PORTLAND, SATURDAY, FEB. 7, 1914.

RADIUM AND CANCER.

Congressman Robert G. Bremner's unhappy death gives timely warning to the thousands who have put unwarranted faith in the power of radium to cure cancer.

Dr. Howard Kelly, of Baltimore, who has interested himself in the use of radium for cancer, has not spared his warnings to the credulous.

The American Society for the Control of Cancer has undertaken a campaign of education to diminish the ravages of this frightful disease.

SYNDICALISM BREAKS DOWN.

Syndicalism has aspired to labor unionism as it stood under the most favorable conditions in New Zealand, and has failed.

JAPANESE AND NEGROES.

What room is there for comparison between the negroes, who are only half a century removed from slavery, and the Japanese, who only ten years ago were a despised race?

How distressing!

A woman Prosecuting Attorney in Los Angeles has been replaced by a man.

Have We Got Park Blocks?

To the Editor:—(1) Have the park blocks running between and parallel with Park street and West Park street been donated to the city, and if so, by whom?

Lincoln as He Was.

H. M. Irwin, who reported Lincoln's Gettysburg address, gives an interesting study of him.

thetic strike throughout the country, which was general, especially at Auckland. For two or three days industry was paralyzed, but again the syndicalists were supplanted by new unions organized under the old plan, and their campaign failed.

CO-OPERATION AMONG LUMBERMEN.

So much has been said about the part of the work done by the lumber associations which the Government alleges to be in violation of the anti-trust law that the really valuable service which these associations render to the lumber industry and consequently to the whole community on the Pacific Coast is apt to be overlooked.

FACING BOTH WAYS.

When a delegation of women who work in factories asked President Wilson to assist the cause of woman suffrage, he "regretfully told them," says an Associated Press dispatch, "he did not urge anything on Congress which had not received the organic consideration of the Democratic party."

CRITICISM AND DR. AKED.

The not altogether agreeable mention which Dr. Aked, of San Francisco, is receiving in the papers makes it worth while perhaps to give some account of his career and opinions.

known. The earliest assignable date for his gospel is 70 A. D., but the verse referring to the doctrine of the Trinity probably fixes it a good deal later, unless it was interpolated.

Half a Century Ago

From The Oregonian of February 5, 1864. J. R. McBride, of Oregon, has presented a resolution in Congress instructing the postoffice committee to report a bill providing for a daily stage line from Fort Bridger (U. T.) via Boise River, Idaho Territory, to Astoria, Clatsop County, Oregon.

Base Line Road Plans.

GRESHAM, Or., Feb. 6.—(To the Editor:—) We are urged to come in from the Base Line road with our petitions for the paving of it, but we would like to know (1) what it is to cost; (2) will the property have to stand half the cost of maintaining it; (3) will the property be assessed a flat rate a half mile on each side of the road, regardless of improvements; (4) will the road be cancelled where it is not wanted in one unit, or will the platted district be in a unit by itself?

PROPERTY OWNER.

It is estimated by officials in charge of the road work that the hard-surfacing of the roads will cost between \$10,000 and \$12,000 a mile.
