FEDERALLEAGUE HAS EFFECT ON CHAMPS

Poor Early Showing of Giants and Athletics Explained by Christy Mathewson.

PLAYERS TOO CONFIDENT

Stars More Concerned in Making Bigger Money Than in Playing, Says McGraw--Salaries to Drop if Federals Are Recognized.

BY CHRISTY MATHEWSON.
The Glants' Star Pitcher,
NEW YORK, May 4.—(Special.)—The Federal League is affecting baseball. I hold that it is largely responsible for the upsets in the dope so far, and I maintain that it has had a good deal I maintain that it has had a good deal to do with the paor starts of the Athletics and Giants, both teams expecting to start away in front, and each having gotten off to a bad beginning. Few of the bailplayers themselves realize this, but nevertheless the new league is doing it.

Why aren't the Giants and Athletics now comfortably ahead of the field as generally predicted before the season opened? Why? Well, both teams are afflicted with overconfidence and overcockiness.

Now, as I have said, the ballplayers themselves do not realize this fact.

themselves do not realize this fact. But away back in their heads they think that, if they don't make good, the backers of the Federals are standing with fountain

pens poised ready to hand them big to hand them big checks to sign with the new league. Because the members of each of these clubs have won several championships they think that they are stars and can loaf and always win in the end. This feeling has taken more pennants from clubs

next Winter." That is in the back of the image and their needs now, though perhaps they looked on in the light of a life-saver just the same looked on in the light of a life-saver just the same. That is just where most of the ball-players are mistaken. The Federal League has met, but there was nothing said in the conditions in my opinion. Some of the clubs are bound to drop down toward to fire about our dictating what while most one in the letter about our dictating what while was to receive."

The interest in the war news and the conditions in Mexico, if the war drags out, will hurt the attendance at all the games this season, but the new league, which has not yet established itself, will be the greatest sufferer from this as a matter of course. I also believe the attendance will fall off rapidly, and I still believe that the league won't last strong through the season.

However, if it breaks so that the Feds are taken into organized base-ball, the salaries are bound to be chopped, and if the league cracks, organized baseball can tear into its payroll, as it will. Therefore, players cannot yet afford to bank too strongly on the chance of jumping to the Feds. But this possibility, with overconfidence, is burting both the Giants and the Athletics.

"We expect to win at least 50 per cent of our games during the three weeks trip away from home. The fortnight of hot weather in Los Angeles impending will do wonders for the Beavers."

The above optimistic declaration by Walter McCredie, coupled with the fact that Harry Pape, a veteran pitcher, is to join the Portland Coast League Clubnext week, will serve to buoy local thopes until the Beavers do some actual demonstrating against the Angels.

Manager McCredie took his entire outfit, except Pitchers Peet and Hanson and Catcher Perkins, when he said in a game.

I week are not supposed to hold their opponents runless, and apparently they have been doing their share. Hi West lost two games of the three by scores of 3-2 and 2-1. Krause lost one game 4-2. Martinoni held the Seals to three runs, winning 2-1, and Krause beat Pernoll 5-2 on his comeback.

So, on the whole, nobody has any complaint against Mack's pitchers as they appeared against the Seals.

If the sluggers had been hitting at the right times Portland would have taken about five games. Only once did the Seals score more than three runs in a game. ELSIE JANIS MAKES HIT American Actress Refuses to Act in

WOMEN LAWYERS FAVORED English Politicians Support Plan to

Permit Both Sexes to Practice. LONDON, May 2 .- (Special.) -Politi-

cians of all parties, including Sir John Simon, the Attorney-General, and Viscount Haldane, the lord chancellor, have given their support to a movement to admit women to practice as lawyers. The only opposition now comes from the Incorporated Law Society, the chartered body of solicitors. The question will be put to a test in parliament during the present session if the Government can find time.

Sir John Simon announced his support of the movement in a speech which he delivered in favor of votes for women, and Lord Haldane backed him up when a deputation waited upon him urging that the change should be made immediately. The deputation laid stress on the fact that in America and in most progressive countries women were allowed to practice, and even in England women were admitted to practically every other profession.

All the universities, with the exception of Oxford and Cambridge, admit women to the law degree. The only objections seemed to be that women would enter into competition with men and that they were unsuitable by nature for the work of solicitors.

Lord Haldane advised the women to watch their chance and when there was a lull in the House of Commons to put their proposal forward. NORTHUP NAMES AIDES LEWIS, CHAMBERLAIN AND DUI
