DEMAND FOR PRUNES

Eastern Trade Inquiring for 1914 Quotations.

PACKERS NOT OFFERING

Crop Prospects Satisfactory on Coast and Good Prices Are Assured, Owing to Cleanup of Old Stocks.

The trade in the Eastern States and in the Middle West is chowing considerable interest in new pack Italian Northwestern prunes. The market has not opened yet, but the prospects are good. As the situation is expiremed by J. T. Brumfield, a local authority on the subject, "We will have fair prices for prunes, even if the crops on the Coast are large. If the crops are small, prices will be exceedingly good."

The prune crop in the Northwest last year was a light one, and the holdover from 1912 was small. All of the 1918 pack went into Jobbers hands at good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and stocks now held by Jobbers and re-POTATOES—Oregon, The prune grow had a good prices, and the holdower and re-POTATOES—Oregon, The prune grow had a good prices, and the holdower and re-POTATOES—Oregon, The prune grow had a good prices, and the holdower and re-POTATOES—Oregon, The prune grow had a good prices, and the prune grow had a good prices, and the holdower and re-POTATOES—Oregon, pre sack, \$4.50; Austra-POTATOES—Oregon, pre sack, \$4.50; Austra-POTATOES—Oreg and stocks now held by jobbers and re-tailers are very light. This conditions naturally makes for more or less inquiry

for prices on the 1914 pack.
Some of the Jobbers would be willing to buy a limited quantity of prunes for early shipment, but packers in Oregon and Washington have thought it best not to offer until the weather becomes settled and they know more about what kind of a crop will be produced.

Crop prospects up to this time have been ery good in both Oregon and California. In the latter state the crop is probably as safe now as it will be three months hence, but in the Northwest growers are hoping for a spell of clear, warm weather, Nothing is doing in the way of contracting with growers, and the latter are not interested in

A late trade report from New York says: "Sellers of future California prunes are impressed by the crop conditions mani-fested thus early in the season and tendfested thus early in the season and tending to indicate a much shorter crop than had been counted on. They are withdrawing recent quotations and their new figures are from %c to %c above those on which they have been ready to do business heretofore. It was said to be doubtful if anything more could be bought for September shipment on a %c f. o. b. four-size basis for 40s to 60s, the last reported transactions in that month being on this basis. Packers are now reported to be reluctant to make further commitments for first half tions in that month being on this basis. Packers are now reported to be rejuctant to make further commitments for first half of October under 4%c and are generally asking 4%c f. o. b. four-size bulk basis for 10s to 50s in Santa Clara stock. Possibly all October shipment in Santa Clara could still be done on a 4% f. o. b. bulk basis, 40s to 50s, though the general quotation appears to be 4%c and some packers demand 4%c. Otuside prunes, 40s to 50s, are generally quoted on the basis of to for the four sizes, all October shipment, but the sellers do not seem to be eager for business at this price. The improvement in the tone of the Coast market is attributed to the unprecedentedly heavy drop of setting fruit in many sections, for which as yet there seems to be no adequate explanation. Spot prunes are quiet but firm under and the sellers do not seem to be tager for business at this price. The improvement in the tone of the Coast market is attributed to the unprecedentedly heavy drop of setting fruit in many sections, for which as yet there seems to be no adequate explanation. City Saves Bond Interest.

Day's Speculation - New York City Bond Sale Comes Up to Expectations.

NEW YORK, April 15.—Pressure on the slock market was relaxed today, and while the inovement was irregular, there was no such appearance of general weakness as during the preceding seasion. The buying power was limited, but whenever the market showed signs of giving way, a sufficient demand sprang up to bring about a raily. The range of prices was narrow and trading was on a much smaller scale. The only determined effort to bring about a resumption of the decline, which had been in progress most of the time for a week, was made during the noon hour, when the bears raided the market, concentrating their attack on Union Pacific. The effect of the raid was short.

Mexican affairs played little part in the day's market. Washington news was

Mexican affairs played little part in the day's market. Washington news was watched clossity on the beard room floor, but the general inclination was to await developments. Shares of corporations having interests in Mexico, such as Smelting and Mexican Petroleum, were heavy.

Kansas & Texas preferred was sgain under pressure, breaking to 38%, the lowest figure in 10 years. Selling of this stock was provoked by uncertainty as to what action the directors, who are to meet next week, will take on the dividend. Cuts in the prices of copper metal and oil were reflected in heaviness of the petroleum and copper shares.

The sale of \$45,000,000 New York City 14 per cent bonds about came up to expectations in regard to the prices realized and the volume of bids.

Bonds were irregular. Rook Island showed strength. Total sales par value, \$255,000. United States 2s registered and is registered 15 car call.

13 #15 hc.
Receipts—Flour, 1602 quarter sacks; bar-ley, 7045 centals; potatoes, 2875 sacks; hay, 50 tons. CHICAGO. April 15.—increasing lightness with which the May delivery of wheat was held tended today to make the market as a whofe seem rather erratic. Closing prices were unchanged at a shade off to b \$\mathbb{B}\$ as upon compared with last night. Corn slish had an irregular fluish, varying from the decline to \$\frac{1}{2}\cdot at a closed the same as last night to \$\frac{1}{2}\cdot higher and provisions down 12\mathbb{1}\mathbb{B}\$ lic to \$42\mathbb{1}\cdot c.

It took only a limited amount of buying to force May wheat \$\frac{1}{2}\cdot cent a bushel above the topmost figures of the previous session. The effect was to cause uncashness among seliers of the later months, notwithstanding that crop news was mostly bearish.

Shorts in corn received quite a scare from unconfirmed reports that vessel room had been chartered here for the shipment of 2,000,000 bushels of corn to the East. There was a heavy apread between May delivery and the more deferred futures, especially september, which was freely sold against purchases of May. Oklahoma and Northern Texas sent reports of damage said to have resulted from recent cold weather.

Provisions suffered soverely from liquidating sales by miscellaneous longs. The only demand was that of shorts, who were taking profits.

50-YEAR FRANCHISE ASKED Milwankie Council Balks at Request

of Gas Company. MILWAUKIE, Or., April 15. — (Special.)—The Portland Gas Company made application for a 50-year franchise to lay gas mains in the streets of Mil-ALBANY, Or., April 15.—(Special.)— rate of \$1.25 at the meeting of Milwau-James M. Marks, Oregon pioneer of kie Council last night. The street com-

1852, and resident of Linn County continuously for more than half a century, died last night at his home in Oakland, Cal., at the age of 82 years.

Mr. Marks was born April 25, 1832.
In Washington County, Indiana, and re-

Mr. Marks was born April 25, 1832. In Washington County, Indiana, and resided in that state until 1852, when, with his parents and brothers, he crossed the plains to Oregon. The family settled in Linn County, and Mr. Mar' took up a donation land claim on South Sanliam River, just north of present city of Lebanon. He lived there a few years and then moved to a farm four miles west of Lebanon. Where he passed almost 30 years. In 1891 he moved into Lebanon and four years later came to Albany, residing here until five years ago, when he went to Oakiand.

Throughout his active life Mr. Marks fook a keen interest in public affairs, and was prominent in the community in which he lived. He was especially active in educational and religious matters. He assisted in organizing different rural schools in this county, and was a director in his school district for

was a director in his school district for a great many years. He was one of the organizers of the First Presbyterian Where They Make Mistakes.

Church of Lebanon.

Mr. Marks was married July 3, 1862,
to Mary P. Blain, daughter of Wilson LEWISTON, Idaho, April 15.—(Special.)—'The farmers' institute, which to Mary P. Blain, daughter of Wilson Biath, pioneer Oregon minister and at one time editor of the Oregon Spectator, Oregon's first newspaper. They celebrated their golden wedding at their home in Oakland in 1912. He is survived by his widow and seven children. Alvin W. Marks, of Oakland, Mrs. Eita P. Grove, of Visalia, Cal.; J. Bernard Marks, of Oakland, Mrs. Mary I. Eccleston, of Oakland, Mrs. Wineila Callender, of Burmah, East India: Miss Margaret Marks, of San Francisco, and Williard L. Marks, of Albany, County Clerk of Linn County.

DOE DOVE IN DIC CONTECT that this country is not adapted to the raising of livestock as well as is the orn belt. Mr. Iddings quoted from the 'American Swineherd," one of the most conservative of agricultural papers, to prove that hogs can be raised with greater case in this country, where pasture land is plentiful and where more kinds of crops can be raised than In a letter to O. M. Plummer, secre-tary-treasurer of the Portland Union Stockyards Company and member of

of in the corn belt. DAILY METEOROLOGICAL REPORT.

to the region, north of Mentana. It has caused general rains on the Pacific Slope as far south as San Francisco. The barometer is now rising rapidly ever Oregon and Washington. A small low-pressure area is central over Virginia and it has caused rain in the South and Middle Atlantic states and New England. It is cooler in this district and the Atlantic states and generally warmer between the Rocky Mountains and the Mississippi River.

The conditions are favorable for clearing weather in this district Thursday, with rising temperatures.
