

WHEAT GONE

California Now Depends on Oregon and Washington.

STEADY DEMAND FOR RED

Shipments During Next Three Months May Equal Movement in Past Quarter - Former Prices Obtainable in Local Market.

So little wheat is available in the Northwest that buyers are not making much of an effort to touch with California. There is still a steady inquiry from California and this is certain to continue throughout the season.

The shortage of supplies is most pronounced in Idaho. According to reports received that state is cleaned up of last year's crop. The Californians, therefore, will have to look to Oregon and Washington during the remainder of the season for the wheat they need.

California is using as much feed wheat now as at any time this year. For the next three months that state will, in all probability, take as much grain as in the past three months, their purchases having averaged close to 1,000,000 bushels a month.

The country mills are also inactive in the wheat market. They appear to have sufficient stocks of grain for the present. If they wanted more they might not be able to buy it.

Trading in oats and barley continues quiet and the old prices are quoted. Local receipts, in cars, were reported by the Merchants Exchange as follows:

Local Receipts: Wheat, 100 bushels; Oats, 100 bushels; Barley, 100 bushels.

Weather Hints Strawberry Trade: Large Shipment Received From Fresno. More Florida Tomatoes In.

The weather yesterday was against the strawberry trade. The street was well supplied, but sunshine and warmth was needed to move the fruit.

Local Poultry Prices are Better: Fractional Advance Noted in Egg Market.

The poultry market was heavily supplied and prices were firm all around. Hens sold at 17 1/2 cents.

Large Block of Yakima Hops Sold: A block of 280 bales of Yakima hops was bought yesterday by McNeff Bros.

Bank Clearings: Bank clearings of the Northwestern cities yesterday were as follows:

Portland \$1,415,311; Eugene \$2,388,228; Astoria \$1,100,000; Spokane \$1,000,000.

Count. The decline continued without important interruption through the day. When the news came in the last hour that the Atlantic coast had been ordered to prepare for a possible invasion, the market rallied. The recovery did not hold, however, and the close was not far from the day's low prices.
