

CALIFORNIA 'WETS' COUNT ON VICTORY

Radical Prohibitionists Refuse to Compromise With Wine Interests.

HOT CAMPAIGN FORECAST

Estimate of Half Billion as Damage Done to One of State's Leading Interests Believed to Have Turned Scale.

SAN FRANCISCO, March 15.—(Special.)—That the initiative law which goes on the ballot in November, when voters of California will cast their ballots for and against state-wide prohibition, will be defeated is the estimate of the conservative business men who have reviewed the situation.

Wine Included in Ban. The suggested initiative measure not only would prohibit the sale of whisky within the State of California, but as well would prohibit the manufacture of wines or other liquors. There is where it cuts the deepest and that is why it is believed that it cannot carry.

Half Billion Damage Feared. The state-wide prohibition movement was organized about two years ago in Los Angeles, in which there are 10,000 members. The petition to abolish the manufacture of wines as well as the sale of liquor was circulated a year ago, and in the last 12 months there were secured about 111,000 signatures, or nearly three times the requisite number.

Argument Thought Effective. Their fight is not made against the sale of liquor, but on the injury that would be done the state. They have made arguments that apparently have convinced many, and it is by reason of their attitude that the prophets expect the bill to be defeated.

FATHER NOT DECEIVED

Wealthy Mr. Arnold, in New York, Says He Has Received 50 Letters in Month Promising Clues and Seeking Reward.

LOS ANGELES, March 15.—The hallucinations of a young woman, Emily Splawn O'Dell, who was only recently freed of a bad check charge on account of alleged irrationality, was responsible for the latest "find" of the missing Dorothy Arnold, of New York. Her husband, Charles O'Dell, identified her today and declared the story she told yesterday of being the missing daughter of the wealthy New York merchant was the product of a mental disorder.

Under the name of Mabel de More she obtained from the New York police the facts relating to the Arnold case and, equipped with this information, she was prepared to "admit" the identity which her disordered fancy had conferred on her.

She appeared calm today, but was skilfully shamming its symptoms. She still declared she was Dorothy Arnold and denounced her "father," Mr. Arnold, for not answering many letters she had written to him.

NEW YORK, March 15.—The declaration of Miss Emily Splawn O'Dell, of Los Angeles, that she is Dorothy Arnold, who disappeared from her home in this city in 1910, was today described as "pure nonsense" by the father of the missing girl, Francis R. Arnold.

John S. Keith, attorney for Mr. Arnold, who has been taking an active part in the world-wide search for the girl, expressed himself similarly.

That he had received a letter from a Los Angeles attorney was the only information Mr. Arnold had to give. He placed no credence in the story that his daughter had been found.

"It is pure nonsense," he said. "I have received 50 letters within the last month from all parts of the country, the writers claiming to have found my daughter and seeking rewards."

"I pay no attention to them."

LADY BARBER BILL \$5.75

GRANGEVILLE GIANT, "BROKE," BEATEN BEFORE RELEASE.

SPOKANE, Wash., March 15.—(Special.)—What "lady barber" charged? Hair cut and shave.....\$.50 Shampoo.....\$.75 Neck massage.....\$.90 Electric massage.....\$ 1.50 Capillary head massage.....\$ 2.50 Total.....\$ 5.75

Harry Clark, over six feet tall, residence Grangeville, Idaho, related to Detective Captain Miles at police headquarters yesterday his experience with a "lady barber" at her shop. He showed an empty pocket, a well-mauled countenance and a black eye.

He said he fell asleep under the tender manipulations of the masseuse and in plain sight of pedestrians, and that when he awoke it was to look a bill for \$5.75 in the face.

On being asked what the bill was for, he said he was presented with a detailed account as given above. "You got the round trip," added the female tonorial artist.

Clark thrust a hand into his pocket to draw out a \$20 gold certificate which he said was there when he entered. When he told the lady barber that he was without funds she politely slapped him five times on the left cheek and gave him a body blow over the right eye, he said.

She added that she had two brothers and wished that they were present. Clark said he wished they were, too, as he wanted to lick someone in her family and could not touch a woman.

"She declared I could not leave the place until I paid and threatened to take my shirt and trousers for security," Clark told the authorities.

It was only after Sergeant Warner had found a friend to pay the bill that Clark was allowed to escape. He said he was never quite so glad to leave any

place and he had been in some tight situations with lions, cougars and other wild animals. He proposed to fight the case if it cost him \$100.

"That fellow came into the shop and actually ordered everything done on our price list," said Mrs. Nagle, who said that she was the barber that did the work. "He had been drinking, but he was by no means intoxicated, and so far as we knew he had all his senses except the common one."

"And then what do you think? He tried to tell the policeman that we had him hypnotized and took his money away from him."

NAVY NEEDS 30,000 MEN

Yacht Club Fleet Expected to Prove Auxiliary in War Time.

BOSTON, March 15.—The Government is looking on the new United States powerboat squadron as one of the ultimate component parts of the naval reserve. Franklin D. Roosevelt, Assistant Secretary of the Navy, said last night at the annual meeting of the Boston Yacht Club.

He argued for a bigger Navy and referred to the need of 30,000 additional men.

He said the fleet recently organized among the yacht clubs along the Atlantic Coast was expected to prove a feeder for the Navy in time of war and to serve as an auxiliary to it eventually.

ON THE INCURABILITY OF BRIGHT'S DISEASE

Suppose we agree with those who believe Bright's Disease incurable and use the term "life prolonged." Now let us cite three cases.

It was twenty-two years ago that the daughter of the late N. W. Spaulding, then Mayor of Oakland, was the victim of a long siege of Bright's Disease with dropsy, and looked upon as hopeless.

It was twenty-four years ago that Mrs. M. Emery, of Steiner street, was in such a condition, due to Bright's Disease and dropsy, that "two of our best physicians" gave her up. It was fourteen years ago that "the most noted analyst in this city" passed on the genuineness of the supposed incurable case of Bright's Disease of Editor R. M. Wood, of this city.

All of the above are pursuing their daily avocations at this writing, January, 1914.

The ability of Fulton's Renal Compound to reduce the percentage of cases of Bright's Disease is not a matter of opinion, but a FACT IN PHYSICS, and we will mail formula for albumen tests that will show the percentage from week to week. As the albumen declines improvement commonly follows, recoveries having been reported in thousands of cases. Formula and literature sent, on request. John J. Fulton Co., San Francisco.—Adv.

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot flannel, hot water bags, etc., inflames the nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that. Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

PREACHERS CHEER UNEMPLOYED ARMY

IDLERS ARE CALLED NOBLE

Woman, Who Says She Loves Every Member of Jobless Throng, Asks Blessings of Heaven for Their "Noble Purpose."

SACRAMENTO, March 15.—When seemingly on the point of disbanding, the 300 members of the unemployed "army" on the Yolo County side of the Sacramento River were cheered up today by a collection taken for them at a meeting held by Sacramento clergymen and by exhortations of Mrs. Cora Bates, of Sacramento, who spoke from a soap box.

Mrs. Bates likened the men to martyrs of Christendom, and compared "General" Kelley, one of their leaders, to Napoleon. The encouraged men began again their talk of a march to Washington. It was a dramatic service that was held in the open air on the river bank by the ministers of Sacramento, around whom were grouped some 200 of the unemployed.

Noble Men, Says Woman. It was purely a service of religion and brotherly love, and when it ended a collection was taken up for the idle army. Subscriptions totaled \$14. Mrs. Bates then jumped on a box and, in spite of the pleas of the ministers, began an address. She said:

"You are all noble gentlemen, engaged in a great cause—the cause of freedom—and I love you all. God bless you for your noble purpose."

More than 100 of the army left today and it is believed there will be not more than 100 in camp tomorrow night.

Talk Not Approved. Rev. A. B. Patton, of the First Congregational Church in this city, and S. Fraser Langford, of the Baptist Church, were among the speakers at the services for the unemployed and they took up the collection. This money will be used tomorrow to buy food.

Mr. Langford said: "We intend only to buy food with the money we collected today, but we have no intention of trying to retain this army of idle men here. We did not approve of Mrs. Bates addressing the men, and left when she began to speak."
