REBEL SCENES OF

Retreating Garrison Hemmed in by Enemy — Constitutionalists Levy Tax on Foreigners as Well as Native Mexicans.

VERA CRUZ, May 17 -- With Tam o occuppled it is expected that part of Mexico will cease almost immediately to be the scene of constitutionalist operations except for the part the port will play as a base for supplies. The government has already declared it a closed port.

Including Matamoras, the constitu-tionalists now have in their possession three ports north of Vera Cruz.

To the west of Tampico the only fed-

erals are those who evacuated Tam-pico, and they appear to be in a hope-iess position. Retreating along the railroad toward San Luis Potosi, they are confronted by large forces control ling the region south and east of Careytos, about half way to San Luis Patosi. In their rear is a strong detachment sent forward by General Pablo Gonzales from his army holding Tampico. The federals are believed to have slight change of second have slight chance of escape.

FOR A FEW DAYS MORE, you can purchase the largest, most useful and most authoritative collection of up-to-date knowledge that has ever been issued in one work, at prices which are out of all proportion to the intrinsic value of its contents, and far less than are charged for ordinary books in the book stores.

Never before has it been possible to buy such a work for so little money.

It is, in fact, such a fine book that 60,000 people who have bought and paid for it keep telling us that it is a fine book, and all that we have said it was.

In many cases they have acknowledged that what they have learned from it was worth more to them than it cost.

Every person of intelligence, any one who is ambitious to get on in the world, every head of a family-all, in fact, who appreciate sound learning and who like to own well printed and handsomely bound books should give heed to this opportunity and investigate it before the present low prices are advanced on May 28th.

The Book That "Corners" All Human Knowledge

The man who owns a set of this wonderful work of all human knowledge—the new Encyclopaedia Britannica—"the world put into a book"—may be said, in a very real sense, to have a "corner" on the knowledge of mankind, for if every other set of this work were destroyed it would be possible for him to reconstruct the human story from its 30,000 pages and 44,000,000 words of text.

UNLESS YOU ACT AT ONCE

You run the risk of missing the last chance to get an indispensable book at a price which is only possible because of the exceptional circumstances of its publication. You may, or may not, decide to buy now. But if you do buy, it will be at a substantial saving and you will have the added satisfaction of acquiring a thoroughly good book at a price which is really a great bargain.

On May 28th the present price will be advanced in all bindings.
