Holdings by Syndicate--Pressure Against Coalers Toward Close of Session.

NEW YORK, May 13.—Menotony ruled unchallenged on the stock exchange today. Even professional tracers, who usually are able to find something in a dull day's news to advance as a plausible reason for buying or selling, retired from the field and the market was at a standatill much of the time. Most stocks held throughout the senseion within small fractions of yesterday's close.

seasolon within small fractions of yester-day's close.

In the first hour prices hardened, but the unturn was checked. Toward the close the undertone became heavier, influenced by pressure against Canadian Pacific and Lehigh Valley. Selling of Canadian Pacific was said to be liquidation of holdings taken over by a syndicate to assist a London house which was in difficulties. Slight losses were the rule at the end of the day.

Total saies of bonds, per value, \$1,550,-090. United States bonds were unchanged on call,
