

JOCKEY DILLON IS PINKING FOR WIFEY

Word From Uncle Sam Awaited So Miss Lloyd's Husband May Enter Here.

'PEOPLE ARE TOO CRITICAL'

English Girl, Now on Vaudeville Circuit in States, Works in Seattle, While 'Manager' Is Compelled to Stay in Vancouver.

VANCOUVER, B. C., Feb. 12.—(Special.)—Bernard Dillon, the jockey and husband of Marie Lloyd, continues to reside in Vancouver, parted from his good wife, who is now fulfilling her engagements at Seattle. Yet he hopes that they will not forever be thus parted, for he is awaiting permission from Washington in order that he may enter the States also.

Dillon does not share all the views of Marie on Vancouver, though he believes that some people here are much too critical. He says Marie has many friends in the city who are indignant at the treatment meted out to her by some officials of the city and some of the newspapers.

For himself, Dillon says that he cannot understand his exclusion from the States, seeing that he was admitted only a few months ago, and things are no worse now than then. In point of fact, Dillon is now the legal husband of the woman and that is put up as a contention there is no real legal ground for his exclusion from the States, as he has no intention of becoming a resident there, and his only reason for going there is to act as manager for Miss Lloyd during her tour of a number of cities on the Orpheum circuit, which lasts only for a couple of months more.

Dillon has no expectation that he will fall in his application and expects to leave for the south within the next few days. He will return to the "old country" in May, but will not go back on the flat racing track, being too heavy for that work now. He will, however, take up steeple-chasing for a time.

DOG MENACES CHILDREN

SUPPOSEDLY MAD ANIMAL KILLED AT BAKER SCHOOL.

Sixth Grade Dies at Trimble Ranch at Hereford—Slaughter of Unmuzzled Will Begin Monday.

BAKER, Or., Feb. 12.—(Special.)—A dog said to be infected with rabies caused a lot of excitement during recess at the Central Public School today. The dog, a stray mongrel, ran into the yard and the children noticed that it was acting strangely and began throwing stones at it. The dog, instead of running away, ran at the children and a teacher induced the children to cut their recess period short and come indoors. Patrolman Hanna was sent for and shot the dog.

Mayor Palmer today appointed all the members of the police as assistants to the poundmaster and also announced that several others would be employed as special deputies to pick up and shoot all dogs running at large without muzzles after Monday.

Word came from Hereford tonight that another dog died there at the James Trimble ranch. The rancher had been burning the animal and keeping it chained beside the fire. It bit no one and died in convulsions this morning, being the sixth dog to die within two weeks on the Trimble ranches.

Dr. W. H. Lytle, State Veterinarian, arrived to consult with Dr. F. Notz regarding the rabies situation in Baker County. He said that an order for muzzling all dogs in the county might be given. Dr. Lytle advised burning the carcasses of all animals which might die under suspicious circumstances.

Dr. Lytle regards the situation in Baker County as serious, but believes that with proper care rabies may be stamped out within the course of a few months. He attributes the prevalence of the disease to the great numbers of rabbits on the ranges, which have increased and furnished food for the coyotes.

OLD TRICK WINS VICTIMS

Coast Cities Suffer by Work of 'Murphy & Son' in Centralia.

CENTRALIA, Wash., Feb. 12.—(Special.)—Several wholesale houses of Portland, Tacoma and Seattle have been victimized by an old trick, but one that was never before worked in this section. Last month a firm named Murphy & Son, purporting to be opening up in business here, placed large orders with these houses.

The orders were delivered at the local freighthouse and the merchandise sold at a discount, after which Murphy & Son disappeared. The fraud was discovered yesterday when the firms in question endeavored to collect on the goods shipped. Government officers are already on the trail of the men on a charge of using the mails for fraudulent purposes.
