

YOU DON'T HAVE TO KNOW HOW TO SING TO ENJOY "HEART SONGS"

The words are as full of heart-thrills as the music. Only when the words match the music perfectly—as they do in "Heart Songs"—do you have the greatest songs in the world. That is why the songs in this book will last forever! That is why these songs, sung fifty years ago, are of imperishable memory.

Today is The Oregonian's First Distribution Day

"Tenting On the Old Camp Ground"—the song illustrated today—a famous song of the olden time—sang often during the dark days of the Civil War by the saddened hearts at home as they thought of their soldier boy at the front! How they longed for a sound of the dear, familiar voice; for a sight of the beloved form, and what a relief it was to pour out their soul into these words of sympathy—this music so tender—that gave complete utterance to their hidden feelings!

The men around the camp-fires at night with only the distant stars looking on—with the leaves of the trees rustling in sympathy—with the rivulet murmuring in soft accord—they sang it, too—this wonderful song! What memories of home—of father, mother, sister, wife or sweetheart—it brought up! Somehow, its melody soothed them—its words brought rest to their weary bodies—and their sleep was sweeter and sounder for this song!

We're Tenting To-Night WALTER KITZERIDGE

PREMIER IS BESET

German Chancellor Now Faces Fight With Right Wing.

POSITION SEEMS SHAKEN

Dr. Von Bethmann-Hollweg May Be Put to Severe Test in Resisting Campaign Against Him by Conservatives.

BERLIN, March 5.—(Special.)—After having ended his conflict with the Left parties fairly successfully, Dr. von Bethmann-Hollweg, the Imperial Chancellor, has got into a conflict with the Right, which, despite its weakness in numbers, is a formidable enemy. The Right is the conservative party, with its anti-Semitic appendage, and it is backed by Pan-Germans, militarists and all persons with ideas as to the necessity of what is considered unflinching rule. The present conflict, which undoubtedly has shaken the Chancellor's position, is the direct fruit of the Zabern affair. The complaint is that the Chancellor has made a surrender to anti-militarism, anti-nationalism, Democrats and Francophile Alsacians, and that through fear of the Left he has forsaken the Prussian bureaucratic-military principles, which are the "rocher de bronze" of the empire. This discovery was made when it became known that Lieutenant von Forstner was to be put on trial. At first the Right was satisfied with the Chancellor's conduct. It had been on bad terms with him before Zabern; but when he backed up the uncompromising defense of the Zabern officers, made in the Reichstag by the War Minister, the breach seemed to be healed. Later the Chancellor explained away his first militarist speech on the Zabern question. This placated the Left, but it angered the Right. The putting of Forstner on trial increased the anger.

Position Is Shaken. Herr von Bethmann-Hollweg's position is shaken. He will find it far easier to resist a Democratic Reichstag's claim to dismiss him, on a nonconfidential vote, than to resist a Conservative campaign which is ostensibly intended to protect the Kaiser's undiminished authority, the army and the dominant classes. The notable feature about this Con-

servative campaign against the Chancellor is that it has a revolutionary character. This is apparently a sign of the times. In several Continental countries, as in England, extreme Conservatives have no way of preventing progressive measures except by revolutionary or semirevolutionary threats. These revolutionary threats are disguised in the garb of intense loyalty to the Sovereign and to the "real" constitution. In Germany there is permanently a Conservative, revolutionary campaign against the Democratic Reichstag, and against universal suffrage.

Conservatives Want Coup. A coup d'etat is what the Conservative revolutionaries want. The same Conservative Revolutionism flourishes in Russia in the shape of "Black Hundreds," with their demands for the abolition of the Duma, and for restoration of the autocracy. The threat of the Revolutionaries both here and in Russia is that if their advice is not taken the patience of the "loyal" classes will be strained to breaking. If the Sovereign does not do what they want, the loyal citizens will be so disgusted that the Sovereign's position will not be safe, and the army, the Sovereign's only bulwark, will strike. This in Russia leads the Black Hundreds to attack even very reactionary Ministers on the ground that they are not reactionary enough. In Germany during the past fortnight this is the Conservative note.

Certain newspapers are responsible for the statement that the army will strike, but in reality there is no evidence of ferment in the army. The newspaper agitation about an army strike is part of the revolutionary tactics, which are intended to overthrow the Chancellor and re-establish what are called "healthy Prussian ideals."

SETTLERS CAMPAIGN IS ON

Australia Will Attempt to Attract European Emigrants.

SYDNEY, N. S. W., March 5.—(Special.)—It is announced that agents have been appointed by the Joint New South Wales and Victoria migration department at Turin, Milan and Amsterdam, and an active propaganda is to be carried on in Northern Italy, Holland, Switzerland, and other countries, with a view to attracting settlers to Australia. While it is generally recognized that it is desirable to stimulate the immigration of suitable settlers from Northern Europe, there is a definite feeling here that, until the resources of the United Kingdom are exhausted, the money and energies of the government migration departments should not be expended in foreign countries. There is abundant evidence that the government can secure a larger number of British emigrants if it resumes and extends the system of assisted passages, and this, it is hoped, Mr. Holman's ministry will decide to do.

ITALY HAS IDLE HORDE

THOUSANDS OF UNEMPLOYED ARE RAPIDLY GAINING NUMBERS.

Demonstrations Are Made Against High Costs of Food and Rioting Follows Advanced Rents.

MILAN, March 5.—(Special.)—The bitter cry of legions of unemployed is heard in every part of Italy, more in the industrial north than in the neglected southern provinces. According to figures just published by Signor Mazzoni, Parliamentary Commissioner on Unemployment, the Tripoli war is one of the main causes aggravating the crisis. Since 1912 unemployment in Pavia has increased 15 to 25 per cent, at Suzzara from 25 to 50 per cent, at Reggio Emilia from 50 to 80 per cent, at Ravenna from 80 to 82 per cent.

At San Severo the average has bounded up from 30 to 60 per cent in the space of a few months, while at Piacenza, out of 7000 organized workmen 2000 are idle. At the present moment 50 per cent of the working classes are workless at Rovigo, 58 per cent at Bologna, 60 per cent at Forli and 70 per cent at Foggia and Ferrara. Frightful misery reigns at Apulia, where clamorous demonstrations against food taxes are of daily occurrence. At Bari alone 100,000 laborers have nothing to do. Fierce rioting has taken place in Naples as a protest against the heavy rise in house rents, which in many cases amounts to 25 per cent. Distress almost of an unparalleled kind is rampant in Sardinia, following eight months' drought. Fresh milk in some places costs 15 cents a quart, and at Cagliari milk is unobtainable under 12 cents a pint. At Pallano, near Rome, 5000 peasants, who marched to demonstrate under the windows of the residence of two big brother landowners named Tucci, crying, "Give us bread! Give us work!" were fired on by these landed proprietors from the upper windows, and 30 of their number were wounded.

DISEASE DRAWS PENSION

England "Buys Off" Lodging-House Keeper With Enteric Fever.

LONDON, March 5.—A peculiar bargain is being struck by some local governments in England for the prevention of the spread of disease. The Manchester city government has just agreed to grant a pension to a woman carrier of enteric germs in return for which she has given her promise to give up the keeping of a lodging-house. According to reports of physicians

GAUZE-CLAD HEROINE WANTS JOB OF CONDEMNING MOVIES.

Her Stage Costume Consists Mostly of Heads and Powder, So She Is Up on Moral and Immoral.

CHICAGO, March 3.—Miss Julia Carle appears 14 times a week before about 1500 persons each time, wearing 42 well-matched pearls, one cent's worth of Java rice powder (natural color) and two and one-eighth yards of pink chiffon. That's why she has applied to Major M. L. C. Funkhouser, Second Deputy General Superintendent of Police, to be made the Chicago censor of motion pictures and of other theatrical productions. Her chief qualification, Miss Carle says, is the fact she will know at a glance whether the film scenario or the plot of the play was designed to be evil or to come as close to the border line of decency as possible to escape the police, or whether it represents the effort of a producer to teach a great moral lesson by means of bluntness or is designed to present only beauty of motion, of form or art. BAGS OF GOLD ARE FOUND

Ranchers Uncover Deposits Left by Men Killed by Indians.

JETMORE, Kan., March 2.—Forty-nine years ago seven Indians left the gold fields of Colorado after having "made their pile." They started across the plains of Western Kansas. Not one lived to enjoy his gain. A band of Indians slew six. The seventh man escaped to Pawnee Rock, told his story to other Indian gold seekers and died. He and his companions hid their riches under big rocks when they saw defeat was certain. Ralph Chesney, living near Jetmore, recently found \$6800 in gold bullion on his ranch. A deposit of \$30,000 more was uncovered and scores are seeking for the remainder of the \$60,000 supposed to have been hidden in the vicinity. Edward H. Parvin, a rancher, found the \$30,000, but it is considered doubtful if he can retain the gold, as it was found on another rancher's land.

TRAIN BULLETINS REQUIRED BY LAW

SPRINGFIELD, Ill., March 5.—The state public utilities commission today adopted an order requiring all steam roads in Illinois, after May 1, to maintain bulletin boards announcing the time of arrivals and departures of every passenger train. Passenger agents will be required to post the bulletin at least 30 minutes before each train is due.

A-K TABLETS FOR VARIOUS FORMS OF HEADACHE

"It is necessary in order to treat headaches properly to understand the causes which produce the affection," says Dr. J. W. Ray of Houston, Ala. "Continuing he says: 'Physicians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose Anti-kamnia Tablets are found a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuralgia and particularly the headaches of women.'"

When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than 'A-cidol' and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few Anti-kamnia Tablets, so as to have them ready for instant use. These tablets are prompt in action, and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets. Anti-kamnia Tablets can be obtained at all druggists and so can A-K Salve, so well known for Eczema and skin diseases.
