Treasury Head Explains Why Reserve Bank Cities Were Chosen.

OMAHA WAIL GROUNDESS

In 6000-Word Defense Official Says Organization Committee Was Governed by Wishes of States and Not Single Cities.

WASHINGTON, April 18.—Goaded by the criticisms expressed in Congress, the members of the organization committee of the reserve bank system issued a defense of their location of the 12 regional banks...

Secretary of the Treasury, Mr. McAdoo is chairman, seeks to justify its action in not locating banks at Omaha, Denver, New Orleans and Baltimore.

Republican—108. John B. Coffey; "Flat salary. The interest money for all and all emoluments belong to the county."

District Court, Department 2, \$2400. Republican—118. C. A. Appelpren; "Rights by law and not by technicalities."

While this big spectacle derives its name from the exciting race between an automobile and a railway train, which is one of its principal novelties, it depends mostly upon the prodigality of its numbers, its costumes, and the beautiful women.

AD CLUB RALLIES TO SUPPORT OF ITS CANDIDATE

The future of a city will be injuriously affected by reason of its failure to secure a Federal reserve bank.

"San Francisco and Minneapolis were first choices of the great majority of the National banks in their respective sections, and their financial, industrial and commercial relations and other factors entitle them to be chosen."

Backed by a number of welfare organizations, including the Consumers' League, the Women's Club, the Congress of Mothers, the Parent-Teacher Association, and the People's Institute, a "housing" ordinance to eliminate tenement-houses and slums in Portland will be presented to the City Council...

Represents of various organizations met yesterday with Building Inspector Plummer, City Health Officer Marcellus and the building code revision committee and went over a draft of the proposed ordinance in detail.

The idea was worked out by L. P. Gilmore, head of the department of science, in conjunction with other instructors. Each student will be given charge of from one to three plots as his unit.

"It seemed impossible to serve the great section from Kansas City to the mountains in any other way than by creating a district with Kansas City as the headquarters, or to provide for the northwestern section except by creating a district with Minneapolis as headquarters."

"The only other thing that could have been done with Nebraska under the conditions which presented themselves was to relate it to Chicago, and this seemed to be inadvisable in the circumstances. The Kansas City banks serve a distinctive territory and will serve it more satisfactorily than St. Louis could have done."

"The relations of that territory, on the whole, are much more largely with Kansas City than with any other city in the Middle West with which it could have been connected. It will, of course, be recognized by those who are informed that of the four cities Kansas City is the most dominant banking and business center."

Volumeous tables of financial statistics are submitted in support of these arguments.

"Of the preference of Atlanta to New Orleans the committee says: 'It will thus be seen that if the committee was to give weight to the views of business men and bankers in the section of country affected, to consider the proposed New Orleans as the location for a reserve bank to serve either the western or eastern part of the district that city asked for.'

"The course of business is not from the Atlantic seaboard towards New Orleans, nor largely from the State of Texas to that city, and if Dallas and Atlanta had been related to New Orleans, a better grounded complaint could and would have been lodged by them against the committee's decision than that made by New Orleans."

A similar defense of the location of a bank at Richmond instead of Baltimore is given.

ODD BOYS' FARM BEGUN

EACH PUPIL GIVEN PLOWED PLOT TOLD TO MAKE MONEY.

Seed Will Be Sold and Products Then Bought, Books Be Kept, Essays Written and Prizes Given.

MONMOUTH, Or., April 22.—(Special.)—An unusually unique though practical garden contest was begun this week among the boys of the Oregon Normal Training School here, when a three-acre tract of land, lying between the Normal building and Mouth High School, was divided into plots 10 by 12 feet and the ground cultivated.

The idea was worked out by L. P. Gilmore, head of the department of science, in conjunction with other instructors. Each student will be given charge of from one to three plots as his unit.

Spring Time—Remember Is Blood Cleaning Time

Entire System is Clogged—Great Hordes of Germs Congest the Blood to Cause Pimples, Boils, Carbuncles, Eczema and Other Skin Diseases.

S. S. S. Gives You Backbone, Nerve Strength with Pure, Invigorated Blood.

If you feel thick-headed, legs a-weary, tire easily and feel utterly used up your blood needs a bath.

It is astonishing how quickly you brace up after using S. S. S. After the long nights of winter have slowed you down, made your blood sluggish, and filled your system with the cramps, aches and aches of thick, stagnant blood you actually require the influence of S. S. S.

There is scarcely a drug store or general store anywhere but what keeps S. S. S. in stock. It is prepared in one of the world's best and largest laboratories and has maintained the health of a host of people who use it every spring and fall because it gives them a feeling of renewed strength, puts the look of health in the eyes and prints the flesh with the ruddy glow of health.

The human body, like the habitation of man, is closed all winter and becomes clogged with stagnant impurities. In the spring nature attempts to overhaul the blood and thus you see pimples, boils, carbuncles and various skin afflictions breaking out to relieve the congestion within.

The remarkable manner in which S. S. S., the famous blood purifier, clears the system is a most interesting study.

Authority was granted by the City Council here last evening for the letting of the contract for the erection of a \$10,000 City Hall building to Gilman & Co., of Portland.

VANCOUVER, Wash., April 22.—(Special.)—A post mortem examination of the body of David Murray, found floating at the foot of Washington street yesterday, disclosed that he had met death by accidental drowning. The artificial limb which he wore contained sufficient cork, it is believed, to force his head under water. Nothing further concerning Murray could be learned.

Strong Statement Made by Portland Man Endorsing Plant Juice, the New Tonic.

Many people in Portland know M. D. Green. He lives on Ninth street. Mr. Green came here from Illinois, where he practiced dentistry for thirty-three years. He has lived in Portland for the last two years and is engaged in locating oils and minerals. He said:

I have suffered a great deal with lumbago and kidney trouble, and have been so lame across my back for the past year and was in so much pain that I could hardly get about. I had tried many things, but received very little relief. I heard of Plant Juice through an accident and thought I would try it. I have not quite finished my first bottle, but feel a wonderful improvement already. I am going to keep on with the treatment until I am entirely recovered. I had begun to think I was never going to get any relief, so you can judge for yourself how grateful I am.

Plant Juice is a wonderful tonic and strengthener for all ailments of the stomach, kidney and liver. You are tired and worn out from overwork. You worry, have lost all ambition and energy. If you suffer from torpid liver, biliousness, indigestion, headache, rheumatism, pains across the back in the joints, too scanty or too highly-colored urine, dizzy spells, spots before the eyes, poor circulation, general numbness; if you wake up tired in the morning, with no appetite, coated tongue, feeling of lassitude, try Plant Juice. It will put you right on your feet and the world. For sale by The Owl Drug Company.—Adv.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GIRLS TABOO X-RAY GOWNS

Graduates of Jefferson School Put \$10 Limit on Dresses.

At a meeting of the girls of the June 14 class of Jefferson High School, presided over by the vice-president, Miss Helen Phillips, a \$10 limit was placed on all graduation dresses.

The purpose of the contest is to train the pupils in questions of buying and selling, supply and demand, and to give them practical business knowledge that will serve them in later years.

Not a dissenting voice was heard when the motion was voted upon. Many economical suggestions were offered. It was decided that simple hair dresses, slits skirts and other "modern-gowns" were ordered tabooed.

A sign will be placed by the garden of the pupil who stands at the head of the list at the end of each week.

The students in the agriculture class of the Oregon Normal School also will have gardens on a plan similar to that of the Training School.

Seaside Paper Installs Linotype. SEASIDE, Or., April 22.—(Special.)—E. N. Hurd, of the Seaside Signal, has just installed a new linotype of a late model in the Signal office. The size of the paper will be increased as soon as the new machine is sufficiently mastered.

What is Woman's Beauty but Health

And the Basis of Her Health and Vigor Lies in the Careful Regulation of the Bowels.

If woman's beauty depended upon cosmetics, every woman would be a picture of loveliness. But beauty lies deeper than that. It lies in health.

The majority of cases the basis of health and the cause of sickness, can be traced to the action of the bowels.

The headaches, the lassitude, the sallow skin and the lusterless eyes are usually due to constipation. So many things that women do habitually conduce to this trouble if they do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough.

But whatever the particular cause may be it is important that the condition should be corrected.

An ideal remedy for women, and one especially suited to their delicate requirements, is Dr. Caldwell's Syrup Pepsin, which thousands of women endorse highly, among them Mrs. C. S. Vance, of 211 S. Ray St., New Castle, Pa.

At times she had spells of indigestion so severe that she thought she would die. Syrup Pepsin regulated her stomach and bowels and she attributes her excellent health today to this remedy.

MRS. THOMSON TELLS WOMEN How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

PHILADELPHIA, Pa.—"I am just 52 years of age and during Change of Life suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound. I had no pains at all and could do my household work and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use any letter in any way."—MRS. THOMSON, 649 W. Russell St., Philadelphia, Pa.
