It was one of the rare occurrences in American history when a state found itself impotent to assert its authority, but the President, in a telegram to the Colorado Governor, expressly stipulated that the Federal troops would miners are known to be dead, 59 were confine themselves to maintaining order only "until the state can reassert in two mines, both burning flercely, as its authority and resume the enforcement thereof."

Colorado members of Congress say the mere presence of Federal troops BROOKLYN MAN CHAMPION will restore normal conditions and prevent rioting. Efforts of the Federal Government to settle the strike thus far have failed. On this point, the President made it clear that Federal troops were being sent merely to preserve order and not to interfere in the strike controversy itself,

Strike Issue Not Involved.

"I shall not, by the use of the troops," telegraphed the President to Governor Ammons, "or by any attempt at jurisdiction, inject the power of the Federal Government into the controversy which has produced the present situation. The settlement of that controversy falls strictly within the field of state power."

The President asked that the militia be withdrawn temporarily until the State Legislature, which is to meet next Monday, considers the situation and arranges for it to resume its police duties in the state.

The situation in Colorado occupied the President and his Cabinet at a long meeting, after waich the President's telegram to Governor Ammons and the formal proclamation calling on malcontents to disperse were made public.

Purchase of Stocks Proposed. The Colorado situation was brought day in the Methodist church. About to the attention of Congress again, 25 delegates were present representing Representative Bryan, of Washington, introducing a bill declaring that a state of anarchy and insurrection against the United States exists in the state and directing the President, as Portland May 5 and 6. commander-in-chief of the Army, to use the Federal troops to restore order, and that he acquire control of the ment. stocks in mining companies affected.
