PUBLIC OPINION CHANGING

Federals to Be Fought With Guns and Ammunition They Themselves Carried Northward in

Campaign Against Foes,

CHIHUAHUM, Mex., Jan. 21 .- "It will soon be shown that the United States has not waited in vain in the belief that the Huerta government is slowly crumbling," General Francisco Villa

said today.
"With the northern division of the With the northern division of the Huerta army imprisoned in the United States and with General Jose Refugio Velasco's troops trembling at Torreon, the only point they now hold in the North, it will not be long before the usurper Huerta will be swept away by public opinion. At first it was only our arms that brought us victories, but now the people of Mexico are convinced of the seriousness of the revolution. Our strength is growing daily. We are finding that popular approval is as effective as builets. offective as bullets.

Fighting Still Necessary.

"But we are not forgetting that bullets are still necessary. The fight-ing will continue. Our success at Olinaga in pushing the federal division into the United States has had the effect of a tonic on our soldiers.
"I am convinced that the prespective battle near Torreon will knock another prop from under the tottering thronf Huerta. The federals are aware that of Hueria. The federals are aware that they must put up a vigorous fight there or their cause is lost. Once we go south of Torreon every city between us and Mexico City will fail. The people there have been kept in ignorance of the extent of the revolution and when they see our great numbers they will join us, for in Mexico, as elsewhere, success is with the successful. Porreon to Be Overwhelmed.

"The federals will not last long at Torroon. We are going to approach them with an army of 15,000, the largest revolutionary corps called to-sether in this revolution. We shall sether in this revolution. We shall bombard the federals with 30 cannon, 40 machine guns and hand grenades. It will be bitter for the federals to learn that they are being assaulted with weapons we captured from them at Olinaga and elsewhere. Huerta little thought when he sent his troops northward that he was sending ammunition

to us. "We already are concentrating or troops north of Torreon. I will lead the assault. General Torribio Ortega will be second in command. The attacking line will be reinforced by troops at Jiminez and other points along the railroad."

President White, of Mineworkers, Indorses What Other Delegates Say-Federal Mining Law to Be Demanded.

INDIANAPOLIS, Jan. 21.-Attacks on the American Federation of Labor copped out in the convention of the United Mineworkers of America in de-bate on the resolutions committee report today. The speeches against the Federation were started by Duncan Mc-Donald, an Illinois labor leader, in the course of the discussion of a resolution regarding industrial unionism.

Resolutions dealing with industrial unionism, many of them demanding a convention for April 1, 1914, to consider the subject, were submitted to the com-mittee The committee opposed the calling of the convention, and drafted a substitute resolution instructing the delegates to the American Federation of Labor to work for the passage of a resolution providing for industrial unionism rather than crafts unionism.
