Commissioner-General of Immigration Expected to Become Candidate for Governor of California on Exclusion Issue.

WASHINGTON, Feb. 16 .- (Special)-That Commissioner-General of Immigration Caminetti is preparing to re-

sign and become a candidate for the Democratic nomination for Governor of California is believed here.

Though Mr. Caminetti, when interviewed today on the report that he would soon quit the Government service, said "The reports are news to me," he did not say whether he would or he did not say whether he would or would not soon resign as Commis-sioner-General of Immigration. It is announced he will desert the Wilson Administration in view of recent de-velopments in the situation surround-ing the pending immigration bill and the Asiatic problem of the Pacific Coast.

Coast.

Gossip was busy today at the Capitol concerning Mr. Caminetti's plans and the tense situation that has developed between the Californian and Secretary of State Bryan over Mr. Caminetti's bold disregard of the Bryan effort to smother the Raker Asiatic exclusion bill in the immigration committee in the interest of peace with Japan. as Mr. Bryan openly told the committee, it became known today, at the recent secret hearings on the immigration bill.

Mr. Caminetti appeared twice before the committee and urged, in effect, that all Asiatics be kept out of this coun-try. Mr. Bryan had previously asked the committee to sidetrack Asiatic ex-

Only one inference can be drawn from the situation, declared members of Congress today, and that is that Mr. Caminetti is not in sympathy with the immigration views of Mr. Bryan and that he intends to soon sever his connection with the Government.

Coincident with these reports it was said that Mr. Caminetti would run for Democratic nomination for Government and a platform principally of Asiatic exclusion. It is said this is the real reason why he has opposed Mr. Bryan on the Asiatic question.

There are reports in circulation that

There are reports in circulation that Mr. Bryan is greatly angered with Mr. Caminetti's virtual defiance of the Wilson policies and that the Californian may be removed from office, causing a parallel case with the big Pinchot row in the Taft Administration. Mr. Caminetti's friends say this would give an immense impetus to his gubernatorial boom, as he could then win sympathy from the California voters as a "martyr" to Asiatic aggression.

House Committee to Disregard **Pending Administration** Bills, Perhaps.

NEW MEASURE IS TALKED

Further Complications in Plans Now Mapped Out Loom and President May Be Appealed To in Hope of Harmony.

WASHINGTON, Feb. 16 .- Determination of the House interstate and foreign commerce committee today to disregard the interstate trade commission bill pending in both branches of Con-gress and to frame a new measure may result in further complications in the Administration anti-trust legislative

Thus far the Senate and House interstate commerce committees have not been co-operating in consideration of the trade commission proposal, the Senate committee having under considcration for amendment the original trade commission bill drafted by the House judiciary sub-committee. Senator Newlands and his colleagues have conferred with the President on that measure and are engaged in perfecting it. Jurisdiction in the House as to the trade commission between the trade commission having been transferred from the judiciary to the interstate commerce committee, Representative Adamson, chairman, has appointed a sub-committee to draft another rill on the same subject. Thus the House eventually will have under consideration one measure, while the Senators are at work on another, un-less influences are brought to hear to have the committees co-operate in their deliberations before the revised asures are reported.

Wilson May Be Appenled to. President Wilson may be appealed to straighten out conditions in the interest of harmony and to expedite a conclusion. The President is said to believe that the country expects and is awaiting early action on trust regulation and to feel that all differences relating to the powers of the proposed trade commission can be adjusted without friction. ut friction.
