Foreign Business in New Winter Wheat Aggregates 500,000 Bushels-Covering by Shorts Turns Corn on Up Grade,

CHICAGO. April 20.—Development of a good export demand for new-crop Winter grades had a rallying influence today on the theat market as a whole. In the end prices were firm at the same as hast night to Mchigher. Other speculative articles showed a net gain all around, corn Mc to Mc. cats Mc to Mc and provisions 5 to 30c. Export sales of new-crop Winter wheat here aggregated 500,000 bashels. Improved feeling on the built side of the wheat market was preceded by a temporarily successful drive by the bears.

cessful drive by the bears.

Important covering by conspicuous shorts turned corn prices up-grade after an early period of weakness. Efforts to dislodge holders of May options were for the most part a failure, although deliveries tomorrow promise to be large.

Outs had a rally with corn and wheat. It was said most of the deliveries of outs would be taken by shippers.

Provisious felt the effect of the revived strength in grain. During a considerable part of the day, however, prices suffered from the weakness of the log market, and frem a disposition by packers to sell on the hard spots.
