**MILITIA IS DEFENDED**

CONDUCT IN MICHIGAN COPPER ZONE DECLARED GOOD.

Strikebreakers Testify They Went to Work Voluntarily and Kept Jobs Because They Liked Them.

HOUGHTON, Mich., March 5.—The Michigan National Guard presented witnesses today before the Congressional committee investigating the Michigan copper strike to prove that the conduct of the militiamen stationed in the strike zone had been good.

Workmen imported by the mining companies to take the places of strikers told the committee they came here of their own volition and remained because they liked the work.

Eric Bamberg, brought from New York, testified strikers had offered him \$10 and a free trip to Chicago to quit work. He said he replied he would go for \$25.

A strikebreaker testified that armed guards were necessary to protect the imported men. He also said he made a night trip to Calumet with two companions and no attempt was made to prevent them from going. Stephen Anderson gave similar testimony.

**FIRST PRIZE**

"The Cake Committee"

This cake, made by the Cottolene recipe, using **only** Cottolene for shortening, won the **first prize** three separate times at the Texas State Fair. Cottolene recipes are all winners, at home or elsewhere.

**Cottolene**

Remember, however, that you do not need to use as much Cottolene as you would of butter or lard. Always use one-third less when cooking with Cottolene, for Cottolene goes much farther.

You save money, any way you figure, if you cook with Cottolene, and your food is more wholesome and more digestible. If you will give Cottolene one fair trial, you will continue to use it for every-thing except on the table.

This is the recipe for the prize-winning cake, by Mrs. W. J. Stone, Dallas, Texas:

Three-fourths cup of Cottolene, 2 cups sugar, 3 cups flour, 1 cup milk, 2 teaspoons baking powder, 6 whites of eggs beaten to stiff froth, 2 teaspoons lemon extract. Cream 3-4 cup of Cottolene with sugar, add milk and flour alternately until well mixed, then add whites of eggs and beat until stiff. Grease tin and flour them; light the gas just as you place cakes in stove. Put all three layers in and cook at once. Let the cake cool an hour or so before icing.

FILLING—Two cups sugar and just enough water to moisten, cook until it threads from the spoon. Beat whites of 2 eggs to stiff froth, pour the boiling syrup over the whites and beat constantly, then add 1 teaspoonful of lemon extract and 1-2 package shredded cocoanut, and ice your cake. If icing begins to get too stiff to ice add about 2 tablespoons of boiling water and beat well.

Give yourself the satisfaction of knowing what Cottolene can do. Order a pail of it from your grocer; also send us for the interesting FREE Cook Book, HOME HELPS, written by five leading authorities. Write for it today
