Throughout the bond market, prices rose on active trading.

FORMER PRICES PREVAIL AT THE

CHICAGO, Jan. 21.—Shrinkage worse than at any previous time this season appeared today in estimates of the Argentine exportable surplus of wheat. Prices here made a corresponding advance, and closed steady with a gain of '% % to to '% % het. Other leading staples all finished at a loss, compared with the night before—corn 'to to '% % 'co oats a shade to '% cand provisions 2'% to to to.

Bevised figures from threshers brought the probable yield of wheat in Argentina down to where the margin for export would not be put at more than 64,000,000 bushels, as against 108,000,000 bushels a year ago. The effect of this builtish news was increased by dread that the cold wave northwest of Chicago might spread over the Winter crop belt and cause a dangerous sudden freeze.

The statement that the number of meatproducing animals on farms had decreased to 7 per cent, as compared with last year, tended materially to pull down the price of corn. The market made only a temporary response to early advices that the Argentine crop was falling to maintain recent high promise.

Oats weakened with corn. Selling from Good Steers Are Moved at 87.45 -There was a light run of livestock at North Porland and the market generally was featureless. Most of the business was in the hog di-vision. Former prices ruled, the top held-ing at \$8.05, but the bulk of sales were at \$3.

crop was falling to maintain recent high promise.

Outs weakened with corn. Selling from commission-houses developed as soon as prices had shown a little upturm.

Frovisions regained much of a decline, due to more liberal receipts of hogs than expected. The rally came about in consequence of the reported falling off in the total of meat-producing animals on farms.

DAILY METEOROLOGICAL REPORT.

PORTLAND, Jan. 21.—Maximum temperature, 52 degrees; minimum, 39 degrees, made. The "12-4" homesteaders are appealing their case upon the merits of their rights to the lands, and it is their intention to fight the Northern Pacific Company, which claims lieu script on Township "12-4." The Northern Pacific placed lieu scrip on the township in 1893, having relinquished lands in the Rainler National Park district in Washington to the Government. In November, 1911, the settlers began to squat upon their claims, and in 60 days nearly every quarter section in the whole township was occupied by settlers. It was upon a security of the settlers handed down. fee. The South Santiam settlers have 30 days

In 60 days nearly every quarter section in the whole township was occupied by settlers. It was upon a decision handed down by Secretary of the Interior Fisher; in the "Hyde case" in E California, which gave some settlers on Northern Pacific lieu scrip lands their claims, which influenced the "12-4" at large to take up their lands. THEODORE F. DRAKE,

Texas:

The conditions are favorable for rath Thursday in Western Oregon and Western Washington and for rain or snow east of the Cascade Mountains. Southwest to west winds will obtain. On account of the heavy rains in the Willamette Valley and the moderate rains with higher temperatures along the lower Columbia, the Willamette River will rise quite rapidly for the next two or three days. Should conditions warrant special observations from river observers will be called for. Those interested
