500 IN DEMONSTRATION

Nation's Executive Plainly Depressed as He Tells Them He Cannot Urge Congressional Action Until Democratic Party Acts.

WASHINGTON, Feb. 2.—Women workers who toil in the mills, sweatshops and the factories of the Nation pleaded with President Wilson today for his assistance to the cause of woman suffrage.

As the delegation left the executive offices, discouraged and disappointed because they obtained no positive aid, they did not know that the President himself was depressed, perhaps even more than they, as he went to luncheon with his family.

Five hundred women—old and young—most of them plainly dressed, but earnest and determined, went to the White House, not only a committee of 25, with five speakers, gained audience with the President, the others waiting until the argument had ceased and Mr. Wilson asked to shake hands with all.

The blank sent Dr. Shaw to the county commissioners placed on her personal property owned by "him" or "it," and the suffrage leader argues that as she is neither a "him" nor an "it," she is therefore exempt.

VILLA PREPARES TO ATTACK TORREON

12,000 Troops Await Order to "Fire"—Garrison Now Is Surrounded.

RATIONS ARE DISPATCHED

Commander Leaves for Chihuahua Where, After Several Days, He Plans to Order Army to March on Federals.

JUAREZ, Mexico, Feb. 2.—With his army of 12,000 rebels already advanced to points north of Torreon and awaiting word to open the attack on the federal garrison in that city, General Francisco Villa leaves tonight or early tomorrow for Chihuahua, whence, after a stay of several days, he will march south to direct the opening of the battle.

How long Villa will remain in Chihuahua will depend upon the rapidly with which trainloads of ammunition and rations can be dispatched southward. The rebel leader probably will not appear on the field before Torreon until everything is ready for the opening of the attack.

Rebels Surround City.

A courier who arrived from Torreon said the rebel advance guards already had surrounded the city, but that General Refugio Velasco's federal soldiers had not opened fire. The courier said the rebels were adopting their usual methods of surrounding the city long before they expected to fire on it. The federal soldiers in Torreon, it was said, were kept in ignorance of recent rebel victories and to sustain their courage they were told that General Mercado won a signal victory at Ojinaga.

Villa Is Confident.

"I don't think there is any doubt that we will capture Torreon," General Villa said today, "but I think it will be one of the severest battles of the revolution. The Huertistas are desperate. They are evidently making every available man at Torreon, I am not making any predictions as to when the battle will begin or end."

Mexican federal sympathizers protested to the United States Army officials in El Paso that Raoul Madero, brother of the late president and an officer on Villa's staff, was permitted to go to the American side. Madero has been seen daily in the hotels and at social affairs on the American side. The Mexicans complained this was a violation of the neutrality laws and was not the same treatment as was accorded General Mercado and other federal officers who are held prisoners at Fort Bliss because they crossed the river. It was said a protest would be made to Washington.

General Carranza, according to a report, soon will start from Culiacan, Sinaloa, for Juarez and then to El Paso by automobile from Naco to Casas Grandes or Guzman on the Mexican Northwestern, and thence by train.

FEDERALS MARSHAL TROOPS

Soldiers Being Rushed to Torreon to Aid in Defense.

MEXICO CITY, Feb. 2.—Federal troops are being rushed to Torreon to assist in its defense. General Jose Refugio Velasco's command there is said to number 5000. General Blanquet, the war minister, is authority for the statement that the federal force sent southward has checked the advance of the rebels from Durango.

The force under General Orozco, which has been sent north, is expected to reach the city in a few days. The rebel movement in the State of Oaxaca is becoming more active and the fifth regiment was dispatched from here tonight to that section of the country.

Jose Requena and Pedro Villar, who recently were arrested in connection with an alleged plot against the government, and later released, will leave Mexico on Thursday.

JUGGLING IS NOW CHARGED

(Continued From First Page.)

13 and the American has only seven. This result is brought about by including in the list of German dreadnoughts four ships which are armed with 11-inch guns, while all of the dreadnoughts in the American Navy are armed with 12 or 14-inch guns. The result was further brought about in the yearbook by taking out of the dreadnought class the Michigan and the South Carolina, each of which has a tonnage of 16,000 tons, and each of which is armed with eight 12-inch guns. If the Michigan and the South Carolina had been put in the list where they belong, and where they were placed in the 1912 Navy yearbook and previous to that time, and the four German ships which have only 11-inch guns were taken out of the dreadnought type and put in the battleship class, where they belong, then the dreadnoughts in both of the navies would be the same in number—nine.

Tonnage Is Compared.

In regard to the tonnage of the dreadnoughts of the two navies it was developed that the lowest tonnage in any German dreadnought was 22,345 tons and the largest 24,200 while in the American Navy the lowest tonnage is 16,000 and the highest is 27,000 tons.

In the American Navy it appeared that two had an armament each of eight 12-inch guns, four of ten 12-inch guns, two of 12 12-inch guns and two of ten 14-inch guns, showing the great superiority of the American dreadnoughts in the caliber and power of their guns.

Comparing the two navies with reference to dreadnoughts now building it appeared that the smallest dreadnought now being built in the German navy is 24,775 tons and the smallest building in the American Navy is 27,000 tons; that the largest dreadnought building in the German navy have a tonnage of 28,000, and the largest building in the American Navy have a tonnage of 31,400 or an excess of 3400 tons over the largest German ships now building.

Comparing the dreadnoughts now building further, with reference to the armament, it appeared that the four smallest German dreadnoughts now building have each ten 12-inch guns and that the two largest building each eleven 12-inch guns. In all the dreadnoughts now building in the American Navy have 14-inch guns, three of them being supplied with ten each and two of them with 12 each.

It was further developed in comparing the American Navy with the Japanese navy that the American Navy has 29 battleships and the Japanese navy only 19, including all those in both navies that are built and building.

2 BRIBE-TAKERS GUILTY

MESSERS. CASSIDY AND WALTER CONVICTED IN NEW YORK.

Politicians Hear Verdict Without Show of Emotion—Trial Result of Race of William Willett, Jr.

NEW YORK, Feb. 2.—Joseph Cassidy, until recently Democratic leader of Queens County, and Louis T. Walter, Jr., also a politician, were found guilty of accepting a bribe by a jury in the Supreme Court late tonight. It was charged that the bribe was given in return for a judicial nomination given William Willett, Jr., member of Congress in 1911. The jury was out 53 minutes.

Cassidy and Walter heard the verdict calmly and gave their pedigrees to the clerk without even a tremor in their voices. Judge Jaycox announced that sentence would be imposed Wednesday. Willett, who was convicted nine days ago of paying money for his nomination, will be sentenced tomorrow.

Cassidy was the final witness for the defense. He made a general denial of the charge. Walter did not take the stand, his counsel insisting that he was entitled to immunity because of his appearance as a witness for the prosecution in Willett's trial.

NEW YORK, Feb. 2.—In 1913, according to the report of the National Highway Protective Society, made public today, 362 persons were killed by automobiles in New York City. This is an increase of 81 over 1912.

A Search of the Paris Shops Would Reveal No Smarter Gathering of Spring Wash Fabrics Than will our fabric section where the latest weaves of the day are on display. There is certainly a most unusual departure this year from the weaves of former seasons—new and original daring designs that have taken their inspiration from the Far East—delicate and sheer crepe fabrics that are almost as soft as a piece of silk chiffon—loosely woven ratines in mixed colorings that are as adaptable as fine cashmere—plain white fabrics in various weaves. Below we mention five different new wash fabrics. Mixed Paris Ratine which came direct from our Paris office, is 40 inches wide, made of the finest cotton yarn, and put through a process which makes the fabric uncrushable, completely disproving the heretofore impression that all cotton materials wrinkle. In mixed color effects, with a lustrous finish. 98c the yard. Sheer White French Crepe embroidered tri-colored squares, thus producing a very attractive and original effect. Price \$3.75 the yard.
