Packers Making Little Effort to Contract New Crop.

GROWERS ARE VERY FIRM

Estimates of Northwestern Yield Range From Six to Nine Million Pounds-World Supply Much Less Than Last Year's.

There is still a lack of activity in the Northwestern prune market, and with the crop situation as it stands, conditions could ardly be otherwise. Packers are making very little effort and some of them no ffort at all, to contract with growers. Belined to talk business with buyers

Estimates of the 1914 crop, made by five or six of the largest packing concerns in the Northwest, range from 6,090,000 to 9,000,000 pounds of dried prunes. This does not include Eastern Oregon, Eastern Washington or Idaho, which sections generally ship their prunes fresh. However, on account of the good velocs of dried prunes. count of the good prices of dried prunes this year, these latter districts may cure their prunes this season,

Taking a world view of the prune market, leading authority furnishes the following imparison of the prospective 1914 tonnage th that of 1913:

for 1914 about 41,000,000 pounds less than that for 1913. Prices ruling the world over now are fully 30 per cent ligher than they were at this time last year. It remains to be seen what will occur to prices when new goods are actually ready for cor

DEMAND FOR WHEAT NOT IMPORTANT Buyers Quoting Lower Prices, but there Is Little Wheat to Buy.

heat market continues in a mos nactive condition. Buyers are disposed to quote lower prices, but there is little wheat to buy and the demand is unimportant. The Eastern and foreign markets are holding strong and this tends to prevent Coast mar-kets from going off faster. In explanation of the attempth abroad, Broomhall says in his international review: The principal factor in the market dur

ing the week has been a diminution in the available supply imported, with a scarcity of native wheat in the United Kingdom and me Continental countries, together with a sucity of shippers' offers for nearby ship-ent. Although the world's shipments are mawhat heavier, the proportion to the nited Kingdom is small, but I expect urther heavy shipments in the near fubecause of better roads and the re-ing of waterways, which will enable ers to forward their grain more freely to shipping ports, and these increased ship ments will relieve the stringency of the spot situation, which threatens to become The outlook for the growing crop been exerting a great influence, which to the present has been bearish, but uding to latest advices, the Spring crops the States and Canada are not making s very favorable start; although the crop outlook in Europe is generally favorable, there are some complaints from Hungary nd Roumania and some parts of France. The distribution of imported wheat into Surope during April has amounted to 11. Crop prospects in the leading exporting

STOCK INQUIRY BROAD

MARKET ADVANCES WELL ABOVE LAST WEEK'S LEVEL.

Firm Tone of Foreign Exchanges Class Effect on Wall Street Prices. Bonds Irregular.

NEW YORK, May 18.—There was a broad inquiry for stocks today and the market advanced materially above the level reached on last week's rise.

The firm tone of the foreign market also was a favorins influence.

The unexpectedly poor bank statement of Saturday had some effect on the money market. Rates for short-term loans were higher and mercantile discounts also were on a firmer basis.

Bonds were irregular. Total sales, par value, \$1,880,980. United States bonds were unchanged on call.

Profit Taking by Bulls at Advance Causes Reaction -- Corn Breaks on Larger Country Offerings. Oats Also Lower.

CHICAGO, May 18.—Wheat had a general higher range today. Under free profit-taking by longs, however, the market closed unsertised at 10 % to net lower to 16 advance. Corn finished %c to % \$1c down, vance. Corn finished %c to % \$1c down, oats off % \$1c to %c and provisions varying from The decline to a gain of 2%c.

Wheat showed strength on account of continued spread of Hessian fly damage to crope. Nebraska and lows sent complaints, as well as Kansas, Missouri and Illinois. Profit-taking by bulls, however, caused a reaction. The market opened a shade of to %c up and made a slight further gain, but then losg virtually all of the advance. Renewed strangth developed as a result of predictions that before the end of the week the Hessian fly damage would be noticeable in most of the territory from Ohlo to Okiahoma. The close was unsettled.

Larger country offerings led to a sharp break in the corn host an early advance and something besides.

Provisions weakened with corn. The sethack followed an upturn due to hog receipts not being so liberal as expected.

The leading futures ranged as follows:
Wheat, No. 2 red, 974 @38%c; No. 2 Spring, 96% @37%c.
