"Most Remarkable!"

Yes it is remarkable. It is a matter of surprise in more than one well-appointed household that the best efforts of a skillful chef can produce nothing more acceptable than Campbell's Tomato Soup.

But when you consider the choice materials of which it is made, and the fact that the Campbell methods and formula were originated by expert soupmakers who have no superior in their line, this remarkable result is hardly to be wondered at.

Your money back if not satisfied.
