

### DEPOSED MAYOR OF COPPERFIELD FREED

Governor Denounced by Prosecution and Defense Before Baker County Jury.

VERDICT TAKES 5 MINUTES

Star Witness, One of West Faction, Contradicts Himself on Stand in Accusing H. A. Stewart of Giving Away Liquor.

BAKER, Or., April 23.—(Special.)—H. A. Stewart, the deposed Copperfield Mayor and saloonman of that place, whose saloon was closed by Governor West's militia, was today found not guilty by a Baker County jury of giving liquor to a minor. The jury was out five minutes after a sensational trial and arguments, in which both District Attorney Godwin and Attorney James Nichols, who represented the saloonman, repeatedly referred to Governor West as a lawbreaker.

The state's case crumbled when Sam Aklin, one of the West faction at Copperfield, went back on his own testimony, attempted to give other testimony damaging to Stewart and contradicted the other witnesses for the prosecution.

Harold Burns and Rupert Pritch, sons of bitter enemies of the saloonman, had testified that Mayor Stewart went outside the saloon and gave them liquor the night Martin Knezevich's saloon burned last May.

Aklin contradicted himself. Aklin corroborated this testimony. Then, after the defense had shown that Aklin had gone out with liquor for the crowd which fought the fire, he said that Stewart had told him to take it out to the boys.

District Attorney Godwin made a plea for conviction on the evidence of the boys. In reviewing the entire Copperfield case, he would like to spare Governor West, and once said: "Gentlemen of the jury, I tell you that when Governor West declared martial law in Copperfield, in my opinion, one of the greatest lawbreakers in the state."

He declared that the Governor had acted without his powers, and told how he, as District Attorney, had been trying to enforce the law and how, he said, he had been hampered by the Governor. He asked for a conviction in spite of, not because of the Governor.

Mr. Nichols more bitter. Attorney Nichols was even more bitter against the Governor, who, he declared, had violated his clients' constitutional rights.

"I would like to tell Governor West," he said, "that when he drew a great throng in the East to hear him lecture, that those people went not to hear a great man, but to hear and see a freak: a man who had dared to trample on the Constitution. I would like to put that statement up against his conceit. It would not affect him, however."

The cases against William Wiegand and Tony Warner will be dismissed tomorrow morning, the evidence being the same in all cases.

MAN CHASED FOUR MILES  
Detectives Make Arrest After Walking and Running After Suspect.

Two detectives walked and ran four miles early yesterday morning before they caught John Randa, who is charged with the theft of \$150 worth of belting from the Monarch Lumber Company's plant at Kenton.

Detectives La Salle and Abbott followed the man when he started his wagon to the cache of the stolen goods in the sand near the O. V. R. & N. bridge over the Columbia. When he reached the long trestle, over the sloughs he whipped up his horse and the detectives were forced to run to keep sight of him.

When he arrived at the cache they arrested him. A warrant charging robbery was filed. He will have a hearing today.

from the mine were fired about 6 o'clock last night.

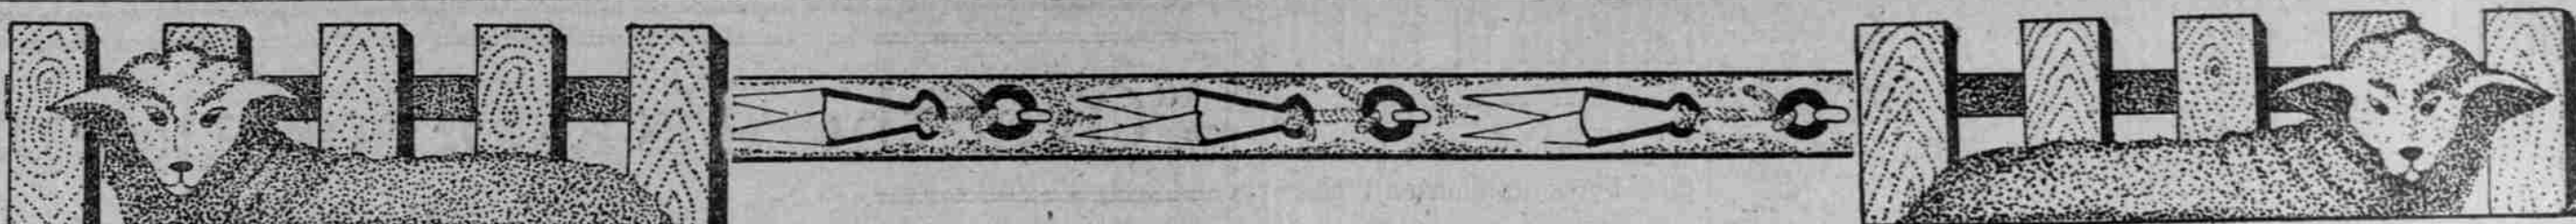

The strike leader admitted that both entrances to the workings—the main entrance and the air shaft—had been blocked by dynamite blasts. The fan, he said, was out of commission.

"However, there is no danger from suffocation," he declared. "There is enough fresh air in the mine to last a week. All the fumes from the dynamite explosions came outward and did not enter the mine."

"A party of strikers has just left for the mouth of the mine to rescue the imprisoned people," added the leader.

"We are not murderers and we want to get them out in safety if they will agree to lay down their arms and quit the strike district. Yesterday we captured a pit boss—I didn't think enough of him to get his name—and his wife and another man. We gave them an escort of 25 of our men, took them to the railroad station and put them on a southbound train."

Three Strikers Killed.  
Snayder said three strikers were killed yesterday by shots from inside the mine. Their names he gave as J. P. Gomes, Ben Vigil and Nick Schumich. He said he was not sure that his men

had killed any of the defenders, although he admitted that Superintendent William Waddell was supposed to be dead. He said he thought President Simpson was with the party in the mine. He knew nothing, he declared, as to the fate of Mrs. Waddell.

The strike leader said nothing had been seen of the approaching militiamen from Denver.

"I guess we'll be able to let them know we're alive," he added grimly. A message from Major Hamrok today said that the Primrose mine had been burned and dynamited, that the women and children were thought to have been taken away before the fighting began and that the men had retreated to Rouse.

AUTOMOBILE LISTS GONE  
Records That Identify Owners Disappear From City Archives.

Either through theft or carelessness the city has lost its books containing the list of automobile numbers issued by the state in December and January. As a result it is impossible for city officials now to tell the names of the owner of an automobile by its number, if the number was issued during those months.

It was reported that a man, who is known to some of the City Hall employees, asked to look over the books yesterday and that he either stole them, carelessly carried them away or misplaced them, while those in charge were not looking.

WHY DOCTORS NO LONGER CLAIM TO "CURE" PEOPLE  
A few years ago it was a common thing for the family doctor to say, "I will cure you in a few days." This cheerful prophecy often gave the patient new hope and courage but it is no longer good form. Doctors still "cure" malaria and a few other troubles in which their medicines have a direct or "specific" action on the virus of the disease. In other cases they simply give supporting medicines and keep up the strength of the patient until nature effects a cure.

Dr. Williams' Pink Pills cure chlorosis and other troubles due to thin blood because they have a specific action on the blood, building it up, purifying and enriching it. This direct action on the blood also makes them the best supporting and strengthening medicine. If you are thin and weak, breathless after slight exertion, if you have palpitation of the heart, gas on the stomach, cold hands and feet, if you are nervous and easily irritated and show other signs of weakened vitality, try these strengthening pills at once and let the rich, red blood cure you. Get a box today at the nearest drug store and begin at once to build up your health. Write now to the Dr. Williams' Medicine Co., Schenectady, N. Y., for the free booklet, "Building Up the Blood."—Adv.

Addresses were given by Mrs. J. C. Scott, Mrs. S. J. Kerr and others. City Superintendent C. H. Boyd responded. Talks were made by Miss Nellie Stevens and Miss Maud McPherson, both teachers. Mrs. G. L. Buland, president of the Hawthorne Parent-Teachers' Association, spoke on "The Relations of the Parents to the Teachers." A musical programme was rendered. Mrs. O. H. Brown and Mrs. J. M. Shaw were the reception committee. Mrs. Lula Brooks, Mrs. Carl Nelson and Mrs. Edna Hollenbeck were the refreshment committee.

MOSCOW, Idaho, April 23.—(Special.)—The School Board in session last night in electing teachers for the ensuing year only made such increases in salaries as seemed absolutely necessary to maintain efficiency. The increases total approximately \$500.
