Two of Victims of Accident at Bybee Bridge Approach Near Medford May Die.

ALL PINNED UNDER CAR

Dr. Lawrence Hill and Son Are Rescued and Taken to Hospital. Wives of Both Are Injured, but Less Seriously.

MEDFORD, Or., May 14.—(Special.)—Four persons were seriously injured, two perhaps fatally, this afternoon when an automobile driven by John Hill, of this city, skidded over the grade at the approach to the Bybee bridge.

The injured are Dr. Lawrence Hill, compound fracture of the skull and other injuries, condition precarious; John Hill, son of Dr. Hill, broken ribs and internal injuries, condition precarious; Mrs. Lawrence Hill, three broken ribs on right side, bruises on lower limbs and abrasions; Mrs. John Hill, slight scalp wound. The accident occurred about 4:45 o'clock. The machine in going around a pile of material left in the road by the postal road crew, ran onto a slight incline. The ground was wet from the showers and the machine ran over the embankment, turned over and pinned the occupants to the ground.

Several features, however, will be put on by skilled acrobats and will be of a professional standard.

The physical department has had the most successful year in its history. Some of the classes, including the business men's groups, will meet regularly throughout the summer.

The plan was favorably received, and Mayor Morrison called a mass meeting at Coquille for Saturday. The people of Bandon and other river towns are being urged to attend. The indications are that the Coquille Valley will give general support to the proposed line.

BOISE FILING MADE

Butte to San Francisco Line Capitalized at \$125,000,000.

PERSONNEL NOT DIVULGED

Assurance Given That Work on Road Will Start Soon and Route in Idaho From Montana to California Is Forecasted.

BOISE, Idaho, May 14.—(Special.)—Recapitalized for \$125,000,000 and incorporated for a period of 50 years, the Butte, Boise & San Francisco Railway Company filed articles of incorporation today with the Secretary of State and the County Auditor, taking the first step in the plans for building a railroad from Butte to San Francisco, via Boise. These are amended articles of the Butte, Boise & Winnemucca Railroad filed about six months ago.

The filing was made by L. O. Leonard. He refuses to divulge who is behind the new corporation or to give out the plans of the building of the road, although he asserts it will be constructed within a comparatively short time. The articles say nothing to disclose the identity of the backers of the proposed line.

Boise is named as the principal place of business. The routing of the road from Butte to San Francisco brings it into Eastern Idaho via Silverbow and Anaconda to Salmon and then southwest to Challis across Custer and Blaine Counties to Moore's Creek, the Boise River to Boise, east via Caldwell to Jordan Valley, following Crooked Creek to Goose Lake, down the Pitt River into Sacramento Valley to Woodland and on to Napa Junction, to Sausalito, Cal.

CHARGES TO BE FOUGHT

MILLER, INDICTED FOR SHIPPING VIOLATION PLEADS TODAY.

MOSCOW, Idaho, May 14.—(Special.)—Mark P. Miller, head of the Mark P. Miller Milling Company, indicted on four counts for violation of the interstate commerce act by the Federal grand jury yesterday, will appear before Federal Judge Detrich tomorrow to plead and offer bonds.

In a statement issued today Miller makes the claim that out of the shipment of 1000 carloads to points on the W. I. & M. during the time when agents were investigating they could find but technical violations in only four carloads. He attributes these to clerical errors. He says he will meet the charges and fight them.

The \$80,000 damage suit of R. N. Wright against the Western Union Life Insurance Company came to sudden end in Federal Judge Rudkin's court tonight when both parties reached an agreement and settlement was made in which Mr. Wright accepted \$2000.

The grand jury brought in three true bills tonight and two not true bills against alleged violations of introducing liquor in Indian reservations. The grand jury will finish its work tomorrow.

Are You a Piano Expert?

After you have listened to the unstinted praise given an instrument by an enthusiastic salesman, after you have heard its tone, followed carefully the detailed account of how and of what it is made, looked at its hammers, its strings and sounding board, examined every part, ask yourself this question:

What Do I Know About a Piano?

All pianos look much alike, sound when new much the same, and, to the unskilled buyer, the commercial piano presents an appearance in case design and finish that covers the shortcomings of its interior construction, its lack of stability and the inferior quality of material used. In no store of ours is the shoddy construction of the commercial piano to be found. Instead, pianos from the best makers in the country in low, medium and high price are shown. Every piano is an instrument whose makers have made good and whose product has stood the one real test—time. Particularly fine are our cheap pianos. They are low enough in price and payments to meet your convenience; high enough to enable us to give you a piano that will fulfill every desire in quality and appearance. Your own interests demand that you visit our store and examine our stock before your purchase is made.
