"All is Well That Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not head work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with
