

INCREASE PRICE OF ICE NATION WIDE

Rise in Portland Follows Similar Action by Dealers in Cities of Middle West.

INQUIRY TO BE PUSHED

While Authorities Prepare to Seek Evidence of Combine, Consumers Buy Less and Talk of Municipal Plant is Heard.

When it comes to paying increased prices for ice, Portland is not alone among the cities of the Nation.

The upward tendency is general throughout the country. In fact, the increase was not leveled in this city as early as in places in the Middle West.

In St. Paul and Minneapolis the ice dealers shot up the prices as early as two years ago. The wave has since then had similar experiences in the last two or three years.

Kansas City is paying more for its ice now than it did two years ago. The wave has been sweeping westward gradually.

As "necessity is the mother of invention," so the exorbitant price of ice has given birth to many domestic and civic economies.

Municipal Plant Possible. To combat the effect of the advance in ice, Portland is not alone among the cities of the Nation.

Some people who started using ice as early as six weeks ago are finding out that they cannot get along very well even now without ice.

Cooling closets for food and careful protection from the sun, it is pointed out, preclude the necessity of using ice in many households, excepting in the hottest weather.

Some Do Without Ice. In fact, there are many families in Portland who do not use ice at all.

A lot of people also have found that by practicing conservation they can effect a substantial saving in their ice bills.

By keeping refrigerators away from walls exposed to the sun ice can be made to last longer.

Ice consumers also are advised to weigh their ice. Experienced users say that a scales kept convenient to the refrigerator will pay for itself.

Authorities Suspect Combine. Although the several ice dealers declare that the recent increase is only an unhappy coincidence, city authorities believe that some sort of a combination exists.

Commissioner Bigelow said last night that he will get into the matter of whoever has charge to make or through investigation to determine whether a combination in restraint of trade actually exists.

Simultaneous Rise Peculiar. Some of the ice men declare that their earnings in the last few years have been so slight that the late advance was an economic necessity.

Granting that there is no combination, Commissioner Bigelow thinks that there is and has been a pretty well defined "understanding" among the dealers.

The City Hall is besieged every day by complaints from consumers suffering under the additional burden of higher prices for ice, and these, together with the suspicion that a combination exists, are prompting the city officials to action.

NATIONAL LEAGUE.

TWO LITTLE BOYS LOSE THEIR LIVES

Drowning and Truck Accident Come 15 Minutes Apart in Same Vicinity.

PULMOTOR USED IN VAIN

Edwin Hensley, Eight, Falls Into Stagnant Pool and Boyce Logan, Six, Jumps Off Dray and Wheels Crush Out Life.

Two little boys lost their lives yesterday within 15 minutes of each other in the same vicinity.

Edwin Hensley, years old, was drowned in a stagnant pool of water in the block bounded by East Yamhill and Belmont, East Second and East Third streets.

Boyce Logan, 6 years old, was killed by a truck driven by Alex Barclay at Union avenue and East Pine street.

Edwin was out on a raft in the miniature lake and fell into six feet of water. Herbert, frightened, ran home

OREGON POLITICAL GOSSIP

Total of 97,008 Official Ballots and 111,330 Sample Ballots Required in Multnomah County for Primary Election—L. R. Stockman, Candidate for State Engineer, Campaigning Here—Progressive Platform Committee to Meet Today—Democrats Honor Judge Stevenson—News of the Candidates.

A TOTAL of more than 300,000 ballots, counting both sample and official ones, will be required in Multnomah County for the primary election of May 15.

The contract for printing the ballots, which has just been let, calls for a total of 97,008 official ballots for voters of the three parties, Republican, Democratic and Progressive, represented in the primary, and of 111,330 sample ballots.

The official ballots will be divided among the three parties as follows: Republican, 68,081; Democratic, 22,775; and Progressive, 6,152.

In the printing of the ballots, Glass & Frudhomme, who have been awarded the contract by County Clerk Coffey for \$1200, estimate that three tons of paper—approximately 6000 pounds—will be required.

The fact that there will be 118 names on the Republican ballots; 27 names on the Democratic ballots; and 10 names on the Progressive ballots, is not the only thing that is interesting in connection with the ballot order.

L. R. Stockman, of Baker, Republican candidate for State Engineer, is in Portland to put in some campaign work in Multnomah County.

George M. Brown, of Roseburg, Republican candidate for Attorney-General, will return from a campaign tour to Multnomah County.

The Oregon Direct Legislation League has endorsed the initiative amendment prepared by Attorney-General Crook for the November election.

"R. L. Booth has no objection to the primary for the Republican nomination for United States Senator, but he should nevertheless be nominated for a large vote for the moral effect in the general election campaign."

Grant B. Dimick, candidate for the Republican nomination for Governor, spoke at Springfield yesterday and will address voters at Albany today.

W. A. Waller, candidate for the Republican nomination for United States Senator, is in Portland to put in some campaign work in Multnomah County.

George M. Brown, of Roseburg, Republican candidate for Attorney-General, will return from a campaign tour to Multnomah County.

THE TELEPHONE ALWAYS ON GUARD

THERE is never a moment, day or night, when your Bell telephone is not a protection.

In the busy hours of the day and the silent watches of the night, the switchboard operator is always ready to answer a call.

The telephone is as much a part of the protective system of each community as the police and fire departments.

There's always a feeling of security in the knowledge that close at hand is the means of calling aid quickly when you most need it.

More than 70,000 cities and towns are protected day and night by the Bell Telephone system.

7,500,000 Bell telephones are on guard. In thousands of rural communities it is the chief reliance in emergencies and times of danger.
