Big Strike of Oil

The richest strike of crude petroleum the world has ever seen has been made near Calgary, in the Province of Alberts, Canada. The oil from Discovery well is so pure that it can be used in its crude form in automobiles, an levelops 25 per cent more power than egular gasoline. Fortunes will be nade in this new field in the near nture. Geologists from all over the world have made investigations and not one of them have turned the proposition down.

The Herron-Elder Gas and Oll Development Co., Ltd., controls \$289 acres of olf lands in this new district. Its first vell will be drilled on the same antiline as "Discovery." This company is hended by the ploneer of the fleid W. S. Herron, who located "Discovery," and by William Elder, who drilled same to the point where it stands as a better 1900 BARREL CALIFORNIA GUSHER, In order to carry on its extensive levelopment programme this company is placing a block of its treasury stock on the market at the par value of \$1.00 per share, fully paid and nonassessable. It has compiled with and is duly registered under the Oregon BLUE SKY law. Its holdings, plans. and officers will stand the fullest in-vestigation. The time for investors to get in is NOW before the big boom strikes. It is sure coming. This represents the big chance of the year for

a quick turn, and big profits. A good live sales organization to wanted to handle this choice offering in Oregon. A liberal contract will be given the parties who can show us results along lines that are in accord-ance with the spirit of the Blue Sky

Here is the big chance for the broken and salesman. Our stock will make you a reputation with the investing you a reputation with the investing public. For full information apply to
