

SENATOR LANE ON SIDE OF REPEAL

Message as Good as Declares in Favor of Mr. Wilson's Tolls Measure.

SOLEMN PLEDGE IS CITED

Marshfield Chamber of Commerce Fails to Get Promise to Oppose President's Bill and Instead Finds It Defended.

MARSHFIELD, Or., April 6.—(Special.)—United States Senator Harry Lane, in replying to a telegram from the Marshfield Chamber of Commerce urging him to vote against the repeal of free tolls for American ships using the Panama and German goods declared his intention of voting for the President's measure, although declining to express himself to that effect.

In his telegram Lane says that the repeal of section 5 of the Panama Canal act, which exempts American vessels from tolls, would be unjust and detrimental to American shipping, and only in the interest of foreign nations and railroad companies, urging me to use my best efforts against the repeal of said section.

"In reply I would say that the question has not yet come up in the Senate, but will do so in a few days and there will be much discussion on the subject.

President's View Told.

"It is merely a question at this time, I assume, as to whether or not the Government has made a pledge to allow other nations to use the canal on the same terms as our own. President Wilson has assured me personally, from his study of the question and perusal of state documents, etc., that he has been compelled to conclude, much to his personal preference in the matter, that this Government is under solemn obligation to permit English vessels to use the canal on the same terms as our own.

"As near as I can ascertain the facts, this Government, in the acquisition of the Canal Zone, and in its active participation in bringing about a rebellion in the Nicaraguan government, by which it secured possession of the territory, has infringed upon the rights of England and Germany, and in order to placate those countries was compelled to yield this concession in regard to tolls. It also found itself in a position where it was compelled to purchase the French claims to the canal at an exorbitant price.

Tolls System Favored.

"If I had my way about the canal, I would levy a toll upon all vessels going through it, both American and foreign, at a rate sufficient to pay in part for the expense of operating the same, and to provide a sinking fund which would eventually repay this country for its outlay. I would then endeavor to secure an agreement between all nations for policing the same, preventing its destruction in time of war by any nation. This would save the American Government the heavy expense of having war vessels stationed at both ends of the canal, far from their base of supplies in this country. It would be the beginning of an international police system which would eventually put a stop to the upkeep of the Navy and would be an arrangement fair to all.

"I am retaining the privilege of voting upon this question purely on the merits of the proposition.

"Thanking you for writing to me on this subject and assuring you that I will weigh the question carefully before casting my vote, I am, very truly yours, HARRY LANE."

Mr. Vawter will file as a Republican, but has the support also of Democrats and Progressives.

With the retirement of Bert A. Greer, of Ashland, from the State Senatorial race, Senator Von der Hellen, of Welles, will be unopposed.

ented by the United States; and especially is this true because I deem it the duty of my party to afford that these relations be cordial and intimate with those who in good faith sympathize with our purpose and are in accord with our aims and ideals.

Future Course Hinted At.

"As long as I am at the head of the constitutional army, or in any other office, my policy will be to strive in such a way as to have our international obligations complied with and to have our relations with foreign governments become more and more cordial, and especially with such countries as have their destiny linked with the political, economic and commercial interests of Mexico.

"I sincerely regret that incidents of an international character should have given origin to an interpretation not entirely in accordance with my real attitude as the chief of the Constitutionallists. I have striven to place myself in the legitimate light deserved by the high aims of our party without overlooking the cordial suggestions which were offered me within the attitude just expressed, neither evading responsibility nor ignoring diplomatic customs and usages.

European Pressure Factor.

In pursuance of this attitude, all representations and matters called to our attention by the United States in an official way have in the past received our prompt attention and I assure you that hereafter the same attention will be given to all representations and matters presented to us through the United States in behalf of

other nations in conformity with international diplomatic usage and custom, notwithstanding the fact that we have always deemed it preferable to avoid responsibility being thrust upon the United States by other powers as a result of its attitude towards the political conditions now existing in the Republic of Mexico.

"In accordance with the views above expressed, I have repeatedly stated and now reiterate that I am at all times disposed to give attention, for instance, to foreign representations brought to my attention through the offices of American representatives, provided, of course, that we are notified that such mediation is at the request of such foreign power. I can conceive of no better evidence of the spirit of cordiality and friendship which we bear towards the United States than our willingness to receive unofficial representations and claims made by the United States Government in regard to all matters concerning its citizens within the republic of Mexico.

Prestige Not to Be Sacrificed.

"In this regard I must, however, call your attention to the fact that we could not, without sacrificing our hard-fought-for prestige, consider representations made through the good offices of the United States in behalf of foreigners unless we be previously informed of the nature of the situation requested of the United States by the interested nation.

"As I desire to reciprocate with the disinterested suggestions of Senator Morris Sheppard called to my attention through your kindness, I beg of you to advise him of the ideas hereinabove expressed, which ideas are the expression of our desire to harmonize National dignity with the cordial relations which, on account of our common interests and principles, must exist between the American and Mexican people.

"Assuring you of my pleasure in repeating the above principles, yours very truly, V. CARRANZA."

LABOR CASE DOCKETED

GOMPERS, MITCHELL AND MORRISON TO BE HEARD THIRD TIME.

Hearing Comes Up on Appeal From Decision of District of Columbia Court in Reducing Sentence.

WASHINGTON, April 6.—After having the Gompers-Mitchell-Morrison contempt case under advisement since January 3 the Supreme Court restored it to the docket today for argument April 20.

Justice Lurton, who was absent when the case was argued, returned to his duties today after being away since November.

The case comes up on an appeal from the action of the District of Columbia Court of Appeals in reducing to 30 days the one-year imprisonment sentence imposed by the District Supreme Court upon Samuel Gompers, president of the American Federation of Labor, and the sentences of six and eight months, respectively, upon John Mitchell, vice-president, and Frank Morrison, secretary of the Federation, to the fines of \$200 each. The labor leaders were held guilty of violating an anti-boycott injunction of the District Court in 1907 in the Bucks Stove & Range Company case for the Federation.

This will make the third time the case has been presented to the court.

The labor leaders contend proceedings against them are barred by the statute of limitations and the District Supreme Court is anxious to have its sentence stand as imposed, denying the right of the Court of Appeals to interfere in the matter.

WHEY CHEESE CONDEMNED

Shipment Alleged Misbranded Ordered Destroyed by Court.

By the terms of a stipulation filed in United States District Court yesterday, 30 boxes of so-called whey cheese, shipped to Portland by the Lake Zurich Creamery Company, of Palatine, Ill., will be destroyed by order of the court.

The shipment was seized and labeled by the Federal authorities February 25. There were 50 boxes in the original shipment, but 20 had escaped into the channels of trade.

It was alleged by the Government that the shipment was adulterated and misbranded in that it was not whey cheese, but an imitation adulterated with saccharine which the Government chemists allege is 400 times as powerful as sugar and contains absolutely no nourishment.

The stipulation was agreed to by Robert R. Rankin, assistant United States District Attorney, and Moser & McCue, attorneys for the shippers.

The jurist made the announcement at the monthly luncheon of the Superior Court Judges in the rooms of the Arctic Club and the selection of Judge Dykeman followed.

CRIPPLED FOR EIGHT YEARS; IS MADE WELL BY AKOZ IN SIX WEEKS

Miss Julia A. Hyde Praises New Remedy for Rheumatism.

How she was transformed from a helpless cripple to a well woman through the use of Akoz, the new radio-active medicinal mineral, is told by Miss Julia A. Hyde, of 419 Ford Street, San Francisco. She suffered for eight years from sciatic rheumatism, and was forced to give up her work as hotel housekeeper, which she had followed for fifteen years, having been connected with such hotels as the Vendome of San Jose, Hotel Green of Pasadena and the Palace and Occidental Hotels of San Francisco. She is ready to resume her work again.

"About three months before the earthquake of 1906 I was stricken down with a most severe case of sciatic rheumatism, and began taking electric treatments. The fire coming along deprived me of those treatments. The shock and exposure at that time made my case apparently hopeless and unfitted me to take up my work.

After taking many medicines, with poor results, I came to the conclusion that there was no cure for rheumatism, and was told the same by some doctors. "I noticed in the papers that Akoz was highly recommended by many persons, though Mrs. Lambson for the past year has had roses from her own bushes every month in the year, except March.

to get at the prisoner. One woman, wife of an Italian for whose alleged murder Aubain was tried, fought and scratched her way to within a few feet of the frightened man, screaming that she would scratch out his eyes. Two policemen had to detain her forcibly.

The spoon with which Aubain attacked McKee had been sharpened to almost razorlike keenness on the concrete floor of his cell. Aubain was tried for the murder of two Italians. His defense was that they had attempted to blackmail him.

WASHINGTON, April 6.—The Cummins bill to make common carriers liable for full value of shipments was reported favorably today from the Senate interstate commerce committee.

Amendments were adopted to require full damages for livestock and making certain exceptions where the nature of the shipments is concealed or the Interstate Commerce Commission approves rates on certain values.

CARPENTER FINDS WAY TO BUILD UP HEALTH

Former Oregon City Builder Now Residing Here Recommends Plant Juice to All.

Mr. J. W. Stansbury, a carpenter by trade and who until recently was employed at the paper mills in Oregon City and who is now living at 864 Twenty-fifth street, East Portland, has this to say about Plant Juice, the new tonic:

"I have suffered for years with my stomach. I had the worst kind of a case of indigestion, and suffered from heartburn, bloating and waterbrash. I believe I tried everything that was recommended to me, but nothing did me any good, and I was beginning to think I would have to suffer the rest of my life, when I heard of Plant Juice and what it was doing for other people here. I tried it and have at last found the right treatment I think. I can eat anything I want now and digest it fine, stomach does not bother me at all. I have not had a single attack since I began taking Plant Juice and I think it is a wonderful medicine."

There are many people in Portland who will agree with Mr. Stansbury in his opinion of Plant Juice. It is a wonderful medicine for all ailments of the stomach, liver and kidneys, those who suffer from indigestion, gas, bloating, sour stomach, a feeling of fullness, flushed face, headache, dizzy spells, spots before the eyes, pains in the region of the heart, poor circulation and impure blood, have pains across the back or in the joints, no appetite, sleep poorly and wake up tired and worn out, should try a bottle of Plant Juice. For sale at the Owl Drug Company's stores.—Adv.

MISS JULIA A. HYDE.

After taking half of another month's treatment I can go up and down the stairs without assistance, and can use my hands and fingers freely. Pain is all gone. After suffering eight years I will take up my work again, as I am no longer a cripple. Akoz is a wonderful treatment. I can't praise it too highly.

"This is only one of the thousands of letters from men and women who have got relief by using Akoz for rheumatism, stomach trouble, piles, catarrh, oesophagus, ulcers and other ailments. Akoz is being demonstrated at The Owl Drug Store, Washington and Broadway. Visit, phone or write the Akoz man for further information about this advertisement.
