Rose Festival Already Sure of 65 Elaborate Entries in Record Parade.

PAST IS TO BE ECLIPSED

Grand Ball at Oaks, in Hands of Society Leaders, to Be Imposing Function—Little 'Rosebuds' on Edge for Their Event.

At a rally and roundup held last evening in the Rosarian rooms of the Commercial Club, a summing up was made of all the entries planned and under way for the section of the Rose Festival's big daylight combination parade, the day's feature for Friday, June 12.

President Charles F. Berg, of the Rose Festival Auxiliary, who called the meeting, reports excellent results, with 42 organizations already at work on extensive and elaborate entries and more tentatively planned. The industrial, commercial and civic bodies of the auxiliary report similar progress, including the 'Rosebuds' who will be the longest and most brilliant combination parade in the history of the eight festivals.

Chairman Guy W. Talbot, of the festival "social functions" committee, is elated over the progress made in arrangements for the grand ball to be given at the Oaks, on Thursday evening, June 11.

Society Leaders Working Hard. Portland's exclusive society leaders, under the direction of Mrs. Helen Ladd Corbett, chairman of the section of general arrangements, are lending their best efforts to make the first of the annual series of Festival balls an affair long to be remembered. All local fraternal and other organizations are co-operating in the work of distributing invitations, cards, and a splendid attendance already is assured.

Interest in the queen election and tour contest is being whetted anew. The big, be-ribboned, sealed ballot box for the festival queen election is already in the repository of several big blocks of votes and by the closing hour, Saturday, at 11 P. M., the excitement and suspense as to the outcome will be intense.

The contest manager announces that no new application will be received, as the ballot box has been sealed. Only candidates whose names were printed in the semi-final tally Monday will be recognized officially.

Little "Rosebuds" All Excitement. The "Human Rosebud" parade, always one of the most appealing features of the annual Rose Festival, gives promise of surpassing the records of all former years in the number of marching children, beauty and interest and general effectiveness. Under the supervision of Superintendent of City Schools Alderman, also a member of the festival board of governors, the enthusiastic support and co-operation of all teachers and parents all over the city has been secured.

Physical Director of Schools Robert Krohn, in his former years, will direct the drilling of the children and also the parade. He enthusiastically declares that the "Human Rosebud" parade will surpass anything of its kind ever attempted in the Northwest.

The children will gather at the Holiday School, near the starting point at Gladay and Grand streets. The parade will start promptly at 10:30, proceeding up Grand avenue to Hawthorne, where it will systematically disband. Subsequent to that time, in charge of teachers, will transport the children to their different schools.

There also will be ample grandstands and parking arrangements for automobiles and other vehicles.

WAR PICTURES POPULAR. Scenes Taken on Firing Line Are Shown at Empress.

Moving pictures of the Mexican war now being presented at the Empress are to be turned over to the Army and Navy by Dr. Charles A. Pryor, Associated Press correspondent, who took them on the firing line. Dr. Pryor noted that the pictures created great enthusiasm in El Paso, and during the week of their exhibition there the recruiting offices of the Army and Navy and the National Guard did a rushing business.

In the first exhibition of the film at El Paso hissing of the audience literally forced Huerta's picture from the film and Villa's picture was allowed to remain; audiences applauding the rebel chieftain at every show. At the Empress here Villa is second to the United States fleet in popularity.

The film shows the rebels in skirmish battle, several views of refugees are shown, the capture of a sniper is an interesting feature and realistic hospital scenes cause a few shudders. Burning of the rebel dead also was filmed by the movie operator, and a badly wounded rebel is shown being attended by the attending surgeon dress his injured jaw.
