TWO TELL OF BRIBE BY DEPUTY CURTIS

Lodging-House Keeper Says He Paid Officer to Avoid Publicity.

EX-CONVICT ALSO TESTIFIES

Stories of P. J. Haden and Bill Irvin Coincide at Trial of Former Employe of Sheriff's Office. Women on Stand.

"Frank Curtis took $25 from me, $15 in silver and $10 in gold," B. J. Haden, proprietor of the Arcade lodging-house, at 146½ First street, testified yesterday at the opening of the trial of Curtis, ex-Deputy Sheriff, under indictment charged with accepting a bribe and attempting to extort money. District Attorney Evans and Deputy Maguire appeared for the state and Attorney Frank Collier for Curtis.

When Judge McGinn adjourned court at 6 o'clock the state had rested its case. Attorney Collier moved the court for a directed verdict, but Judge McGinn overruled the motion. Testimony of the defense will begin this morning and probably be concluded tonight or tomorrow.

Accepting Bribe Charged.

Curtis is charged with having accepted a bribe of $25 after threatening to arrest Haden on a charge of conducting a disorderly house and aiding Mona Steiner in the larceny of $25 from Bill Irvin, an ex-convict. The bribe was taken January 23, the state charges.

Irvin, the first witness called yesterday, testified that Curtis had gone with him to the lodging-house to collect $25 from Haden for the $25 he had lost a week before.

"Curtis told Haden he had better square himself by paying the money back," Irvin testified. "After refusing for a time, Haden paid Curtis $25 in cash and later gave me a check for $25 in payment for the money I had lost. Curtis and I then left the building.

"When we reached Yamhill street Curtis demanded $5 from me. I refused at first and offered him $2.50. He said that wasn't enough; that it had to be split three ways. I finally paid him $5 and after we had another drink I left him."

Two Tell Same Story.

Haden corroborated Irvin in regard to the transaction in the hotel.

"I refused to pay anything at first, because I wasn't sure that Irvin had lost any money," said Haden. "Curtis then said that I knew I was conducting a disorderly house, and that if I did not square things with Irvin he would arrest me. I had not had any trouble and did not want any publicity, so I gave Curtis the $25. When Irvin insisted he must have $25, I had to give him a check."

Other witnesses who testified on behalf of the state were Mrs. Freda Hogue and Mona Steiner, women who were in the house and talked with Curtis and Irvin; Officers Lillis and Tennant, who arrested Irvin; A. L. Cook, who served Curtis and Irvin with several drinks before they went to the Arcade, and Al McCreary, who testified that he saw Curtis and Irvin on Yamhill street.

GOVERNORS TO BE INVITED

Ad Club Wants Executives of Idaho and Washington to Work Roads.

S. S. Hewitt, chairman of the Ad Club committee in charge of the Oregon good roads movement, has written to Governor West asking him to invite the Governors of Idaho, California and Washington to visit Portland to work with the other good roads boosters on the Columbia Highway, April 25.

"We will reserve as much road with rock and embellishments as you and your fellow executives care to handle," said the letter of invitation, "and that none of you may have an undue advantage, we promise careful inspection of the pick and shovel handles and will guarantee their legal length to the fraction of an inch and their legal weight to the fraction of an ounce."

PORK SENT FOR MUTTON

Woman's Creed Is Shocked, She Refuses Pay and Quarrel Ensues.

Mrs. David Speier's refusal to pay a $5 meat bill because August Grone, the butcher, had substituted pork chops for mutton chops, causing her to violate a religious precept regarding the eating of meat, led to Grone's arrest for assault and battery yesterday. Judge Stevenson dismissed the case.

"I ate the chops before I knew the difference," wailed Mrs. Speier in the Municipal Court. "I refused to pay his bill and shut the door in his face. He broke the door open and it struck me in the face." Grone denied that he broke the lock.

"When she tried to shut the door," he asserted, "it struck my foot and bounced back."

ELKS HOP IN FOOL'S CAP

Night Made Gay at Monthly Dance of Antlered Herd.

"April fool night" was made a gay occasion for hundreds of members of the Portland Lodge of Elks and their families who gathered last night at Cotillion Hall, Fourteenth and Burnside streets, and enjoyed the third of a series of monthly dances under the auspices of the popular Elks Band.

The full band of 45 pieces furnished the music. A dance programme had been arranged, including several "April fool" dances.

Fools' caps distributed at the door were worn by both men and women, and lent an atmosphere of carnival and gaiety to the ballroom scene.

MISSION SOCIETY MEETS

Women Hold Annual Session in Westminster Church, Irvington.

The Woman's Missionary Society of Portland Presbytery held its annual meeting yesterday in the Westminster Presbyterian Church in Irvington. The meeting was well attended.

Mrs. A. W. Zimmerman, president, presided. This Presbytery comprises 82 societies, including women's, young people's and children's.

The reports of the secretaries showed a substantial growth in all departments during the year, and the treasurers reported a gain of 14 per cent. This Presbytery is auxiliary to the Woman's North Pacific Board and has its home missionaries in Oregon, Washington, Idaho, Alaska, Utah, in North Carolina for mountain whites and freedmen and in San Juan, Porto Rico. Its foreign missionaries are in India, Persia, Siam, Laos, China, Corea and Colombia, S. A. One feature of the afternoon was an address by Rev. L. R. Beebee, a missionary on furlough from Laos.

Mrs. Milton Nelson was elected president to succeed Mrs. Zimmerman, who resigned after three years' service.

MISS CROSMAN AT BEST IN "TONGUES OF MEN"

Favorite Actress Scores Remarkable Success in Latest Play—Minister's Visit to Bohemia Is Amusing.

HENRIETTA CROSMAN, CHARMING AMERICAN COMEDIENNE, AT HEILIG THEATRE TONIGHT.

HENRIETTA CROSMAN, who has endeared herself to the hearts of the American theater-going public, comes to the Heilig Theater for three nights beginning tonight, with a special matinee Saturday, in "The Tongues of Men," by Edward Childs Carpenter, in which she scored a remarkable success at the Harris Theater, New York. After she had opened her season there critics said she had the best play in which she has appeared in years.

The story of "The Tongues of Men" has to do with a famous grand opera favorite who is appearing in a piece that has some risque moments. A prominent young minister takes it upon himself—without having seen the performance—to criticise it from the pulpit and condemns the woman who is playing the title role.

The opera singer hears this tirade, makes the acquaintance of the rector and dares him to come into her world.

Amusing and interesting situations follow when the minister accepts the dare to explore Bohemia. Miss Crosman is supported by Frank Gilmore, Margaret Randolph, Sheridan Block, Tomer Granville, Edward Lee, Laura McGilvray, Katherine Presbrey, Paul Daucet and Florence Fontayne.

RURAL ROUTE TRADE.

The new parcel post rates recently made effective afford the local merchant an opportunity to build up a country trade equal in volume to his city business. By using an Edison Mimeograph in this connection the country merchant can solve a problem long a puzzle to him. These machines range in price from $15 upwards. A. S. Ashley, sales agent, 301 Phoenix bldg., Portland.—Adv.

Logging Engine Arrives.

COTTAGE GROVE, Or., April 1.—(Special.)—A Shay logging engine, which will be used by the U. S. Logging Company in climbing the mountains in the forest reserve, where the company is carrying on extensive logging operations, arrived last week and was taken up to the hills Monday.

Austria will soon spend $120,000,000 for new railway lines.

NEWS ABOUT RAILROADS

EARLY construction of a temporary freight house on the lot at the southwest corner of Union avenue and East Morrison street will be the probable result of a conference at the Commercial Club yesterday between representatives of the East Side shipping interests and L. C. Gilman, president of the North Bank and allied Hill railroads.

Mr. Gilman has asked consent to erect a galvanized iron, fireproof structure in place of the brick and concrete building originally planned. He has promised the East Side business men that the temporary building will be replaced at the end of three years by a permanent structure.

Failure to secure possession of the lot adjoining the terminal property on the west at a reasonable price and present unfavorable business conditions make it inadvisable for the Hill interests to proceed with their more extensive terminal project.

The East Side business men are willing to accept this arrangement and all that is needed now is permission from the city authorities before work on the new terminal is started.

C. A. Cairns, general passenger agent of the Chicago & Northwestern, visited in Portland yesterday on his way home from the recent meeting of the Transcontinental Association at San Francisco. Mr. Cairns believes that the Northwest will get a large share of passenger traffic from the World's Fair at San Francisco next year. The rates, he points out, are sufficiently low to attract all classes of travelers.

"Oregon seems to be the destination of most of the colonists coming to the Coast this Spring," he said. "As a matter of fact, our Chicago office is having more inquiries for Oregon than for California this year."

The Rock Island has started to make effective its policy of retrenchment, and the Coast is feeling the effect. Recently the office at Sacramento was closed. It is reported now that the Tacoma office will be closed within a few weeks and the business handled out of Seattle. It is predicted that the Oakland office, too, will be closed within a few months. It is believed that following the reorganization of the Rock Island system, which now seems inevitable, the entire Pacific Coast agency system will be reorganized.

C. W. Colby, of San Francisco, manager of the Pacific Coast traffic of the Erie railroad, was in Portland yesterday arranging for the appointment of a successor to C. B. Baker, who recently resigned as general agent for the Erie in this territory, to engage in private business. Mr. Colby says that the new man will be named within the next 10 days, but it is predicted here that E. A. Seneff, general agent at Spokane, will be chosen. The Erie is preparing to increase the importance of the Portland office, says Mr. Colby.

The New York Airbrake Company has completed arrangements for installing a supply depot in Portland for the trade of the Northwest and will carry a heavy stock of its products. E. F. Wentworth, who has represented the company in this territory for some time, will have charge of the new agency.

Freight solicitors for the various railroads maintaining agencies in Portland will be permitted to tell of their troubles at the regular luncheon of the Transportation Club at the Multnomah Hotel on Monday, April 13. W. O. Roberts, solicitor for the Great Northern and secretary of the club, will be chairman of the day.

W. C. McBride, general agent for the Gould lines, has returned from San Francisco, where he conferred with traffic officials from the St. Louis office, who now are touring the Coast. It is probable that the Gould roads will enlarge the Portland office force within the present year.

Four crews of 50 men each now are at work on the Astoria division of the North Bank Road reballasting the track and otherwise improving the property preparatory to handling the Clatsop Beach service, which will be inaugurated within the next few weeks. These improvements are to be of a permanent nature on account of the operation of a fast train service next year to connect with the new Hill steamers between Astoria and San Francisco.

F. L. Burckhalter, superintendent of the Portland division of the Southern Pacific, has returned from San Francisco, where he attended a conference of operating officials of the various divisions comprising the Northern district, which includes all the lines between Portland, Sacramento and Ogden.

A. A. Lowe, president of the Harriman Club and ex-chief clerk in the office of the district engineer of the Southern Pacific, has been appointed chief clerk to the superintendent of the same road to succeed A. D. Woodbury, who has been assigned to other duty.

William McMurray, general passenger agent of the O.-W. R. & N. Company, returned last night from the Transcontinental meeting at San Francisco. J. C. Cumming, chief clerk in Mr. McMurray's office, preceded him a few days ago.

W. D. Scott, general manager of the North Bank, is passing a few days in Spokane, where he is formally adding the Spokane & Inland Empire Road to his jurisdiction, in accordance with arrangements made by L. C. Gilman, president, a few weeks ago.

H. A. Buck, of San Francisco, Pacific Coast agent for the Pennsylvania system, is expected in Portland today.

M. J. Costello, of Seattle, assistant traffic manager of the Great Northern, will be in Portland today.

It is said that the Interstate Commerce Commission will grant a rehearing to the St. Paul road in the Puget Sound case in which the Commission ruled that the company's accounts had been "juggled" to the extent of $100,000,000, more or less.

The receivership of the Wabash is expected to be lifted about August 1, after which many needed improvements will be attempted.

OREGON FIRST, IS MR. RICKER'S SONG

California Admitted to Have Advantage in Some Fruit and in Its "Boosters."

KIPLING'S "ATTLEY" MET

Student of Agricultural Conditions Finds Burbank Only Authority in Southern State and Refuses to Be Won Over.

BY DAVID SWING RICKER.

MARYSVILLE, Cal., March 30.—(Special.)—Rudyard Kipling, in his latest story, tells of his friend Attley, who would give away his own head if you told him you had lost yours.

I have met my friend Attley. He is here, and he is so fearful lest I may hold to my opinion that I would rather settle in the Valley of the Willamette or the Umpqua or in Coos that he is ready to give me acres of producing land in the Valley of the Sacramento just to prove to my satisfaction that I am wrong; but my friend Attley, to my misfortune, hasn't anything to give away worth more than enthusiasm without alloy and advice of the same kind. He is a well-meaning native son who, like those in New York that cannot see beyond the Statue of Liberty and those in Boston that find the world ends at West Newton and those in Chicago that refuse to look west of Hinsdale, declines to see beyond the Sacramento Valley. Everything is inside of it. Nothing is outside of it. The world is here. Beyond the world is ether. He calls it "hot air."

"Where have you traveled?" I asked my Attley.

"Never been out of the state," he answered.

Then he added:

Provincialism Is Denied.

"Why should I go out of the state? We have everything here. And when I go through California it is the same as traveling through ten other states. Perhaps you don't know that two states less than a dozen, including New York and Ohio, could be set within the boundaries of California. You think I am provincial. I can see that you do. I'm not. I'm loyal and I live by my convictions. That's all." And my Attley pounded the table with his fist. I had said all I had to say. I was ready to listen and I did. My Attley is not a bad sort. He is an early graduate of Stanford. He is the best advertising agent of California I have ever caught off the payroll of the Southern Pacific; but, denying myself the pleasure of his delightful companionship, I have made my investigations without him, but often, very often, as I have gone from place to place I have found the thought running through my head: What a splendid thing it would be for Oregon to have it crowded with Attleys like this Attley of Marysville.

Farming Infant Industry.

I have traveled over nearly every foot of the Valleys of the Willamette and the Umpqua, the Rogue and the Coos, and I feel that I am able to make comparison, yet there still stays with me one of the arguments of Attley—an argument which must be understood at the outset before we are able to comprehend the new spirit in the Sacramento Valley.

It is this:

"The real work of farm making in California has only just begun. California farms in 1900 operated by owners numbered 55,782; by tenants 16,760, the per cent being, relatively, 76.9 and 23.1. In 1910 there were 66,265 owners, and 18,035 tenants, the percentage remaining practically the same. This is one of the evils which menace the country and from which California comparatively is free."

My Attley is right. Tenancy is a menace to agricultural growth. It holds back ambition. It makes men reluctant, apparently, to get maximum results out of minimum acreage. I concede to him the soundness of his argument. But during the entire time I spent walking through Oregon, I did not find 23 per cent of renters. Nor 10 per cent of renters. It speaks well for Oregon that nearly every farmer with whom I talked owns his own farm. Nor does any agricultural college in California wield the same amount of influence here as the college at Corvallis wields in Oregon. Farming is not so intensified. Here Burbank seems to be the only great teacher to whom every farmer turns an open ear.

Fruit Acreage Enormous.

Marysville is the hub of the Sacramento Valley. Above Redding there was no agriculture worth talking about. But there was a mineral wealth that has not yet been wholly measured. In Butte County, above here, where all the great ranches are being parcelled out to small buyers, the number of fruit trees is enormous.

In Yuba and Sutter Counties conditions are not the same. Here there is more specialization, although there is, too, more grain and alfalfa. But peaches and grapes seem to predominate although, of course, there are plenty of oranges, a vast quantity of olives and large crops of walnuts and almonds.

Special attention, on the theory of special environment, is being paid in both counties to the Thompson seedless grapes which are grown by the thousands of acres in Sutter County.

With an even break in the matter of fertility and productivity of soil, to my layman's mind, with irrigation necessary in most sections, the thermometer climbing high in Summer, no mountains to inspire and no greater profits possible from farming more acres than can be taken off of the beautiful acres of the Rogue River Valley, I am still unconverted. I take off my hat to my friend Attley, but I would like to have him see Oregon.

CITY TO LOSE HEAVILY

LIENS CANCELED BY OLD WATER BOARD FORCE $87,000 PAYMENT.

Bond Issue May Be Necessary to Redeem Securities for $295,000 and to Pay Interest On Them.

The cancellation by the old water board of bonded liens against property in various sections to cover the cost of water main construction will cost the city water department or some other department a total of several hundred thousand dollars within the next few years, according to a report which has been submitted to the Commission by the City Auditor.

The first echo of the policy of the water board in cancelling these liens without making provision for the redemption of the bonds and the interest on the bonds issued on the strength of the liens, was heard yesterday when the Council appropriated $87,000 out of the funds of the water department to pay interest and redemption on the bonds which when issued were to have been redeemed and the interest paid by the property owners under the same provisions as are bonds issued for street and sewer improvements.

The Water Board, noting that a large number of these liens were on mains that were paying six per cent interest or better on the amount invested, decided to follow the policy of canceling these liens. They failed to make provision, however, for the redemption of the bonds and the payment of interest on the bonds so issued. Among the districts benefited by this policy were several large real estate tracts, which should have been required to pay the interest and finally the redemption on the bonds.

It is said the Water Board canceled liens amounting to about $295,000, all of which will have to be paid by the water department. Interest on this amount will have to be paid also. The $87,000 appropriated by the Council included $60,000 for interest and $27,000 for redemption of bonds. Other appropriations may necessitate the issuance of water bonds.

BIDUFF IS FOUND GUILTY

JOINT SLAYER OF JESSIE WILSON AWARDED SECOND DEGREE.

Condemned Man, as Partner, George Hohoff, Confessed, Will Probably Get Life Sentence.

Guilty of murder in the second degree was the verdict returned at 8:30 o'clock last night in the trial of Deokor Biduff, charged with the murder of Jessie Wilson. The case was given to the jury by Circuit Judge Kavanaugh, before whom the trial was held, at 4:30 o'clock yesterday afternoon. Sentence will be passed at 9:30 A. M. Saturday. Second degree murder is punishable by life imprisonment in the penitentiary.

Biduff, indicted jointly with George Hohoff, for the murder of Jessie Wilson, at 327 Front street, January 3, has been on trial since Monday. Closing arguments in the case were made yesterday by Deputy District Attorney Hammersly for the state and Attorney Sam White for the defendant. Hohoff pleaded guilty to second degree murder several weeks ago and is serving a life sentence in the penitentiary.

The Wilson woman was found dead in her room with her throat cut from ear to ear. The knife which had been used was found near by. Search for Hohoff and Biduff was commenced immediately and they were arrested several hours after the murder was discovered.

After their arrest Hohoff admitted that he had taken part in the murder, telling the officers that he held the woman while Biduff cut her throat. Biduff admitted on the stand that he was in the house, but was in an adjoining room when Hohoff killed her.

Husum Orchards Found Good.

HUSUM, Wash., April 1.—(Special.)—William Olson has been appointed Assistant Horticultural Inspector for District No. 15, which comprises the western portion of Klickitat County. So far as his examination has been extended, he reports the different orchards in good condition.

MRS. ALEXANDER TRANSFORMED BY A NEW MINERAL DISCOVERY

Los Angeles Woman Changed from Rheumatic Wreck to a Person Without an Ache.

"After suffering four years with constant pain I am now without a single ache."

This is the unusual statement of Mrs. Jay B. Alexander, of 920 Beacon street, Los Angeles, who feared only a few weeks ago that she was doomed to be a helpless invalid the rest of her days. Rheumatism, combined with liver and bladder trouble, made her a wreck. Her hands were numb and swollen. She was forced to give up housekeeping and had to be moved to a boarding-house in an ambulance. Physicians, baths, electricity and various remedies failed to help her.

Then Mrs. Alexander learned of Akoz, the wonderful radio-active California medicinal mineral discovered by John D. Mackenzie, of San Francisco. To the amazement of herself and friends she was soon fully restored to health. She now takes long walks without pain or tiring and has no trace of her former affliction.

"I suffered with rheumatism for eight years," said Mrs. Alexander. "My condition was fully relieved by taking Akoz three months, after I had exhausted every other resource without permanent relief. I had a long and serious illness, caused, according to physicians, by an excess of uric acid in the blood. My liver and bladder were also involved and I suffered with flatulency—I was a wreck.

"For a time I was helpless, with no use of hands or feet. I was compelled to break up my home and board. I was moved April 1, 1913, in an ambulance. I learned of Akoz in July and took it as directed and used no other remedies.

"It would take volumes to express all that Akoz has done for me, both mentally and physically. Life, before

MRS. JAY B. ALEXANDER.

was not worth living. Now I am able to do all my sewing and go and come as I please. I am now without an ache or a pain."

Akoz is giving exceptional relief in rheumatism, stomach trouble, eczema, catarrh, ulcers, piles and other ailments. It is being demonstrated at The Owl Drug Store, Washington and Broadway, Portland. You are invited to visit, phone or write the Akoz man at The Owl Drug Store for further information regarding this advertisement.

Blood Troubles Vanish As If By Magic

Remarkable Remedy That Drives Every Particle of Poison Completely Out of Your Entire System.

Strength, Power, Accomplishment are all Typified in S. S. S.

Blood troubles often become so deeply rooted in the glands and interstices of the tissues, that only a most searching remedy will dislodge them. There are many reasons why S. S. S. is this remedy. To begin with the ingredients of which S. S. S. is composed are of vegetable extraction. For this reason they are readily passed through the walls of both the stomach and the intestines. Thus it goes directly into the blood circulation and its action is relatively the same as that of the other blood materials.

THIS IS IMPORTANT.

We derive all sustenance from our food whether solids such as meats, grains, fats, salts and sugars or in liquids, as the elements of oxygen, hydrogen and nitrogen combined, or in the free, or gaseous, state as in the air we breathe. All of these various food materials are converted into substances which are selected from the blood stream to make up the constructive tissues and frame work of the body. And as fast as they keep building up, just as rapidly do all of these materials turn into body wastes to be excreted. But with a goodly share of humans, these wastes are not properly thrown out and they thus remain

A PERIL TO HEALTH.

Here is where S. S. S. enters to assist the blood stream to more adequately perform the function of supplying pure blood in the arteries and carrying off the waste material through the veins. Naturally an assimilable remedy, S. S. S. not only has a prompt medicinal effect, but unlike food, it is not changed, it is not converted by the liver, it is not burned up in the lungs or tissues by oxidation. On the contrary, it continues to circulate in the myrind of cells in the interstices of the tissues until it gradually works its way out through the skin or the kidneys. And all the time it is an active agent, it remains a medical influence, it keeps steadily at work preserving the natural function of the blood to give healthy material for that which has broken down.

KNOWN BY RESULTS.

This is not a theoretical essay. It is a simple statement of physiological facts and known results. There is scarcely a community in the entire United States but what has its staunch supporter of S. S. S. There is a host of men and women who struggled for years with some form of skin trouble such as eczema, psoriasis, or acne; there is a legion of people who cured themselves of some chronic sore or ulcer. And the number who have overcome catarrh, poisoned blood from various causes, malaria, anemic conditions and all forms of rheumatism, is sufficient to convince anyone that S. S. S. is a natural blood remedy and bound to drive out all impurities.

There isn't a well stocked drug or department store anywhere in America but what has sold S. S. S. continuously year after year. It is the most generally recommended remedy known.

Not a drop of minerals is used in this famous preparation and it is thus a remedy that anyone can safely use and can honestly and conscientiously urge his best friend to use it. For this reason when you ask for a bottle of S. S. S. do not be talked into something "just as good," as you will certainly be fooled and deceived.

S. S. S. is prepared only in the laboratory of the Swift Specific Co., 468 Swift Bldg., Atlanta, Ga.

And anyone who is afflicted with any form of blood trouble, may write for free advice on the best method of using S. S. S. together with helpful advice on other matters. This department has been of incalculable benefit to a host of thankful people during the past half century.

THE EASIEST WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

S. P. FIREMAN TELLS HOW HE WAS HELPED

Astoria Man Says He Will Always Have a Good Word for Plant Juice the Tonic.

Mr. E. Swenson, who resides at 470 30th-Harrison avenue, Astoria, is another Plant Juice convert. Mr. Swenson, who is a fireman on the S. P. & S. R. R., says:

"I have been afflicted with a bad case of stomach trouble for the past three years, and also suffered greatly from constipation. My stomach was in such a bad condition that I felt miserable all the time. Everything I ate disagreed with me, and there was a feeling of fullness in my stomach that caused me great distress, so much so that often I could not sleep. I frequently suffered from headaches and dizzy spells. I heard so much comment about Plant Juice I thought I would try it, too. I have now used three bottles and it has been of great benefit to me, my stomach is much improved. I am now eating most anything I want and the food seems to agree with me, so I do not suffer afterwards. In fact, my whole system is much improved. My mother has been taking Plant Juice, too. She suffered from bladder trouble and is very much better since she began taking it. She has only used one bottle and we are both very enthusiastic about Plant Juice and glad to recommend it to others."

Those who suffer from ailments of the digestive organs, such as indigestion, sour stomach, bloating, gas, etc., with poor appetite, impoverished blood, biliousness, and constipation, who are run down generally and feel in bad shape all over, should try Plant Juice at once. The results are quick and permanent. For sale at The Owl Drug Company's stores.—Adv.

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."—Miss AMELIA JAQUILLARD, 3961 Tehoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

HERE'S GOOD NEWS FOR DYSPEPTICS

We have good news for every person in this town who has any form of stomach trouble. It is about a remedy for indigestion and dyspepsia that we have so much faith in as to offer it to you with our personal guarantee that if it does not relieve you and satisfy you in every way, we will refund the money you paid for it without question or argument of any kind. You risk nothing; either Rexall Dyspepsia Tablets will relieve your stomach ailments or the money you paid for them will be handed back to you. There is no red tape about our guarantee. It means just what it says. Your word is enough. If Rexall Dyspepsia Tablets don't satisfy you, the money is yours and we want you to have it.

Rexall Dyspepsia Tablets soothe the inflamed stomach, check heartburn and distress, stimulate a healthy secretion of gastric juice, aid in rapid and comfortable digestion of food, and help to quickly restore the stomach to a comfortable, easy-acting, healthy state. They also aid greatly in promoting regular bowel action. Rexall Dyspepsia Tablets are sold only at the 7000 Rexall Stores, and in this town only by us. Three sizes, 25c, 50c and $1.00.

The Owl Drug Co.—Adv.
