C. L. Heitman, of Rathdrum, and Senator Davis Are Mentioned as Possible Aspirants but Both Keep Friends in Doubt.

BOISE, Idaho, April 27 .- (Special.)-That the Republican primary will not be without contest for the nomination for Governor is evident from news from the southeast. Judge James M. Stevens, of the Sixth District, at ohe time Lieutenant-Governor, has notified his friends he will be a candidate for

the Republican nomination.

The news created interest in local political circles. It is significant that Judge Stevens did not make up his mind to enter the race until after he had conferred with political leaders beer.

Judge Stevens recently announced he would not be a candidate to succeed himself as Judge of the Sixth District. himself as Judge of the Sixth District. That there has been activity on the part of Republican party leaders to bring out candidates is no secret. Those mentioned were Senator D. W. Davis, of American Falls, and C. L. Heitman, of Rathdrum. It was said here by Lieutenant-Governor Herman H. Taylor that Mr. Heitman had informed him he would not be a candidate. Pressure is being brought to bear on him, however. The "drys" are said to be particularly active in urging him to run. ing him to run.

There still is a great deal of specu-lation over what action Senator Davis will take.

Paul O. Gillette, the colored chef of Evelyn Nesbit Thaw's private car, Gleneyre, has been in Vera Cruz and Tampico, but he isn't particularly anxious to go there again. In fact, he remarked while on the siding at the Union Depot, that he believes Mexico is a good place to stay away from just now, "I'm too old for that sort of thing," he said. "If I were younger and more spry 'twould be different. Two years ago last October I went on a trip to Mexico in a private car sent by a syndicate of Pittsburg millionaires, who owned oil wells in that country. At that particular time Felix Diaz was trying to capture Tampico and we were ordered to move our car every night 25 or 30 miles down the track to get out of the way of possible trouble."

Gillette was born in Charlottesviffe, Va., which he calls the garden spot of the world, over 41 years ago. He is real fat and hearty. For the past 15 years he has been first chef in the Pullman service, which has brought him in touch with practically all of the Presi. eyre, has been in Vera Cruz and Tamman service, which has brought him in touch with practically all of the Presi-dents and prominent men of the United States.

On tours of the country he has cooked for Presidents Cleveland, McKinley, Roosevelt and Taft, as well as William Jennings Bryan and other dignitaries. On several of these trips he came rough Portland. "President Cleveland was the easiest

of them all to haul," reflected the chef.
"But all fed well and were nice to us
fellows."

He admitted that Bryan drank grape juice exclusively and profusely on his campaign tours, but would not commit himself as to the private habits of Colonel Roosevelt or the other great men for fear, as he said, that he might say something that would get him in trouble with the Pullman Company.

System Awakens With Pure Blood

Mind and Body the Change is Wonderful.

After the depression, the stagnation, the despair over some blood disorder, it is fine to wake up to what S. S. S. has accomplished for you after a few days' use. It puts the nerves and blood in harmony; it arouses the cellular activity of the liver, kidneys, lungs, and other excretory organs to remove from the blood the body wastes that cause nearly all sickness.

This means that all decay, all breaking down of the tissues, is checked and repair work begins. S. S. S. has such influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other. More attention is being given to catalytic medicine than ever before and S. S. S. is one of the highest achievements in this line. For many years people relied upon mercury, todide of potash, arsenic cathartics and "dope" as remedies for blood sickness, but now the pure, vegetable S. S. S. is their safeguard.

You can get S. S. S. in any drug store, but insist upon having it. The great Swift Laboratory in Atlanta, Ga., prepares this famous blood purifier, and you should take no chance by permitting anyone to recommend a substitute. HER FROM YEARS OF SUFFERING Enhanced By Perfect Physical Health.

> The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

> There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes (4) once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
