Schubert, assistant Federal engineer, who has been prominently identified with the work since the inception of the project in 1905. Mr. Schubert made the final location following the preliminary activity and designed the work. "This Government canal," he said, "is designed to surmount the only parrier remaining, since the completion of the Cascades Canal 45 miles below, to continuous navigation of the Columia River from the Pacific Ocean to

Priest Rapids, Washington, a distance of 497 miles. The Cellio Canal is eight of 497 miles. The Celilo Canal is eight and one-half miles in length and has bottom width of 65 feet, with a navi-gable depth at low water of 8 feet. It is to have four locks and will overcome four natural obstructions. The canal will be in operation from 9 to 11 months of the year, depending upon the severity of the June freshets and upon the presence or lack of ice in the river."

Smallpox Situation at St. Johns Is Reported Well in Hand.

The St. Johns churches will be open for service next Sunday, according to Rev. W. Ingalls, of the St. Johns Methodist Church. Chief of Police Al-ien has reported to the City Council that the smallpox situation is well in

hand.
Although the City Council had ordered the schools closed, the directors refused to obey the command on the ground that the Council had no authority from the Board of Health, After closing for two or three days, Mr. Ingalls says, the moving-picture shows reopened on Saturday. Danger to Winter Crop Causes Stronger Market.

TONE AT END NERVOUS

Bulls Also Aided by European Acknowledgment That Supplies Are Becoming Inadequate-Sharp Advance in Corn Prices.

CHICAGO, Jan. 28.—Fear that a predicted cold wave might bring disaster to the Winter crop had a good deal to do today with a buige in the price of whest. The market closed nervous at an advance of he net. Corn showed a gain of 16.01c to 115c and oats a rise of he to 16 he. In provisions the outcome varied from 2 he decides to an upturn of 10 cents.

European acknowledgement that supplies were becoming insdequate tended further to aid the bulk ride in wheat.

Corn went sharply higher, influenced by the prospect of a decided colargement of the feeding demand and by talk of locust damage in Argentina. Country offerings were generally small and there were reports of additional blds for ocean shipment out of Boston.

Outs advanced with other grain. The buying was chiefly on the part of belated shorts.

Trade at the stockyards yesterday was of small volume. Most of the business was in the bog division, where the market substituted for the Government livestock figures and because of a break in the price of hogs. The property unloaded, however, found its way price established a few days ago, and poorer lots also brought good prices. A single by the slackness of the cash trade in means, sale was reported in the cattle market. The leading futures ranged as follows: WHEAT.
