

MRS. GOELET FILES SUIT FOR DIVORCE

Husband Accused of Extreme Cruelty and Other Misbehavior and Wickedness.

SEPARATION IS NOT NEW

Couple Have Simply "Kept Up Appearances" in Fifth-Avenue Mansion for Months—Home to Be Closed Permanently.

NEW YORK, Jan. 21.—(Special).—Mrs. Robert Goelet has filed suit for absolute divorce from the millionaire clubman and sportsman. The papers were sent from this city to Newport for filing today. Mrs. Goelet left the city this morning for Daytona, Fla.

Robert Goelet, it is said, will sail for Europe in a few weeks. His wealth has been estimated at \$35,000,000. Intimate friends of the couple have been expecting something of this kind for months, but many did not know that while they occupied the Goelet mansion on Fifth avenue they were not living there as husband and wife. While they continued, however, to keep up appearances intimate friends had hoped for a reconciliation.

Within the last month Mrs. Goelet had made up her mind to take the final step. With her butler and maids she left the house today for the last time. Arrangements had been made meanwhile to close the house permanently February 1.

The papers charge Mr. Goelet with "extreme cruelty and other misbehavior and wickedness repugnant to and in violation of the marriage covenant." Samuel Untermyer is Mrs. Goelet's attorney. All he would say today was that any papers which had been filed would show all that was to be said of Mrs. Goelet's complaint. Mrs. Goelet, he said, did not regard her affairs or those of her family as matters of public interest or concern.

SETTLEMENT IS DEMANDED

End of Controversy Over Oak-Street Property Is Wanted.

Residents of Oak street, between Tenth and Burnside streets, want formal demand yesterday that the City Commission take action at once to close up the controversy between the city and John Klosterman, which has held up for more than two years the opening of Oak street through property owned by Mr. Klosterman. The city recently offered Mr. Klosterman \$45,000 for his property, but he demanded \$50,000. He finally dropped to \$47,500, and announced he would drop no lower. The Commission refused to pay more than \$45,000. Mr. Klosterman has now offered to drop of \$500 more from his demand, proposing a settlement for \$47,500. This proposition will come before the Commission probably tomorrow morning.

STUMP-LAND FUND ASKED

Representative Hawley and Senator Brady Want Appropriation.

OREGONIAN NEWS BUREAU, Washington, Jan. 21.—Representative Hawley, of Oregon, and Senator Brady, of Idaho, are working for an appropriation in the agricultural bill for continuing the study of the stump-removal problem, so as to render available for farming large areas of cut-over lands that now stand idle because of the excessive cost of clearing. An appropriation for this purpose was made in the agricultural appropriation bill of last year, but the Secretary of Agriculture did not ask for its continuance. Work started by the Forest Service under the appropriation made last year was not completed.

WOMAN MAY NOT HANG

CONDEMNED 12 YEARS, MURDERER'S MOTHER MAY BE LIBERATED. New Arguments Made Before Pennsylvania Board for Confessed Slayer of Husband.

HARRISBURG, Pa., Jan. 21.—From arguments presented before the Board of Pardons today it is believed that Mrs. Kate Edwards, who has been in jail more than 12 years under sentence of death for the murder of her husband, will be liberated. Because of her sex no Governor since 1901 has signed papers for the carrying out of the death sentence.

Mrs. Edwards was arrested in July, 1901, for the murder of her husband in Stoudsburg. A few days later a negro who worked in a quarry with her husband, and who had visited the Edwards home was arrested as an accomplice. Ten days after her imprisonment Mrs. Edwards became the mother of a negro child. The woman and the negro were convicted and sentenced to hang. The cases were taken to the higher courts without avail and then to the Board of Pardons. In 1903 Mrs. Edwards confessed to the murder and repented the negro. A special act of the Legislature was passed allowing the negro a new trial and he was acquitted.

EIGHT-HOUR LAW IS WANTED

Washington Unions to Make Demands on Lumbermen May 1.

RAYMOND, Wash., Jan. 21.—(Special).—The State Federation of Labor today adopted a resolution favoring a statewide eight-hour law, without a dissenting voice. President J. G. Brown, of the Timberworkers' Union, of the three large cities of the Northwest, and referring to a local mill, which was running 12 1/2 hours a day, he declared "there was too much work here." He declared that conditions must be equalized and that unless the lumber barons met them half way they would know that they had been in a fight. May 1 was set as the date when the demand would be made upon the lumbermen.

CORNER IN RADIUM BY NATION OPPOSED

Withdrawal of Lands Would Ruin Industry in Colorado, Is Declaration.

CANCER HOSPITAL IS PLAN

Twenty Institutions in United States May Be Established by Man Who Would Spend Millions to Produce Costly Cure.

WASHINGTON, Jan. 21.—Removal of all radium lands, as proposed by the Government, was bitterly opposed today before the House mines committee by Thomas B. Henahan, State Mining Commissioner of Colorado, who declared such action would ruin the radium mining industry. "All we want is to be let alone," he declared. "We are getting out the radium. If you tie up these lands, prospectors will not go into them. As it is, 99 out of 100 prospectors failed. What they need is encouragement, not discouragement, if this radium is to be mined."

Joseph M. Flannery, president of the Standard Chemical Company, of Pittsburgh, said his company had spent in three years \$650,000 to produce two grams of radium. The grams cost \$480,000 to produce, he estimated, and brought in \$240,000. In April, he said, the company would be producing one gram a month.

"There is enough radium ore in Colorado to supply the world five times over," said Flannery. "Only 200 grams are needed for the United States. I will undertake to deliver to the Government in five years from January 1, 1915, 600 grams of radium at a maximum price of \$80,000 a gram."

Flannery told the committee he had a friend "philanthropically inclined," whose name he declined to give, who was considering spending \$10,000,000 in building 20 radium hospitals in sections of the country where they would serve 65 per cent of the population. Each would be endowed with five grams of radium, not only for the treatment of cancer, but also for other diseases. He said he expected a decision soon by the Government as to whether to grant Mr. Flannery's offer. He believed no company could enter the Colorado field and produce 10 or 12 grams of radium at a cost of less than \$100,000 a gram. His own company, he said, now treated only 2 per cent ores, and the dumps at its Colorado mines were heaps of lower grade ore, which might be treated later by a concentrating plant now being installed there, probably as the step towards the removal of the company's whole establishment to Colorado.

One other company was about ready to put radium on the market, Mr. Flannery said, and several others were signed papers for the carrying out of the death sentence. He had not concluded when the committee adjourned until tomorrow.

RAILWAY FIGHTING TAXES

Idaho County Charged With Over-Estimating Value of 4000 Acres.

OROFINO, Idaho, Jan. 21.—(Special).—The Northern Pacific Railroad Company has brought suit in the District Court against Clearwater County to set the assessment and taxation of its lands in this county. Dave Campbell says it owns 4000 acres of land in this county, and that it is assessed at \$81,000, on which the taxes are \$1292.99. It filed charges that the property is valued at 25 per cent above its full cash value.

The company in its complaint also alleges all Shoshone lands are assessed at only 50 per cent of their full cash value.
