Throughout the Western states operations have been lighter in the past week than in the few weeks preceding. This is attributed to the fact that shearing has begun in sections where medium clips predominate. ctions where medium clips predominate estimate has been made of the purchases on contract at 95 per cent in Utah, 50 per cent in Nevada, 60 per cent in the Triangle, 50 per cent in Wyoming and the same proportion in Montana. In Oregon only a small percetage of the clip was bought a small percetage of the clip was bought on the sheep's back.

The last prices paid in all sections indicate a sound market. At Mack, Utah, a quantity of shorn wool was pooled and brought, it is reported, 20% cents at a scaled bid sale. Twenty cents flat was paid for another fot in that section. Montana growers are asking 19 and 20 cents, but buyers halk at these prices. A lot of 70,009 pounds of Saco district wool was contracted for at 18 cents.

WEATHER CONDITIONS.

The Great Salt Lake disturbance now forms part of a large low-pressure area which overlies nearly all of the Rocky Mountain States. A high-pressure area of moderate proportions is central over the Lake Region, and the barometer is rising rapidly over California. Showers and thunder storms have occurred in nearly all of the Southern States west of the Missiasippi River, including California and Arizona. It is warmer in Montana, the Dakotas, Nebraska and along the Atlantic Coast from Massachusetts to the Virginias. The temperatures have fallen in the Upper Lake Region, Kansas, Oklahoma and Northern Texas. WEATHER CONDITIONS. Region, Kansas, Oklahoma and Northern Testas.

The conditions are favorable for showers in this district Thursday with lower tem-peratures in Northwestern Oregon, Wash-ington and Northern Idaho.

FORECASTS. Portland and vicinity—Thursday showers and cooler; westerly winds.
