

COLOMBIAN PACT WILL BE OPPOSED

Senator Perkins Declares Colleagues Will Not Agree to Ratify Apology.

PAYMENT HELD TOO HIGH

Publication of What Purports to Be Text of Treaty Causes Criticism—Secretary Bryan Refuses to Make Comment.

WASHINGTON, April 19.—Indications were manifest Saturday that the treaty between Colombia and the United States for adjustment of issues growing out of the separation of Panama from Colombia would encounter opposition when submitted to the Senate for ratification.

Publication of what purported to be the text of the treaty causes much criticism of the convention. Secretary Bryan would not discuss the published text and will withhold the official text until the original copies arrive from Bogota, about May 1. It then will be sent to the Senate for ratification.

Senator Perkins, of California, today voiced vigorous criticism, expressing the belief the Senate would not ratify it.

"I do not believe," Mr. Perkins said, "that the Senate will ever agree to ratify the treaty which makes the United States apologize to Colombia, provides for the payment of \$25,000,000 and for free passage to Colombian war vessels through the Panama Canal. Colombia should apologize to the United States, and \$25,000,000 is just \$15,000,000 too much."

Senator Simmons, of North Carolina, defends the treaty and introduced before the Senate committee that its main provisions were practically the same as the treaty negotiated with Colombia by Senator Root when Secretary of State.

INDIANS TO HOLD POW-WOW

Tribes of All Northwest to Meet in Tacoma May 16.

TACOMA, Wash., April 19.—Announcement was made here today that to complete the organization of the Northwestern Federation of American Indians, an association of fish-eating tribes, a second pow-wow will be held in Tacoma May 16. Between 600 and 1000 Indians, representing 18 tribes, are expected, according to the announcement, and will assemble from Washington, Oregon and British Columbia.

A movement will be launched to obtain the pardon of an Indian of the Quinault tribe named Pope, who killed a Deputy Sheriff sent to arrest him and who was sentenced to from one to 20 years. The Indians contend that Pope was hanged as he was intoxicated with liquor furnished him by a white "bootlegger."

The steam schooner Adeline Smith sailed this afternoon at 5 o'clock for San Francisco with a cargo of lumber.

THREE STUDENTS DROWN

Storm on Wisconsin Lake Capsizes Racing Shell.

DELAFIELD, Wis., April 19.—Three students of St. Johns Military Academy here were drowned today when their racing shell capsized in a storm on Lake Nagawicka. The dead are: W. Kelly, St. Louis; Fred Shrite, Farmington, Minn.; Donald Mogge, Hinsdale, Ill.

DATE OF GRILLING IS SET

Press Club to Have Annual Fun at Candidates' Expense.

The third annual "Candidates' Grill" of the Portland Press Club will be held

Sunday, May 3, at the Portland Hotel. Last year the dining-room of the Portland Press Club was not large enough to accommodate all who wished to attend the "Candidates' Grill" and it is for that reason that the event is to take place in the larger dining-room of the Portland Hotel this year.

At the "grill" all candidates for office are given a chance to explain their platform and why they think they should be elected. They are given only 15 to 45 seconds in which to explain all this, so that between now and May 3 they will be expected to get up their explanations in concise form.

The "stunts" for this year's event are to be numerous, timely and original. As members of the Press Club are allowed to invite guests and the candidates are extended the same privilege a large crowd is expected. The grand type, or toastmaster, for the occasion has been picked, although he has not the slightest idea that he will be selected for the honor. It is necessary to have an exceptionally ready-witted man for this office, as he has to do some rapid-fire thinking and must be a past master in the gentle art of repartee.

A feature of the occasion is the Fry-ing Pan, the official organ of the Press Club. The staff is chosen for its excellence in caustic wit and includes the most prominent writers of the city. This little journal takes a merciless jab at anyone who has any distinguishing feature that offers a point for its stings. Members of the club, candidates and officeholders are targets for its arrows.

TWIN STREETCAR HERE

OLD EQUIPMENT MADE OVER INTO NEW TYPE OF VEHICLE.

Among Advantages Said to Be Possessed Are Greater Seating Capacity and Standing Room.

Enter the twin streetcar. By joining two of its narrow gauge cars together the Portland Railway, Light & Power Company has completed what its officials believe will become generally adopted as a part of its rolling stock.

The new twin car was given its initial test yesterday and operated satisfactorily to a party of officials on board. The car was built in the shops of the company in Portland. It is proposed to build others in the same manner.

Many advantages are said to be possessed by the twin car, principal among which are safety and convenience for the public and the trainmen as well as economy for the company.

There is no chance to board the car or leave it while in motion. It is possible to open the gates only when the car is standing still.

The entrance is at the center, with an exit at either side of the entrance. A low single step and ample platform space are other features tending to greater convenience. Passengers will have the choice of using either the front or rear units of the double car.

It is proposed to install the twin car first on those portions of the system where the choice of using either the front or rear units of the double car is in use. The length over all is 44 feet, with a seating capacity is 64— with plenty of standing-room.

This type of car first was introduced a year ago in Boston. Portland is the second city in the country to adopt it.

JONES URGES HARMONY

UNION OF REPUBLICANS AND PROGRESSIVES ADVISED.

Washington Senator Says He is With President, Right or Wrong, While Trouble is Pending.

NEW YORK, April 19.—Republicans and Progressives were urged to unite their forces by United States Senator Jones, of Washington, in a speech at the dinner of the New York Young Republican Club, tonight. The special election in New Jersey, where a Republican member of Congress was elected, showed what they could do together and what they would do by voting together next Fall, the Senator said.

"We need each other. We can't accomplish anything alone," he exclaimed. Touching the Mexican situation, Senator Jones said he had stood with the President in every effort he had made to keep from going into Mexico. He believed that the President had hesitated because he knew that to carry on a war would take men and these would have to come from the home.

"I want to say that I am with the President all the way, do, whether he is right or wrong," he said. "While the trouble is on we want but one leader and we don't know any more but the President of the United States."

HOW NATURE CURES CONSTIPATION

And Why Drugs Are Being Used Less and Less for That Purpose.

The custom of internal bathing for keeping the intestines pure, clean and free from poisonous matter, curing constipation, biliousness and the more serious diseases which they bring on, has become so universally popular and so scientifically correct in its application as to merit the most serious consideration.

Drugs for this purpose have proven that their doses must be constantly increased to be effective; that they force Nature instead of assisting her, and, once taken, must be continued.

On the contrary, the scientifically constructed Internal Bath gently assists Nature, but is infinitely more thorough in its cleanliness than any drug, no matter what its nature.

The "J. B. L. Cascade," which is now being used and praised by thousands and prescribed by many eminent physicians, is now being shown and explained by Woodard, Clarke & Co., Alder and West Park Sts., Portland.

Its action is so simple and natural as to immediately appeal to all common sense. That is the reason for its great and deserved popularity.
