# RANCHER SHOT BY LAWYER AT BAKER

Bullet Fired During Scuffle After Heated Argument in Saloon Over Question of Bond for Son of Wounded Grant County Man.

BAKER, Or., March 5 .- (Special.)-Charles Hyde, ex-District Attorney of Baker, Union and Grant counties, one of the best-known attorneys of Baker and a member of one of the most prominent families of this city, was arrested today on a charge of assault with a deadly weapon. The arrest

entered the hand and came out at the back of the forearm, midway between the wrist and the elbow.

Argument Follows Meeting.

Mr. Hyde was passing the Club sa-loon on Main street and saw Mr. Wil-liams sitting inside at the proprietor's desk. He entered and began a dis-cussion about a bond for Mr. Williams' son, Peal Van Cleave and others, who were arrested in a recent raid on a

Finally the talk became an argu-

ment and hot words were exchanged and the lie was passed. The two men then walked to the back of the saloon, where Mr. Hyde, it is said, bitterly arraigned Mr. Williams.

Mr. Williams then struck Mr. Hyde with his open hand on the face, Mr. Hyde says, and knocked him across the room, Mr. Hyde had a double-bar-reled .45-caliber old-fashioned der-

ringer in his pocket, and he drew this, he says, to defend himself, intending to club his opponent with it. Somehow in the scuffle, Mr. Hyde says—and his account agrees with that of others who saw the encounter—Mr. Williams pressed the gun back over Mr. Hyde's shoulder and it unexpect-edly exploded.

Reason for Arming Told.

Mr. Hyde says he never carries a revolver, but he declares that yesterday he heard of a threat being made against him and, he says, he then armed himself.

"I never thought of the gun until I was struck in the face," said Mr. Hyde today. "Then I felt it there and pulled ft out to club off Mr. Williams, I am suff I never pulled the trigger and believe Mr. Williams must have done so himself when he took hold of so himself when he took hold of

ASSOCIATIONS TO BE FORMED IN COOS BAY AND RIVER SECTIONS.

Arranges For Meeting of Ranchers at Marshfield Saturday.

MARSHFIELD, Or., March 5 .- (Spe grew out of an altercation with cial.)-Two cow testing associations Thomas Williams, a prominent rancher and horseman of Grant County, in a saloon here last night, in which Mr. Williams was shot in the hand by a gun carried by Attorney Hyde.

Mr. Williams swore out a complaint after an investigation by Sheriff Rand after an investigation by Sheriff Rand and County in a carried by Attorney Hyde.

J. L. Smith, resident agriculturist,

after an investigation by Sheriff Rand and District Attorney Godwin, and Mr. Hyde was arrested and released on his own recognizance to appear in Justice Court tomorrow. The attorney gave himself up to the authorities voluntarily on hearing that a complaint had been made.

Mr. Williams' injury is not serious, although he is at a local hospital, considerably weakened by loss of blood. The shot from the 45-caliber revolver entered the hand and came out at the

Among the benefits to be derived from the associations are: Detecting which cows are unprofitable, learning the best feed for cows, keeping account of the cows and their progeny so the rancher has reliable information on what calves are likely to prove valuable milkers, making information available to ranchers when any animals about the territory are offered for sale Mr. Smith says the system will, by culling the herds, make a general demand for better bred cattle and, fol-lowing this, the ranchers will be able to obtain better production and in-creased prices for their butter and

The testing associations, Mr. Smith holds, will create a greater interest in dairying and will aid the ranchers co-operating for the improvement the business in the sections affected.

It is the expectation of Mr. Smith to form two or three associations in the Coquille Valley as soon as the Coos Bay bodies are working. It is probable one will be organized as well in the Tenmile country, where there are nearly 1000 cows among the dairymen. Every herd will be tested thoroughly every month. The expert will visit herds, there being about 25 ranchers to each association, thus giving the of-ficial tester one day to each herd.
