The eggs now coming are from Norther China and, according to the United States Consuls in that country, are of better qual-ity than the Southern China eggs which were imported earlier in the year. Official tests mude by the City Chemist here have

satisfied the importers on this point.

The quantity of Chinese eggs brought t the Pacific Coast will probably not be large enough to have any material effect on th storage egg market. The Pacific Coast annually consumes about 500 cars of East-ern storage eggs and the importations will therefore, simply result in the Coast using a smaller quantity of Eastern eggs.

Price conditions will, as formerly, be governed by the size of the lay in the East-ern and Middle Western states. It is too early in the season to determine this question now. Should production in America be heavy, the speculators who are inventing ney in Chinese eggs will not make The local egg market was steady restor

Clean-Up Spot Lots Bring Famine Prices

BOSTON. March 13.—The Commercial Bulletin tomorrow will say of the wood market:

With the exception of fair sales by a few houses of foreign crossbreds and merino woofs, the market has been dull and spotty. Some clean-up lots of domestic woods have been sold at famine rates.

In the West, contracts have been placed siteadily and prices are fully as strong as compared with a week age.

On the other hand, a further substantial reduction occurred in the number of idle freight cars, the gain in the untilled formage of the principal iron and steel companies in the last month surpussed expectations, and there was a decrease in surplus stocks of copper.

Current reports from leading centers, however, are lacking in uniformity and indicate that the effects of the recent storms have not entirely disappeared.

Trade is still on the quiet side. For this, the Winter's varying weather conditions, conservations born of recent hand-to-mouth buying, the late Easter season and uncertainty as to further business legislation are all held varyingly responsible. PATHOLOGIST TO SUCCEED PRO-FESSOR O'GARA SOUGHT.

Medford Orchardists Name Committee to Select Officer-F. R. Drake to Carry on Weather Bureau Work.

MEDFORD, Or., March 13,- (Special.) -Efforts to persuade Professor P J. O'Gara, county pathologist, to remain having failed, local orehardists have appointed a committee consisting of Bert Anderson, S. V. Beckwith, F. H. Madden, Dr. W. H. Hart and A. C. Allen to make arrangements to select his successor.

An offer has been received from

Oregon Agricultural College, whereby that institution would pay half the expenses of such an officer, if permitted to make use of the information pro-cured by him. The county and local orchardists would be permitted to make the choice and have entire super-

vision over the office. This proposi-tion probably will be accepted.

E. A. Beals, district forecaster for the Northwest, a close personal friend of Professor O'Gara, arrived here to-day and announced that his assistant, E. B. Drake would be appointed to R. Drake, would be appointed carry on the weather bureau and as-sist in the frost righting, a work which gave Professor O'Gara a National reputation.
It is probable that the new patholog

ist also will be an agricultural expert so that the office may be of service both to the fruit man and the farmer.
